Minor studies (75-85 ECTS cr) (75 - 85 op)

There are no strict stipulations on the minor subjects of degrees at the Faculty of Education. You may select your minor subjects freely from among those offered by the University of Oulu. A Bachelor's or Master's degree shall include at least one minor subject with the scope of intermediate studies.

You may choose to do minor subjects of 3x25 credits OR 1x60 and 1x25 credits to be included in your Bachelor's degree.

Optional studies (10-20 ECTS cr)

Depending on the scope of the minor subjects and optional language, communication and orientation studies, you need 0-20 credits of free-choice studies to complete your Bachelor's degree. These can include any studies at university level.

Educational Sciences, Master's degree (120 ECTS cr)

Tutkintorakenteen tila: archived

Lukuvuosi: 2012-13

Lukuvuoden alkamispäivämäärä: 01.08.2012

Language, communication and orientation (5 ECTS cr) (vähintään 5 op)

Language, communication and orientation studies consist of one 3-credit course and one 2-credit course.

410015Y Philosophy of science, 3 credits, is an obligatory course for all the students (unless you have completed it as part of your Bachelor studies). The student shall also complete one of the following to courses:

900075Y Speech communication, 2 credits
 900071Y Scientific communication II, 2 credits

If you already completed 410015Y Philosophy of science (3 credits) as part of your Bachelor studies, you shall take any university-level course in its place.

Advanced studies (80 ECTS cr) (vähintään 80 op)

The student shall choose either education or educational psychology as the major subject of his/her Master's degree. Basic and intermediate studies in the major subject must have been completed. For your Master's degree, choose advanced studies in your major subject.

ay902130Y Foreign Language (English) (OPEN UNI) 3.0 op

Voidaan suorittaa useasti: Kyllä

Proficiency level:

B2

Status:

Compulsory course for 1st year students of education.

Required proficiency level:

English must have been A1 or A2 language at school or equivalent English skills acquired otherwise. If you received the grade "L" or "E" in the Finnish matriculation exam, you can be exempted from **the first part of the course**.

ECTS Credits:

3 ECTS, workload is 80hrs (including 40 hrs of contact teaching)

Language of instruction:

English

Timing:

1st year: autumn term (1,5 ECTS - reading for academic purposes), spring term (1,5 ECTS - scientific communication)

Learning outcomes:

Objectives:

- to develop students' English language skills needed for effective communication on different topics related to teaching and educational research
- to practice comprehending and producing scientific oral presentations and written texts
- to introduce students to the concept of multiculturalism and its impact on education

Learning outcomes - by the end of the course students are expected to be able:

- to summarize, interpret and discuss academic texts on topics related to the field of education
- to write short essays on the topics related to teaching and educational research
- to search information on a chosen educational theme, and analyze, explain and orally communicate the ideas
- to describe and define the concepts of inter/multiculturalism, and identify and explain its effects on education

Contents:

- reading strategies and techniques with academic texts
- writing activities for summarizing and interpreting texts
- academic writing practice
- oral presentation practice
- intercultural awareness activities

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Small-group workshop, individual assignments and homework tasks

Target group:

Students of the Faculty of Education

Prerequisites and co-requisites:

-

Recommended optional programme components:

-

Recommended or required reading:

Course materials subject to a charge will be provided by the teacher

Assessment methods and criteria:

Regular participation in all contact teaching and completion of all required coursework.

Grading:

pass / fail

Person responsible:

Status:

This course unit is compulsory for all students undertaking a BA degree in Education, Subject Teacher Education, Primary Teacher Education, Technology Oriented Primary Teacher Education, Creative Arts Oriented Primary Teacher Education and Music Education.

Required proficiency level:

-

ECTS Credits:

2 credits

Language of instruction:

Finnish

Timing:

1st year of studies

Learning outcomes:

Upon completion of the course unit the student should be able to prepare a verbally and stylistically fluent scientific presentation. The student should be able to assess and revise his/her own texts and apply the conventions and practices of scientific writing to his/her own work, especially to his/her scientific theses or dissertations. The student should be able to recognise his/her strengths and weak points as a communicator.

Contents:

The basics and various types of scientific communication. The basic notions of grammatical correctness and the stylistic and formal conventions demanded by proper scientific discourse. Critical approach to source literature and the most common formal standards (referencing techniques, constructing bibliographies etc.). Throughout the course unit the student analyses and produces texts of various types.

Mode of delivery:

Opintokohteen kielet: Swedish

Leikkaavuudet:

ay901001Y Second Official Language (Swedish) (OPEN UNI) 2.0 op

Proficiency level:

B1/B2/C1 (CEFR scale)

Status:

This course is compulsory to all students. The language proficiency provided by the course unit is equivalent to the language proficiency required of a state official with an academic degree working in a bilingual municipality area (Act 424/03 and Decree 481/03).

