

## START-UP COMPANIES

FROM THE RESEARCH WORK DONE AT THE UNIVERSITY OF OULU

(year 2001→)

[Atomia Ltd](#) on verkkoyritys, joka toimii sulautettujen järjestelmien erikoisliikkeenä. Se edustaa sulautettujen järjestelmien uusimpia tuotteita ja työkaluja.

Spin-out of [Computer Engineering Laboratory](#).

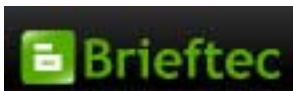

[Bioactive Bone Substitutes Ltd \(BBS\)](#) is a biotechnology company specialized in innovative therapeutic substances for bone regeneration.

Spin-out of [Department of Surgery](#).

[Biosilta Ltd](#) is a biotechnology company who develops uses of enzyme and biocatalytic activity to advance cell culture technology across a greater range of product formats and bacteria.

Spin-out of [Bioprocess Engineering Laboratory](#).

[Brieftec Ltd](#) is a mobile solution provider for various information management processes. It provides tools for mobile phone users concentrating primarily on the service industry, the event and exhibition industry as well as the interactive education industry.

[Clarified Networks Ltd](#) is a company specialized in providing the collaborative networks analysis tools and services to make modern networks secure and robust.

Spin-out of the [Oulu University Secure Programming Group \(OUSPG\)](#).

[Codenomicon Ltd](#) produces state-of-the-art blackbox, negative testing solutions for improving the quality of software implementation.

Spin-out of the [Oulu University Secure Programming Group \(OUSPG\)](#).

The logo for Cellogico, featuring the word "Cellogico" in a bold, sans-serif font. "Cello" is in red and "gico" is in blue.

Cellogico Ltd computer simulations are used in the beginning of drug development to understand complex cellular disease mechanisms and estimate the effect of new drug targets.

Spin-out of [Department of Physiology](#).

[Connective Tissue Gene Tests \(CTGT\)](#) performs molecular diagnosis of inherited disorders affecting connective tissue. The main focus is on bone and cartilage disorders.

Spin-out of [Department of Medical Biochemistry and Molecular Biology](#).

[Farmind Ltd](#) is a game developer who is specialized in console based development.

Spin-out of [Department of Information Processing Science](#).

[Intopii Ltd](#) is a company that equips machines with human-like abilities to sense, learn, generalize, and adapt to changing conditions.

Spin-out of [Machine Vision](#) and [Intelligent Systems Group](#).

The logo for Joticon, featuring the word "Joticon" in a bold, blue, sans-serif font.

[Joticon Ltd](#) on käytettävyys- ja käyttöliittymäsuunnittelun asiantuntijayritys, joka tarjoaa palveluita kehityshankkeiden eri elinkaarivaiheisiin ja käytettävyysuunnittelun kypsyystason nostamiseen.

Spin-out of [Department of Information Processing Science](#).

The logo for Koneltech Oy, featuring the word "Koneltech" in a bold, purple, sans-serif font, followed by "Oy" in a smaller, purple, sans-serif font. The text is set against a light green background.

[Koneltech Ltd](#) has developed TopoR which is a topological autorouter for printed circuit boards reducing total wire length.

[Kuetku Games Ltd](#) is a mobile game and software developer. The approach combines games and applications with location based

content and services, with a window to the web.

Spin-out of [Department of Information Processing Science](#).

[Ludocraft Ltd](#) studies games and applies the theoretical knowledge into game design. The approach combines theoretical, technical and artistic expertise in serving both the academic and the practitioner communities.

Spin-out of [Department of Information Processing Science](#).

[NanoGalax Ltd](#) operates in nanoresolution instrument development.

Spin-out of [Microelectronics and material physics laboratories](#).

[Neagen Ltd](#) ohjelmistoyritys, joka kehittää ohjelmistoratkaisuja terveydenhuollon ammattilaisille. Sen erikoisalana on lääketieteelliseen kuvantamiseen liittyvät kokonaisratkaisut.

Spin-out of [Department of Diagnostic radiology](#).

[Nelilab Ltd](#) operates in applications of mathematics to improve products or the efficiency of production processes.

[Nome Ltd](#) has specialized in providing proactive solutions for industrial processes.

[NoseMedical Ltd/Nuhalaboratorio Oy](#) on nenähengityksen mittauspalvelua kehittävä, markkinoiva ja myyvä yritys.

Spin-out of [Department of Otorhinolaryngology](#) and [Intelligent systems group](#).

[Novamass Ltd](#) assists drug developers to understand the characteristics of their molecules by performing studies simulating the disposition of a drug molecule in human body.

Spin-out of [Department of Chemistry](#) and [Department of Pharmacology and Toxicology](#).

[Sensinode Ltd](#) provides affordable, reliable and scalable low-power IP-based wireless sensor network solutions.

[SensApex Ltd](#) is a research and development company specialized in new sensor and actuator technologies.

Spin-out of [Physical Sciences, Biophysics](#).

[Viherio Ltd](#) develops web-based services for golfers and golf-clubs. It tries to make the collection of game information easier and more rewarding than traditional pen and paper-method.

[Visidon Ltd](#) is a software development company that provides video processing technology. It offers real-time face image processing, video enhancement and user interaction techniques for various embedded and mobile device platforms.

Spin-out of [Machine Vision Group](#).
