Education and Globalisation (EDGLO) is a full-time two-year international Master's programme. Students major in educational sciences. The central aim of the programme is to develop quality in education and to equip students to exercise socially responsible leadership in complex and diverse societies. The programme emphasises North-South-East-West dialogue and includes studies in international education, interculturalism, globalisation and their effects on various sectors of education.

More specifically, the programme focuses on ethics, policy, planning, curriculum, evaluation and comparative research in education. It aims to develop the appropriate competencies and knowledge needed in planning, evaluation, research and development tasks in education and related fields in the midst of societal changes, both on the local and global levels. Students will be awarded an MA (Education) degree with the possibility to continue for doctoral studies.

Students are expected to complete their studies within two years’ time.

Course structure diagram is available at [http://www.oulu.fi/edu/degree%20structures](http://www.oulu.fi/edu/degree%20structures).

### Tutkintorakenteet

**EdGlo Master's Degree Programme in Education and Globalisation**

Tutkintorakenteen tila: archived

Lukuvuosi: 2019-20

Lukuvuoden alkamispäivämäärä: 01.08.2019

**1. General Studies. Language, Communication and Orientation Studies (5 ECTS cr) (vähintään 5 op)**

In the EdGlo programme, all students must complete 5 ECTS credits of general studies. The general studies are divided to language studies (2 ECTS credits) and communication and orientation studies (3 ECTS credits). These studies provide an orientation to the university studies in Finland and particularly to the EdGlo programme. Students focus on the Finnish education system, academic culture and traditions, scientific knowledge construction, and various forms of academic communication, particularly academic presentations.

1a) **Language Studies, 2 ECTS credits**

All students must complete 2 ECTS credits of language studies:
- Foreign students must complete the Survival Finnish Course (900017Y) or alternatively if they have already basic skills in Finnish, they can choose a more advanced level Finnish course (min. 2 ECTS credits) or a course in another language (min. 2 ECTS credits) from the courses offered by the Languages and Communication.

Examples of other courses offered:

900013Y Beginners' Finnish Course 1 3 ECTS cr
900053Y Beginners' Finnish Course 2 5 ECTS cr
900054Y Conversational Skills in Finnish 3 ECTS cr
900015Y Intermediate Finnish Course 1 5 ECTS cr
900016Y Intermediate Finnish Course 2 5 ECTS cr

- Finnish citizens must complete the Swedish language course (901001Y).
If they have already completed an equivalent course as a part of their Bachelor’s degree, they must choose min. 2 ECTS credits of other language studies from the courses offered by the Languages and Communication at the university.

If the student’s secondary and upper secondary level studies have not included studies in the Swedish language she/he can be exempted from these studies on the basis of the application addressed to the Faculty.

1b) Communication and Orientation Studies, 3 ECTS credits
In the EdGlo programme, all students complete the course 405512Y Orientation to the Finnish Culture and Educational System.

408531S: Qualitative Research, 5 op

Voimassaolo: 01.08.2018 -
Opiskelumuoto: Advanced Studies
Laji: Course
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opettajat: Katri Jokikokko
Opintokohteen kielet: English

ECTS Credits:
5 ECTS

Language of instruction:
English

Timing:
1st year, 3rd and 4th periods (LET and EDGLO students)

Learning outcomes:
Having completed the course, the student
- knows how to describe and interpret qualitative data analysis methods used in education and psychology and their background
- knows how to analyse and interpret typical educational and psychological research data
- knows how to assess the credibility, reliability and ethicality of her/his own research and research done by others

LET STUDENTS:
After completion of this course, the student is able to
- process and analyse qualitative data
- describe and report on results based on qualitative research data
- utilize mixed method approach
- evaluate the ethicality and reliability of qualitative research

Contents:
- the meaning of different paradigms and research traditions in the planning and implementation of qualitative research
- different reading methods in the analysis and interpretation of qualitative research data
- proving credibility in qualitative research
- research reporting in qualitative research
- ethical issues in qualitative research

LET STUDENTS:
- Basic and central concepts of qualitative research
- Process oriented research methods
- Mixed method approach
- Writing a research publication

Mode of delivery:
Face-to-face teaching (and possibly blended-learning)

LET STUDENTS:
Face-to-face and online teaching, 40h: 18h lectures, 22h practice
Online, individual and collaborative learning, 95h

Learning activities and teaching methods:
Lectures 18h, small group sessions 16h, independent work approx. 100h
LET STUDENTS:

- Learning activities consist of active participation in face-to-face meetings where researchers in the field of learning science and educational technology introduce various topics related to qualitative research.
- Each presentation includes an online task for the students.
- In addition to researchers’ presentations there will be seminars where the students are able to apply their research knowledge in practice.

In addition, the students reflect on their own learning and expertise in a digital portfolio.