According to the requirements of the law, the student must be able to use Swedish both orally and in writing in various professional situations. Achieving this kind of proficiency during a course unit that lasts for only one semester requires that the student has already achieved the necessary starting proficiency level prior to taking the course.

Required proficiency level:

The required [starting proficiency level](#) for students of all faculties is a grade of 7 or higher from the Swedish studies at secondary school (B-syllabus) or equivalent knowledge AND a passing grade from the proficiency test held at the beginning of the course unit. Based on this proficiency test the students are directed to brush up on their language skills with a self-study course (901028Y På väg 1-3, 2 ECTS credits) if it is deemed necessary; mastering basic vocabulary and grammar is a prerequisite to achieving the necessary language proficiency for the various communication situations one faces in professional life.

-If a student has not completed Swedish studies (B-language) at secondary school with a grade of 7 or higher, or his /her language skills are otherwise lacking, he/she must achieve the required proficiency level BEFORE taking this compulsory Swedish course unit. Information about brushing up on one's language skills can be found in Finnish [here](#).

ECTS Credits:

2 ECTS credits

Language of instruction:

Swedish

Timing:

autumn or spring term

Learning outcomes:

Upon completion of the course the student should be able to read and understand texts from his/her academic field and make conclusions based on them. The student should be able to write typical professional emails and short reports. He/she should be able to carry himself/herself according to Swedish etiquette when acting as host or guest. The student should also be able to discuss current events and special field-specific matters, use the vocabulary of education and plan and give short oral presentations relating to his/her own field.

Contents:

Communicative oral and written exercises, which aim to develop the student's Swedish proficiency in areas relevant to his/her academic field and future professional tasks. The student practises oral presentation and pronunciation. Situational oral exercises done individually and in pairs and groups. Discussions in small groups. Current texts about the student's special field. Listening comprehension exercises. Written exercises relating to the student's professional field.

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

2 x 90 minutes of contact teaching per week and related exercises, self-directed study, a total workload of 130 hours per course.

Target group:

Students of the Faculty of Education

Prerequisites and co-requisites:

See Required proficiency level

Recommended optional programme components:

-

Recommended or required reading:

The students will receive course material subject to a charge.

Assessment methods and criteria:

The course unit focuses on improving both oral and written language skills and requires active attendance and participation in exercises, which also require preparation time. 100% attendance is required. The course unit tests both oral and written language skills. Students participate in the teaching in either autumn semester or spring semester.

Grading:

Oral and written language proficiencies are tested separately and assessed using the so called KORU-criteria (publication of HAMK University of Applied Sciences, 2006). Separate grades will be awarded for the successful completions of both oral and written portions of the course unit: the possible passing grades are satisfactory skills and good skills (see language decree 481/03). The grades are based on continuous assessment and testing.

Person responsible:

See Contact teachers from Languages and Communication's home page

Working life cooperation:

-

Other information:

Students sign up for teaching in WebOodi. A student can only sign up for one teaching group. **When signing up in WebOodi, it is imperative** that the student fills in his/her university email address (paju.oulu.fi), major subject and Swedish grades attained during secondary education in the Further Information field. **The student will be notified of a place in the course unit via email prior to the beginning of teaching.**

412071P: Personality Psychology I, 5 op

Voimassaolo: 01.08.2008 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Jutta Karhu

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay412071P Personality Psychology (OPEN UNI) 5.0 op

ECTS Credits:

5 credits

Language of instruction:

Finnish

Timing:

1st year

Learning outcomes:

The student knows how to define the main concepts of personality psychology. S/he understands the factors associated with the structure and development of personality as well as the basics of research in the area.

Contents:

The following topics are covered:

- Basic concepts in personality psychology: identity, the self, motivation, emotions and life span.
- The significance of the interaction between somatic and social factors on personality and its development, personality and wellbeing.
- Research in personality psychology and central personality theories

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and other teaching 24 h.

Recommended or required reading:

Pervin (2002-): Science of Personality. 2. ed.-.

Vuorinen, R. (1990-2000): Persoonallisuus ja minuus. 1. p. -

Availability of course books can be checked [here](#)

Assessment methods and criteria:

Participation in lectures and other teaching. A lecture exam, a literature exam/essay.

Grading:

pass/fail

412056P: Basics of Cognitive and Neuropsychology, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Seppo Laukka

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay412056P Basics of Cognitive and Neuropsychology (OPEN UNI) 5.0 op

ECTS Credits:

5 credits

Language of instruction:

Finnish

Timing:

1st year

Learning outcomes:

- the student is able to define the principles of sensory functions and the nervous system
- the student knows how to evaluate modern research methods in the field of cognitive and neuropsychology
- the student identifies the structure and development of the nervous system and identifies the neural background and mechanisms of cognitive processes
- the student knows how to apply neuroscyhological research and research methods to her/his own activities

Contents:

The following topics are covered:

- basic cognitive processes, perception, memory, thinking, learning, action control.
- cognitive processes and their neural basis and neural mechanisms.
- structure and development of the nervous system
- cognitive and neuropsychological research and research methods.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and other teaching, 24 h and literature.

