</tbody>
</table>

¹ Pooled room samples, 5 cages/room
² Tested for Aspiculuris tetraperta and Syphacia obvelata
Abbreviations used in this report:

Bead  Multiplexed immunoassay
Cult  Culture
FFSA  Laboratory of the Finnish Food Safety Authority, Oulu
Flot  Faecal flotation
IFA  Immuno-fluorescent antibody
LAC  Laboratory Animal Centre, University of Oulu
Micr  Microscopy
MLN  Mesenteric lymph node
NT  Not tested
PCR  Polymerase chain reaction
SD  Surrey Diagnostics Ltd, University of Surrey

Oulu, 5th May 2015

Place and date

Hanna-Marja Voipio
Prof., DVM, Ph.D., DipECLAM
