email: opintopsykologi@oulu.fi

INSTRUCTIONS FOR SPECIAL STUDY ARRANGEMENTS

The form can be found at the URL <http://www.oulu.fi/yliopisto/lomakkeet-esteettomyys>

A student can apply for special arrangements on certain grounds. Special study arrangements refer to specific measures pertaining to the assessment and practical completion of the studies. There can be many kinds of special arrangements, e.g. extra time to complete an exam, an oral exam, a disturbance-free space or a permission to use a computer.

The qualifying grounds include eg. a hearing or visual disability or other sensory disability, dyslexia or panic disorder or Asperger syndrome. Expert statements must be appended to the application (medical certificates etc.). Information on the applicant's health is confidential (Act on the Openness of Government Activities section 24 subsection 1 paragraph 25.)

The student must deliver the application for special study arrangements personally to the University accessibility contact person. Appointments can be booked via e-mail opintopsykologi@oulu.fi or by phone 0294 483 496.

The contact person will plan the necessary special arrangements together with the applicant. After that, a proposal for special arrangements will be added to the application. The application will be valid for five years and it can be renewed if necessary.

This form will be used when agreeing upon the special arrangements with the teacher. The teacher will always make the final assessment on the practicalities of the requested special arrangements. The assessment will be made on the basis of the objectives of the course in question and keeping in mind the proposal of the accessibility contact person.