Recommended or required reading:

Kolb & Whishaw: Fundamentals of Human Neuropsychology, 5th edition, chapters 1-10.
Hämäläinen ym. (eds.) Mieli ja aivot: Kognitiivisen neurotieteen oppikirja (2006), luvut 2-4).

412057P: Applications of Psychology: Psychology of Health and Mental Health, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Virva Siira

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay412057P Clinical Psychology: Psychology of Health and Mental Health (OPEN UNI) 5.0 op

ECTS Credits:

5 credits

Language of instruction:

Finnish

Timing:

1st year

Learning outcomes:

After completion the student

- is familiar with the psychology of health and its research area as an application field in psychology.
- knows the central concepts of health and mental health
- is able to approach the subject based on the different theoretical trends of health and mental health.
- understands the significance of health and mental health maintenance and the central approaches of remedial measures.

Contents:

The course covers the following topics:

- utilisation of psychological knowledge in promoting health
- approaches and basic concepts of mental health, mental health and mental health disorders as psychological phenomena
- explanatory models and mental health problems: crises and mental health problems associated with critical life stages
- psychological treatment of mental health and prevention of problems

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures ja other teaching

Recommended or required reading:

Eysenck, H. (1998) Psychology. An integrated approach, applicable sections.

Lönnqvist, J. (2007) Psykiatria, applicable sections.

Kendall, P. (2001) Childhood disorders.

For the book exam also:

Bennett, P. (2003) Introduction to clinical health psychology.

Availability of the books can be viewed [here](#).

Assessment methods and criteria:

Participation in lectures, a lecture and literature based exam. The course finalises the basic studies.

Grading:

pass/fail

A250505: Education, Intermediate Studies, 35 - 50 op**Opiskelumuoto:** Intermediate Studies**Laji:** Study module**Vastuuyksikkö:** Faculty of Education**Arvostelu:** 1 - 5, pass, fail**Opintokohteen kielet:** Finnish**Leikkaavuudet:**

ayA250505 Education, Intermediate Studies (OPEN UNI) 35.0 op

ECTS Credits:

35-45 credits

Language of instruction:

Finnish

Timing:

2nd to 3rd year

Learning outcomes:

At the end of the module, the student knows how to apply the approaches and theoretical foundations of educational and human sciences to research pedagogical phenomena. S/he is capable of independent scientific argumentation and Bachelor level academic work. S/he is also able to acquire knowledge in a flexible way and capable of analytical written work.

Contents:

The module consists of the following courses:

411004A Educational and Cultural Theory I, 4 credits

411005A Theoretical Foundations of Education, 5 credits

407040A Basic course in quantitative research 5 credits

*407040A-01 Basis of research, lecture 2**407040A-02 Statistical analysis, lecture 2**407040A-03 Exercises 1*

407041A Basic course in qualitative research 5 credits

*407041A-01 Lectures 3**407041A-02 Exercises 2*

411007A Educational Systems I, 4 credits

411008A Educational Planning and Economics of Education I, 4 credits

411010A Bachelor's Thesis, 10 credits. The course consists of two parts (a and b):

a) 411010A-01 Proseminar, 8 credits

b) 411010A-02 Bachelor's Seminar, 2 credits

411013A Career Planning Studies

The Bachelor's seminar and Career Planning Studies are part of the major subject studies.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and other face-to-face teaching

Prerequisites and co-requisites:

Basic Studies in Education

Leikkaavuudet:

ay407040A Basic course in quantitative research (OPEN UNI) 5.0 op

ECTS Credits:

5 cr

Language of instruction:

Finnish

Timing:

2. or 3. year

Learning outcomes:

Having completed the course, the student knows how to

- define the basic ideas in the approaches and methods of research in the human sciences from the viewpoint of different traditions of science
- plan and implement the main stages of a simple quantitative study
- evaluate and interpret quantitative studies conducted by others

Contents:

The course is divided into three parts:

407040A-01 Basis of research (2 cr.)

- basic features of empirico-analytical research
- role of theory in research
- main stages of the research process
- formulating and shaping the research question
- types of research
- data collection
- accountability/reliability analysis

407040A-02 Statistical analysis (2 cr.)

