WELCOME TO THE UNIVERSITY OF OULU

University of Oulu is an international science university where we create know-how for the future and produce new information to build a more sustainable, healthy and intelligent world. Founded in 1958, University of Oulu is one of the largest universities in Finland and one of the northernmost multidisciplinary universities in the world, with 10 faculties, over 14,000 students, and nearly 3000 employees.

We educate competent experts capable of creating successful, lifelong careers in the dynamic work market. Our degree programmes are inspiring and student-centered, and they encourage each student to achieve their full academic potential. This has created a culture where anything is possible. As a fact, many innovations that have changed the world have their roots here in Oulu.
To apply for a Master’s degree programme at the University of Oulu you are required to hold a Bachelor’s degree or equivalent, from an institution of higher education, with good or excellent merits. The degree must be equivalent to at least three years of full-time studies (180 ECTS).

More information on Master’s programmes, language requirements, how to apply and admissions criteria:
www.oulu.fi/university/masters
admissions.officer@oulu.fi

The University of Oulu International Master’s Scholarship Scheme (IM Scholarship) provides scholarships to academically talented international students. The scholarship is aimed at students studying for a Master’s degree in the University of Oulu two-year International Master’s programmes.

More detailed information about the Scholarship Scheme for non-EU/EEA students:
www.oulu.fi/university/masters/scholarships
Apply for exchange
Our all ten faculties offer courses in English. Start planning your exchange by having a look at our offerings and contacting your home institution’s international office. Exchange students can apply through existing exchange agreements or as free mover students. Once your home university has nominated you for exchange to the University of Oulu we will send you detailed instructions on how to leave your application online. The whole application process including acceptance letters is conveniently handled electronically.

Services
Housing for exchange students is mainly organised through the local student housing foundation PSOAS, although finding a room from the private markets is also possible. Active student organisations will guarantee international students a wide variety of social gatherings, trips near and far, and cultural adventures.

Terms and application deadlines
Application instructions and login to our online application are sent through e-mail to students nominated by the home university.

Autumn term: September to mid-December
Spring term: early January to late May
end dates may vary between departments.

Application Deadlines:
April 30 for full academic year and autumn term
October 15 for spring term

Science with Arctic Attitude

Pushing the boundaries of the known for a more sustainable, healthy and intelligent world

A unique environment for students from different disciplines to enjoy learning

Our educational mission is to provide higher education based on research, and to educate youth to serve society and humanity. The overall aim is to further improve the quantitative and qualitative results and impact of education. Our approach is to develop education as an integral part of our scientific activity towards the following strategic aims:

1. High-quality degree programmes attract engaged students

Education at the University of Oulu relies on an international research base, produces academic competence relevant for future working life, and takes advantage of the strengths and networks of the multidisciplinary university. Our degree programmes are inspiring, student-centred and encourage each student to achieve their full academic potential.

2. Smooth studying processes

Our degree programmes enable a smooth studying process with clear goals and a high success rate at all levels. The number of students passing at least 55 ECTS annually remains the highest in Finland. We encourage our students to take an active role in creating the learning process. The assessment of students reflects this approach. Customer-oriented, efficient student services and learning support tools enable the student to concentrate fully on the joy of learning.

3. Modern, digitalized learning environments and pedagogic development

Our pedagogically skillful staff rely on the latest research knowledge in teaching to create an inspiring studying atmosphere. Support activities and facilities match the needs of a diverse student population.

4. Structures supporting cooperation with working life

We educate competent experts capable of creating successful, lifelong careers in the dynamic work market. Contacts with working life are developed through the Open University, lifelong learning, working life practice coordination and specialisation education. The advantages of a multidisciplinary university are promoted for minor studies selection.

5. Systematic doctoral education

Doctoral training is coordinated by a university-wide graduate school. It offers transferable skills courses, and field-specific training in doctoral programmes that embrace research excellence. Personal study plans, combined with skilled supervision, enable graduation in four years and aid doctorate students to demonstrate clear research impact during their thesis projects.
YOU CAN EASILY FIND LIKE-MINDED PEOPLE AND NEW INSPIRATION FOR YOUR FREE-TIME ACTIVITIES
UniOulu Experience

University of Oulu welcomes hundreds of international students each year. We meet and greet all new students in the Orientation. You also get to meet your fellow students, both international and Finnish.

