

MASTER'S DEGREE PROGRAMME IN EDUCATION AND GLOBALISATION

A MASTER'S FROM FINLAND

The reputation of Finland for its education system is very high. International comparisons and OECD assessments have ranked Finland as a world leader. The Faculty of Education at the University of Oulu has been showing the way in International Education for decades.

Internationalisation, globalisation and cultural diversity have brought about many new challenges for the planning, implementation and evaluation of educational and social policies. To respond to these challenges, the Faculty of Education at the University of Oulu is using its experience and expertise to offer an international two-year Master's Degree Programme in Education and Globalisation (120 ECTS credits).

FUTURE CAREER OPPORTUNITIES

The professional foundations of the EdGlo programme are related to tasks in research, planning, administration and teaching in the field of education, and also tasks in different organizations offering consultation and guidance. The EdGlo graduates are competent to work in national and international contexts in the public, private and civil society sectors, in occupations such as project leaders, coordinators, educational consultants, evaluators, researchers, teachers and administrators.

CONTENTS

The EdGlo programme focuses on ethics, theory, policy, planning, curriculum, evaluation and comparative research in education. The central aim of the programme is to develop quality in education and to equip students to exercise socially responsible leadership in complex and diverse societies.

The programme emphasises North-South-East-West dialogue and includes studies in multiculturalism, interculturalism, globalisation and their effects on various sectors of education.

Programme outline:

- Language and Orientation Studies (5 ECTS)
- Advanced Studies in Educational Sciences (80 ECTS)
 - Issues in Globalisation 5 cr.
 - Ethics and Education 5 cr.
 - Nordic Education in the European and Global Context 5 cr.
 - Educational Policy, Planning and Leadership 5 cr.
 - New Learning Environments and Technology 5 cr.
 - Internship 5 cr.
 - Research Methodology 10 cr.
 - Master's Thesis 40 cr.
- Minor Subject Studies (25 ECTS)
- Optional Studies (10 ECTS)

QUALIFICATIONS

After completing the programme, students are awarded a Master of Arts (Education) degree which enables them to continue their academic studies at doctoral level. This degree does not constitute a formal teaching qualification.

EdGlo graduates are able to:

- make informed and ethical decisions in complex and diverse education environments in local and global contexts
- exercise socially responsible leadership in the fields of policy, curriculum, planning and evaluation in educational contexts
- conduct and utilize research that is robust and relevant to national and international debates in education
- work ethically and productively in partnership with diverse individuals, groups and communities
- show cross-cultural competence, seeing linguistic/cultural/ethnic/gender/sexual/religious/ideological difference as a source of learning
- introduce multiple perspectives into their professional activities and research and engage with different knowledges/ cultures in ethical ways
- relate to the constantly changing nature of education and society, recognizing professional development as a collaborative process of lifelong and lifewide learning
- use information technology to enhance professional development and practice in informed and critical ways

PREREQUISITES

A Bachelor's degree or an equivalent higher education degree is expected from all applicants. Preference will be given to applicants with a background in education and/or social sciences. Participation in the programme requires good English skills.

HOW TO APPLY

Stage 1: Written applications with references and copies of certificates. The deadline for written online applications is 31 January annually. The links to the online application and the reference form are available at www.wedu oulu.fi/edglo. After completing the online application, it needs to be printed, signed and sent by post to University Admissions Finland.

Stage 2: Interviews. Maximum of 60 applicants will be invited for an interview on the basis of written applications and certificates. Interviews will take place in April. Applicants residing outside Finland can be interviewed via telephone or skype.

UNIVERSITY OF OULU

The University of Oulu was founded in 1958, and today it is one of the largest universities in Finland with 16 000 students and 2900 staff members. The university has a large scientific base of nine educational areas, which are organised in six faculties: Humanities, Education, Science, Technology, Medicine and Economics and Business Administration.

Five of the six faculties are located at the Linnanmaa campus, a vast complex of modern classrooms, libraries, restaurants, sport facilities, health care services and student housing. Many students live on-campus in student flats. More information about the housing matters can be found at the PSOAS (Student Housing Foundation of Northern Finland) web pages www.psoas.fi/.

CITY OF OULU

The city of Oulu on the shore of the Gulf of Bothnia was founded in 1605 by the order of King Carl IX of Sweden. It is situated about 600 km north of the Finnish capital, Helsinki, and 200 km south of the Arctic Circle. The City of Oulu is the capital of northern Finland. The Oulu Region has over 200.000 inhabitants and it is the fastest growing region in Finland. The City of Oulu itself has 140.000 inhabitants. Oulu is the cultural, commercial and administrative centre for central and northern Finland. There are good opportunities for studying, working and research and development. The Oulu Region also has a lively cultural climate.

The well-developed infrastructure provides frequent connections to the capital and links to Europe, to North-West Russia and it is a gateway to the arctic regions. Transport connections are direct and fast, regardless of the means of transport or direction. All main roads meet in Oulu. Oulu has an international airport and there are about 15 flights to and from Helsinki each day. In addition, you can fly direct from Oulu to Riga, Tampere, Rovaniemi and Kemi-Tornio. Oulu railway station is one of the busiest in Finland.

Oulu is one of the Northern Europe's most significant centres of technology and innovation. Nowadays the Oulu Region is well known for its technology, the hi-tech growth having started after the establishment of Oulu University in 1958. There are two science parks in the region: Technopolis Plc, Scandinavia's first science park, and Medipolis Ltd., as well as a technology centre, Ii Micropolis Ltd. The region is home to many hi-tech companies, such as Nokia, and the sector currently employs over 10,000 people. There are several research institutes, including VTT Technical Research Centre of Finland and the University Hospital.

FINLAND

Finland (Finnish name Suomi), located in Northern Europe with a population of 5.3 million, is in many ways idyllic with a great deal of unspoilt nature. With the area of 338.424 km² Finland is the fifth-largest country in Western and Northern Europe.

The climate in Finland is temperate. The summers are sunny, warm and bright with temperature in June-August varying from +15 to even +30 degree Celsius. During the midsummer period the sun is up almost 24 hours a day. During winter temperature can drop to as low as -30 degree Celsius with the sun shining only for a few hours per day.

Finland is a modern welfare state with a high standard in education, social security and healthcare, all financed by the state. Finland has been a member of the European Union since 1995.

There are two official languages, Finnish (spoken by 91 %) and Swedish (5,4 %). Saami, the language of the indigenous population in Finland, has an official status. English is widely used and understood.