- description of one- and two-dimensional empirical distribution
- foundations of statistical deduction
- estimation

- statistical testing
- 407040A-03 Exercises (1 cr.)**
- enhancing knowledge of content areas in 1 and 2

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

1. Lectures 18 h
2. Lectures 20 h
3. Exercises: Small group sessions 16 h

Target group:

Students in all programmes pursuing Intermediate Studies in Education (/Music Education)

Prerequisites and co-requisites:

None

Recommended optional programme components:

Thesis studies support the writing of a Bachelor's thesis

Recommended or required reading:

- 1) Metsämuuronen, J. (2003). Tutkimuksen tekemisen perusteet ihmistieteissä (s. 1-146). Course material availability can be checked [here](#).

411013A: Career planning studies, 8 op**Voimassaolo:** 01.08.2006 -**Opiskelumuoto:** Intermediate Studies**Laji:** Course**Vastuuyksikkö:** Faculty of Education**Arvostelu:** 1 - 5, pass, fail**Opintokohteen kielet:** Finnish**ECTS Credits:**

8 cr

Language of instruction:

Finnish

Timing:

2nd and 3rd years

Learning outcomes:

- a) The student identifies her/his own interests by studying education, considers her/his major and minor subject choices and her/his own professional identity. The student knows how to take these issues into consideration.
- b) The student familiarizes her/himself with the field of educational work and working life in general. S/he understands the changing elements of working life (skills, knowledge, employment, coping with the workload, etc). S/he reflects on her/his own placement.
- c) The student gets a preliminary idea of the knowledge and skills needed in the practice place and masters general working life skills. The student knows how to write a project plan and report on her/his teaching practice periods thoroughly and concisely.

Contents:

The module has three different parts:

- a) 411013A-01 Paths to the future - this course provides the students with the capacity to begin to reflect on their own professional identity: supporting self-knowledge, seeking information, learning about different training and work opportunities (minor subjects, practice periods, Masters thesis, exchange programmes, worklife requirements, jobs, etc.). During the course, the students also amplify their personal study plans from the working life point of view.
- b) 411013A-02 Practical applications: study visits in different sectors of the educational field.
- c) 411013A-03 Project training: Getting to know one area of the education field (consultation, guidance, training and its planning, teaching, research, staff issues) by participating in the selected activity and familiarising with the relevant organisation.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Seminars, visits, practice

Target group:

Students majoring in Education or Educational Psychology

Recommended or required reading:

To be announced at the start of each course

Assessment methods and criteria:

Active participation, report

Grading:

pass/fail

Person responsible:

Tiina Kemppainen

Working life cooperation:

Yes. Part c) Project training includes a one-week-practice in a working place.

Other information:

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 credits

Language of instruction:

Finnish

Timing:

2nd and 3rd years

Learning outcomes:

- the student identifies her/his own interests by studying education, thereby also piecing together her/his major and minor subject choices and professional identity
- the student is capable of adding to her/his self-knowledge
- the student knows how to acquire knowledge in a flexible way
- the student perceives the opportunities offered by education and working life (minor subjects, practice periods, Masters thesis, exchange programmes, worklife requirements, jobs, etc.)

Contents:

This course provides the students with a readiness to begin to reflect on their own professional identity. During the course the students add depth to their personal study plans from the viewpoint of working life.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Seminar work 20 h: brainstorming, discussion, exercises, and independent work. Alternatively, the course can be completed in some other way, e.g. an assignment based on literature as agreed with the course coordinator.

Target group:

Students majoring in Education or Educational Psychology

Recommended optional programme components:

This course belongs to the Career Planning Studies 411013A module.

Recommended or required reading:

As applicable:

Lampikoski, T. (1998). Urasuunnittelun opas. Tulevaisuus mahdollisuutena.

411013A-03: c) Project training, 4 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

4 credits

Language of instruction:

Finnish

Timing:

3rd year

Learning outcomes:

- the student gains an initial insight into the knowledge and skills required in work practice and has a mastery of general working life competencies
- the student knows how to prepare a project plan and how to produce a compact report on work practice
- the student has acquainted her/himself with one area of the field of education such as counselling, guidance or training and its planning, teaching, research and staff issues

Contents:

Getting to know one area of the education field (consulting, guidance, training and its planning, teaching, research, staff issues) by participating in the selected activity and learning about the relevant organisation.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Orientation lecture 2 h, project work about 40 h, closing seminar 4 h, project plan and report.

Target group:

Students majoring in Education and Educational Psychology

Recommended optional programme components:

This course belongs to the Career Planning Studies 411013A module.

Recommended or required reading:

As agreed.

Assessment methods and criteria:

Preparing a project plan and completing a report. Participation in seminars.

Grading:

pass/fail

Person responsible:

Tiina Kemppainen

Working life cooperation:

Yes. One-week-practice period in one working place.

Other information:

This course is completed within the major subject studies.