Target group:
1st year students on the LET and EDGLO Master’s Programmes

Prerequisites and co-requisites:
Basic course in qualitative research, 5 credits, or an equivalent course

Recommended optional programme components:
The study module is a part of the advanced studies and supports the writing of a Master’s thesis

Recommended or required reading:

LET STUDENTS:

Assessment methods and criteria:
Exam, active participation in small group sessions, an essay
Read more about assessment criteria at the University of Oulu webpage.

LET STUDENTS:
Completion of the course requires active participation in face-to-face teaching and successful completion of all individual learning tasks:
5: The student has participated actively in all face-to-face meetings and done all required individual tasks according to the course requirements. All tasks represent very good familiarity with course contents, course materials, and additional materials. The student is able to express deep understanding of core course contents in the digital portfolio.
4: The student has participated actively in all face-to-face meetings and done all required individual tasks according to the course requirements. All tasks represent good familiarity with course contents and course materials. The student is able to express understanding of core course contents in the digital portfolio.
3: The student has participated actively in most of the face-to-face meetings and done all required individual tasks. Tasks mostly represent good familiarity with course contents and core course materials. The student is able to express understanding of core course contents in the digital portfolio.
2: The student has participated in several face-to-face meetings and done individual tasks, but there are a few tasks missing. Tasks are done mostly based on one’s own experiences and opinions, not on course literature and other course materials. Reflection of one’s own learning in the digital portfolio is mostly superficial.
1: The student has been passive in face-to-face meetings, and there are assignments missing or they represent superficial understanding of the course content. The student is able to express the understanding of some course content either in the digital portfolio or in individual tasks, but the level of reflection is superficial and irrelevant, and it does not represent familiarity with the course materials.

**Learning outcomes:**
Having completed the course, the student
- knows how to analyze and interpret typical educational and psychological quantitative research data by using research methods designed for the examination of one-, two- or more dimensional distributions
- knows how to describe the basic ideas of research data analysis based on structural equation modelling and how to interpret models created by others
- knows how to assess the credibility, reliability and ethicality of her/his own research and research done by others

**Contents:**
- statistical testing
- classic multivariate methods
- modelling by means of linear structural equations
- publishing the results of statistical methods of analysis in a research report

**Mode of delivery:**
Face-to-face teaching (and possibly blended-learning)

**Learning activities and teaching methods:**
Lectures 18h, small group sessions 14h, independent work app. 100h

**Target group:**
Students pursuing advanced studies in the Faculty of Education

**Prerequisites and co-requisites:**
Basic course in quantitative research 5 cr. or equivalent studies in statistics

**Recommended optional programme components:**
The study module is part of the advanced studies in the education programme and supports the writing of a Master's Thesis

**Recommended or required reading:**

**Assessment methods and criteria:**
The students carry out, either independently or in small groups, assignments of analyzing quantitative data, in which the basis and materials are provided by the lectures, literature and other sources whenever
possible (such as recordings of expert lectures). In concrete terms, a learning assignments can consist, for instance, of the analysis of data collected for the student's own thesis, or of sample data used in the course. By agreement, the course can also be arranged and carried out in other ways, such as by taking part in the activities of a research group in the faculty.

The student's course performance is

0 = unfinished and fragmented, with no concretization of the basic principles of analyzing quantitative research data
1 = highly superficial, the analysis is very superficial and contains lots of mistaken interpretations and erroneous conclusions
2 = superficial, the analysis is superficial and contains some mistaken interpretations and erroneous conclusions
3 = reflective, the analysis is justified and the results do not reveal many mistaken interpretations or erroneous conclusions
4 = an analytical and partly very successful whole, in which the proper methods of analysis were chosen for each situation, the student knew how to interpret the results mainly right without any significant erroneous conclusions
5 = a systematic and analytical whole, in which the proper methods were chosen for each situation, the student knew how to interpret the result correctly without any erroneous conclusions

ECTS Credits:
5 ECTS + 30 ECTS Thesis

Language of instruction:
Finnish and English (especially in the ITE programme)

Timing:
4th and 5th years

Learning outcomes:
Ther student
• gets practice in using the basic concepts of his/her branch of science and knows how to determine and analyze the main research results in his/her field of science and how to evaluate them in relation to his/her own research
• masters the research methods chosen by him/herself and is able to describe the scientific traditions of the educational and social sciences, especially education and educational psychology
• knows how to compose alone, in pairs or in a group an educational thesis that show familiarity with its topic and proves a readiness for scientific thinking
• knows how to evaluate studies made by others and take part in scientific debate and defend his/her own thesis

Contents:
5 credits: seminar session and 30 credits: writing a thesis
1. Composing your own research plan and presenting it in a seminar.
2. Presenting an international (or domestic) refereed article related to your own thesis in a seminar (to be agreed on with the supervisor)
3. Presenting an intermediate stage of your own thesis (e.g. methodological solutions/basis of analysis - to be agreed on with the supervisor)
4. Presenting your Master's thesis and responding to an opponent's criticisms.
5. Acting as an opponent to another student's thesis
6. Other activities in the seminars
7. Finishing your own thesis