UniOulu takes care of individuals. At your department you will have a personal academic contact who can be addressed casually by their first name and who will help you with making your individual study plan. A well prepared study plan is a valuable tool to make progress in your studies.

You also get to meet your kummi, your first student colleague, online even before arriving. Kummis are senior students, trained to help you in the beginning to get accustomed to daily life in Oulu.

Student housing
The local student housing foundation PSOAS offers a wide range of accommodation possibilities, from shared apartments to studios, around the city area. No matter where you live in Oulu, services ranging from supermarkets to libraries and sport facilities are close to your home. PSOAS is ranked by students as one of the leading housing providers in the world.

Tellus Innovation Arena
Tellus Innovation Arena is an open innovation space located at the heart of Linnanmaa campus area. It’s built for learning, collaboration and events for all open-minded explorers from inside and outside of the university. Meet people, develop ideas and present projects – it makes all the difference.

Health services
Student health services for all Bachelor and Master level students are located at the Linnanmaa campus. Health services include medical, mental, and dental treatment. Most services are free of charge while some incur a nominal fee.

Student organisations
Student organisations are experts in organising cultural activities, sporting events, parties, and trips in Finland. These study-field-specific organisations have internationally experienced members with first-hand knowledge to share. In addition, there are two university-wide student organisations with special interest in issues in international education.

University sports
Finns are sports enthusiasts. The university offers sports activities for its students and staff ranging from ballet to climbing and yoga, from kayaking to cross-country skiing. Feel free to pick the one that is closest to your body and soul!
“My studies in Oulu is not just about theories and lectures but building everlasting relationships that will definitely help in building my future career.”

Modou,
International Business Management

“I was fascinated by its multidisciplinarity and found the study programme which got me interested. Besides, Oulu seemed like a great city to live in. Now, after 2 years of being here, my feeling of belonging is as strong as ever.”

Sergei,
Learning, Education and Technology

“Winters are white with lots of snow whereas summers are very bright, full of life and greenery. Local people are friendly, and the university offers an international environment.”

Albanor,
Architecture

“I chose Oulu as an exchange student because I wanted to study in a place that was very different from my home. I returned here for my master studies because of the friends I made, the wonderful nature and the degree programme that suited my interests.”

Márta,
Learning, Education and Technology

“I like the friendly and welcoming atmosphere in Oulu. The studies are really flexible and goal oriented.”

Hasan,
Software, Systems and Services Development in Global Environment

Finland – the world’s best kept secret

One of the world’s most peaceful countries
The country of thousands of lakes, Lapland wilderness, and high technology cities, Finland has been recently ranked as one of the most peaceful, competitive and happiest countries in the world. Finland has a diversified modern industrial economy and the income per capita is among the highest in Western Europe.

Modern welfare state
A member of the European Union since 1995, Finland was the only Nordic state to join the Euro system at its initiation in January 1999. Today, the key features of Finland’s modern welfare state are a high standard of education, equality promotion, and national social security system.

Easy access
From Finland you have easy access to Asia, Russia, other Nordic countries, and Continental Europe. The two official languages, Finnish and Swedish, are complemented with English as many Finns speak fluent English.

Finland
- has 5.4 million inhabitants, 17.9 inhabitants per square kilometre
- is one of the leading countries in internet and mobile phone use
- has ca. 2 000 000 saunas
- has exactly 187 888 lakes
- is the home of sauna, sisu, Angry Birds, Supercell, Marimekko, Nokia, Alvar Aalto and Santa Claus
- has one of the highest educational participation rates in the world

Finns
- are among the biggest coffee drinkers
- are among the biggest ice-cream eaters
- claim sports as their favourite leisure time activity

The creatively innovative arctic attitude
A youthful student city, Oulu is of comfortable size, it has tranquil surroundings and a Scandinavian ambience. Living in Oulu means easy access to both high technology and wild nature. Museums, architecture, cinemas, clubs, festivals, concerts, theatres, libraries – the arts and culture of Oulu have many venues. Polar Bear Pitching, Oulu Music Video Festival and Air Guitar World Championships are just a few examples of the creatively innovative northern attitude.

120 different nationalities
In Oulu, you have the opportunity to live in a safe and active environment. Already 120 different nationalities call Oulu their home. The Oulu region is the fastest growing region in Finland.

Collaboration between the University of Oulu, the city, research institutes, and businesses has been remarkably productive. For a large number of companies, Oulu has been a favourable environment for their R&D and the region has played a vital role in Finland’s technological lead.