A250604: Psychology, Intermediate Studies (Oulu), 35 - 55 op

Opiskelumuoto: Intermediate Studies

Laji: Study module

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

35-45 credits

Language of instruction:

Finnish

Timing:

2nd and 3rd years

Learning outcomes:

At the end of the module, the student will be able to adapt psychological theories and concepts in analyzing human behavior in various settings. The student is able to utilize scientific research methods and has an analytical and problem based way of thinking so s/he is capable of working independently on a Master's thesis. The student is able to acquire psychological knowledge from different scientific publications and sources and is also capable of independent written expression and performance.

Contents:

412069A Research Methods I (10 credits)
 412072A Cognitive Psychology (4 credits)
 412059A Developmental Psychology II (5 credits)
 412067A Psychology of Counselling I (4 credits)
 412062A Applications of psychology II (4 credits)
 412068A Bachelor's Thesis in Educational Psychology (10 credits) consisting of two parts a) Proseminar (8 credits) and b) Bachelor's Seminar (2 credits)
 411013A Career Planning Studies (8 credits)

Bachelor's Seminar and Career Planning Studies are part of the major subject studies.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and other teaching. The studies also include participation in psychological research.

Prerequisites and co-requisites:

Basic studies in psychology

Recommended or required reading:

To be announced during each course.

Assessment methods and criteria:

Exams, participation, essay papers

Grading:

0-5

Person responsible:

Hannu Soini

Working life cooperation:

None

Other information:

These studies represent 45 credits for majoring students, and 35 credits for minor subject students.

ay407040A Basic course in quantitative research (OPEN UNI) 5.0 op

ECTS Credits:

5 cr

Language of instruction:

Finnish

Timing:

2. or 3. year

Learning outcomes:

Having completed the course, the student knows how to

- define the basic ideas in the approaches and methods of research in the human sciences from the viewpoint of different traditions of science
- plan and implement the main stages of a simple quantitative study
- evaluate and interpret quantitative studies conducted by others

Contents:

The course is divided into three parts:

407040A-01 Basis of research (2 cr.)

- basic features of empirico-analytical research
- role of theory in research
- main stages of the research process
- formulating and shaping the research question
- types of research
- data collection
- accountability/reliability analysis

407040A-02 Statistical analysis (2 cr.)

- description of one- and two-dimensional empirical distribution
- foundations of statistical deduction
- estimation
- statistical testing

407040A-03 Exercises (1 cr.)

- enhancing knowledge of content areas in 1 and 2

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

1. Lectures 18 h
2. Lectures 20 h
3. Exercises: Small group sessions 16 h

Target group:

Students in all programmes pursuing Intermediate Studies in Education (/Music Education)

Prerequisites and co-requisites:

None

Recommended optional programme components:

Thesis studies support the writing of a Bachelor's thesis

Recommended or required reading:

- 1) Metsämuuronen, J. (2003). Tutkimuksen tekemisen perusteet ihmistieteissä (s. 1-146). Course material availability can be checked [here](#).

Other information:

The course is a b) part of the 411068A module and it belongs to the major subject studies in Educational Psychology.

411013A: Career planning studies, 8 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

8 cr

Language of instruction:

Finnish

Timing:

2nd and 3rd years

Learning outcomes:

a) The student identifies her/his own interests by studying education, considers her/his major and minor subject choices and her/his own professional identity. The student knows how to take these issues into consideration.

b) The student familiarizes her/himself with the field of educational work and working life in general. S/he understands the changing elements of working life (skills, knowledge, employment, coping with the workload, etc). S/he reflects on her/his own placement.

c) The student gets a preliminary idea of the knowledge and skills needed in the practice place and masters general working life skills. The student knows how to write a project plan and report on her/his teaching practice periods thoroughly and concisely.

Contents:

The module has three different parts:

a) 411013A-01 Paths to the future - this course provides the students with the capacity to begin to reflect on their own professional identity: supporting self-knowledge, seeking information, learning about different training and work opportunities (minor subjects, practice periods, Masters thesis, exchange programmes, worklife requirements, jobs, etc.). During the course, the students also amplify their personal study plans from the working life point of view.

b) 411013A-02 Practical applications: study visits in different sectors of the educational field.

c) 411013A-03 Project training: Getting to know one area of the education field (consultation, guidance, training and its planning, teaching, research, staff issues) by participating in the selected activity and familiarising with the relevant organisation.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Seminars, visits, practice

Target group:

Students majoring in Education or Educational Psychology

Recommended or required reading:

To be announced at the start of each course

Assessment methods and criteria:

Active participation, report

Grading:

pass/fail

Person responsible:

Tiina Kemppainen

Working life cooperation:

Yes. Part c) Project training includes a one-week-practice in a working place.

Other information:

The module is a part of the major subject studies. More information of the inclusive courses can be found in their respective course descriptions.

2nd and 3rd years

Learning outcomes:

- the student identifies her/his own interests by studying education, thereby also piecing together her/his major and minor subject choices and professional identity
- the student is capable of adding to her/his self-knowledge
- the student knows how to acquire knowledge in a flexible way
- the student perceives the opportunities offered by education and working life (minor subjects, practice periods, Masters thesis, exchange programmes, worklife requirements, jobs, etc.)

Contents:

This course provides the students with a readiness to begin to reflect on their own professional identity. During the course the students add depth to their personal study plans from the viewpoint of working life.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Seminar work 20 h: brainstorming, discussion, exercises, and independent work. Alternatively, the course can be completed in some other way, e.g. an assignment based on literature as agreed with the course coordinator.

Target group:

Students majoring in Education or Educational Psychology

Recommended optional programme components:

This course belongs to the Career Planning Studies 411013A module.

Recommended or required reading:

As applicable:

Lampikoski, T. (1998). Urasuunnittelun opas. Tulevaisuus mahdollisuutena.

Jokihaara, K., Räisänen, M., Tahvola, A. & Vuorikoski, M. (toim.) (2004). Se on se avain! Kasvatustieteiden tieteenalaohjelmasta valmistuneiden tarinoita opiskelusta ja työhön sijoittumisesta. Verkkojulkaisu,

Assessment methods and criteria:

Active participation in seminar work.

Grading:

pass/fail

Person responsible:

Tiina Kemppainen

Working life cooperation:

None

Other information:

The course is completed within the major subject.

411013A-02: b) Applications, 2 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 credits

Language of instruction:

Finnish

Timing:

2nd-3rd year

Learning outcomes:

The student

- knows how to describe and evaluate the field of educational work and working life in general
- knows how to evaluate elements of working life such as worklife competences, general skills and coping
- is able to consider her/his placement in working life

Contents:

Visits to different work places in the educational sector.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Visits and seminar work (20 h).

Target group:

Students majoring Education and Educational Psychology

Recommended optional programme components:

This course belongs to the Career Planning Studies 411013A module.

Recommended or required reading:

As applicable:

Jakku-Sihvonen, R. (2005) Uudenlaisia maistereita. Kasvatusalan koulutuksen kehityslinjoja. Tynjälä P., Välimaa, J. & Murtonen, M. (toim.) (2004) Korkeakoulutus, oppiminen ja työelämä. Pedagogisia ja yhteiskuntatieteellisiä näkökulmia.

Other information:

This course is completed within the major subject studies.

411013A-03: c) Project training, 4 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

4 credits

Language of instruction:

Finnish

Timing:

3rd year

Learning outcomes:

- the student gains an initial insight into the knowledge and skills required in work practice and has a mastery of general working life competencies
- the student knows how to prepare a project plan and how to produce a compact report on work practice
- the student has acquainted her/himself with one area of the field of education such as counselling, guidance or training and its planning, teaching, research and staff issues

Contents:

Getting to know one area of the education field (consulting, guidance, training and its planning, teaching, research, staff issues) by participating in the selected activity and learning about the relevant organisation.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Orientation lecture 2 h, project work about 40 h, closing seminar 4 h, project plan and report.

Target group:

Students majoring in Education and Educational Psychology

Recommended optional programme components:

This course belongs to the Career Planning Studies 411013A module.

Recommended or required reading:

As agreed.

Assessment methods and criteria:

Preparing a project plan and completing a report. Participation in seminars.

Grading:

pass/fail

Person responsible:

Tiina Kemppainen

Working life cooperation:

Yes. One-week-practice period in one working place.

Other information:

This course is completed within the major subject studies.

A250506: Education, Advanced Studies (Oulu), 80 op

Opiskelumuoto: Advanced Studies

Laji: Study module

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

80 credits

Language of instruction:

Finnish

Timing:

Master's level

Learning outcomes:

Having completed the Advanced Studies in Education, the student knows how to critically evaluate the premises and approaches of scientific research. S/he has adopted an analytical way of thinking and knows how to apply the methods of data acquisition to research educational processes. S/he has the competence to function in expert duties in different educational organisations.

Contents:

Consists of the following courses:

413030S Advanced course in quantitative research 5 credits

413030S-01 Lectures and literature 3

413030S-02 Exercises 2

413031S Advanced course in qualitative research 5 credits

413031S-01 Lectures and literature 2

413031S-02 Exercises 3

413001S Educational and cultural theory II, 4 credits

413003S Educational systems II, 4 credits

413004S Educational planning and economics of education II, 5 credits

413058S Current Issues in Education, 3 credits

413008S Thesis Studies, 40 credits

413019S Practice, 10 credits

413027S Final Examination, 4 credits

Note: Instead of the following studies:

413004S Educational Planning and Economics of Education II

413008S Thesis Studies

413027S Final Examination

it is possible to take courses in environmental education:

413054S Current Issues in Environmental Research, 2 credits

413055S Theoretical Basis of Environmental Education, 3 credits

413056S Final Examination, 5 credits

413057S Thesis Studies, 40 credits

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures, seminar sessions, practice

Target group:

Students majoring in Education

Prerequisites and co-requisites:

Basic and Intermediate Studies in Education

Recommended or required reading:

To be announced in connection with the courses

Assessment methods and criteria:

Exams, seminar papers, reports

Grading:

0-5

Person responsible:

Pauli Siljander

Working life cooperation:

Yes. A 10-credit practice period. See description: 413019S.

Compulsory

413004S: Educational planning and economics of education II, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 credits

Language of instruction:

Finnish

Timing:

4th year

Learning outcomes:

Having completed the course, the student understands the tense relationship between cultural theory and economic thought and, based on this, is able to view critically the interdependencies between educational systems and labour markets as well as traditional approaches to educational planning.

Contents:

The course discusses the theories and models on the relationship between educational systems and labour markets and traditional approaches to educational planning and their limitations.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 24 h

Target group:

Master's level students

Prerequisites and co-requisites:

Educational Planning and Economics of Education 1

Recommended optional programme components:

This course is preceded by Educational Planning and Economics of Education I (intermediate studies).

Recommended or required reading:

To be agreed on at the start of the course.

Assessment methods and criteria:

Exam/essay

Grading:

Opiskelumuoto: Advanced Studies

Laji: Study module

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Hanni-Mari Muukkonen-van der Meer

Opintokohteen kielet: Finnish

ECTS Credits:

80 credits

Language of instruction:

Finnish

Timing:

Master's studies

Learning outcomes:

Having completed the Advanced Studies in Educational Psychology, the student is familiar with the theoretical trends in educational psychology and is able to apply central research methods of educational psychology. The student knows how to evaluate and use a wide variety of conceptual tools to build for her/himself a comprehensive idea of the phenomena and practices in educational psychology. S/he is capable of both applying existing knowledge and producing new knowledge for the needs of the educational, guidance and counselling sectors. S/he has developed a scientific and analytical way of thinking and s/he is capable of independent, systematic and critical argumentation of scientific knowledge. S/he has the skills required by professional practices in educational psychology and in addition to group work, s/he is capable of independent goal-oriented work. S/he is also capable of clear analytical spoken and written expression, and her/his professional practice in educational psychology is based on scientific and research-based thinking.

Contents:

The objective of the Advanced Studies in Educational Psychology is to deepen the students' knowledge and expertise in educational psychology, and to build on their ability to apply their knowledge of psychology in practice, especially in counselling, consultancy, and research. The studies also provide the student with a good foundation for other work involving human resources and training in different organisations, including research.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

The studies are divided into:

1. research studies, 50 credits
2. theory, 20 credits
3. professional studies, 10 credits

80 credits altogether and

1. Specialisation studies, 10 credits

The core of the studies is formed, in addition to lectures and seminar sessions, by demonstrations, exercises, visits, excursions, student presentations and group projects. Mastery of course literature is demonstrated through presentations, essays and book exams. Agreement on book exams is made with the professor.

Target group:

Students pursuing Advanced Studies in Educational Psychology.

Prerequisites and co-requisites:

Basic and Intermediate Studies in Psychology

Recommended optional programme components:

Basic and Intermediate Studies in Psychology

Recommended or required reading:

To be announced in connection with each course.

Assessment methods and criteria:

Assignments, essays, literature exams. Literature exams to be agreed on with the professor.

Grading:

0-5

Person responsible:

Hannu Soini

Working life cooperation:

Compulsory

415040S: Psychology of counselling II, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Teemu Suorsa

Opintokohteen kielet: Finnish

ECTS Credits:

5 credits

Language of instruction:

Finnish

Timing:

4th year

Learning outcomes:

- the student identifies the main characteristics of professional counselling and is familiar with their theoretical foundations
- the student is capable of evaluating her/his own counselling as a professional activity
- the student knows how to compare different approaches to research on counselling and methodological principles related to the evaluation of counselling skills
- the student is aware of the different application areas of counselling and identifies the counselling skills required by them

Contents:

The course will cover the following topics:

- development of counselling skills
- theoretical foundations of counselling skills
- methodological issues in the counselling process through an analysis of the course participants' own counselling situations

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 12 h, exercises 12 h

Target group:

Master's level students in Educational Psychology

Prerequisites and co-requisites:

Basic and Intermediate Studies in Psychology

Recommended optional programme components:

In order to participate, students must have completed their Intermediate Studies in Psychology and/or otherwise display a sufficient level of understanding of the basics of counselling and psychotherapy.

Recommended or required reading:

Gladding, S. T. (2004) Counseling: a comprehensive profession.

Ivey A. E., Ivey, M. B., & Simek-Morgan, L. (1997) Counseling and Psychotherapy. A Multicultural Perspective.

5 credits

Language of instruction:

Finnish

Timing:

4th year

Learning outcomes:

After completion the student:

- identifies the central elements of leadership and organisations and is able to apply knowledge on them in different organisation tasks and duties
- knows how to apply knowledge to identify and understand her/his own ways of action
- is able to share her/his knowledge and observations reflectively in different ways

Contents:

The course covers the following topics:

- work and organisational psychology as a research area
- organisational structures and cultures
- leadership and management in organisations
- team and group activity in organisations

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and exercises 24 h. The course is based on individual work in both small and large groups. The student must participate actively in the working groups formed during the course.

Target group:

Master's level students in Educational Psychology

Prerequisites and co-requisites:

Basic and Intermediate Studies in Psychology

Recommended or required reading:

415044S: Specialisation studies in educational psychology, 10 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

10 credits

Language of instruction:

Finnish

Timing:

Master's level

Learning outcomes:

The specialisation studies constitute a set of additional studies that the student takes after completion of the Advanced Studies module. As a main rule, they can only be pursued by taking part in the activities of a research group in the Faculty. Agreement on the contents and assessment methods is made with a relevant professor or with the leader of the research group.

Contents:

The extent of these studies is 10 credits, and they can be pursued in the following areas:

- Theory and methodology of educational psychology
- Organisational psychology
- Psychology of training and learning
- Personality and developmental psychology
- Psychology of counselling

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Participation in the activities of a research group.

Target group:

Master's students in Educational Psychology

Prerequisites and co-requisites:

Completion of advanced studies, unless agreed otherwise.

Recommended optional programme components:

Specialisation studies cannot be pursued until the corresponding course has been completed in the Advanced Studies.

Recommended or required reading:

Research articles to be chosen depending on the research theme.

Assessment methods and criteria:

Literary tasks, active participation in the research project's activities.

Grading:

0-5

416010A: Didactics and school pedagogy, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 credits

Language of instruction:

Finnish

Timing:

4th or 5th year

Learning outcomes:

Having completed the course, the student

- knows how to produce curricula instead of master plans, period plans and teaching session plans
- knows how to use the most common teaching methods, evaluate their strengths and weaknesses and when each method should be used
- knows how to motivate and activate pupils or students
- knows how to use the most common methods of assessment needed in teachers' work

Contents:

Planning of teaching and curricula:

- the concept of curriculum
- different curricula
- models and opportunities for planning teaching
- issues to be considered in the planning of teaching

Teaching methods, activation and motivation

- different teaching methods and grounds for using them
- grounds for the combination and variation of teaching methods
- student activation and motivation

Evaluation

- different assessment methods
- functions and reliability of assessment

All of the above contents focus on the viewpoint of adult education.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group sessions 24 h.

Target group:

Students pursuing pedagogical studies in the Education Programme

Recommended optional programme components:

410068P Didactics (Basic Studies in Education) must have been completed.

Recommended or required reading:

To be determined at the beginning of the course.

Assessment methods and criteria:

Active participation in small group sessions and completion of assignments

Grading:

pass/fail

Person responsible:

Jouni Peltonen

Working life cooperation:

None

416011A: Introduction to the use of ICT in education, 3 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 credits

Language of instruction:

Finnish

Timing:

4th or 5th year

Learning outcomes:

Having completed the course, the student

- knows how to use information and communication technologies in a pedagogically meaningful way
- knows how to construct computer-based and online learning environments and evaluate their functionality

Contents:

- computer based and assisted learning environments
- computer software in support of teaching and learning
- use of ICT in distance education, construction and development of learning environments for distance education

Mode of delivery:

Face-to-face and online teaching

Learning activities and teaching methods:

Small group sessions 20 h

Target group:

Students pursuing Pedagogical Studies in the Degree Programme in Education

Recommended optional programme components:

ICT courses in General Studies

Recommended or required reading:

To be announced in the course.

Assessment methods and criteria:

Active participation in small group sessions and completion of assignments

Grading:

pass/fail

Person responsible:

Jouni Peltonen

Working life cooperation:

None

416013A: Pedagogical seminar, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

4 credits

Language of instruction:

Finnish

Timing:

4th or 5th year

Learning outcomes:

Having completed the course, the student

- knows how to evaluate her/his own strengths and needs for development in the teaching profession
- knows how to discuss teachership and teaching as a job collegially
- is able to work in multiprofessional contexts
- knows how to apply educational research knowledge to the development of his/her teaching

Contents:

The course is implemented in the form of a seminar in which the students plan, prepare and present a seminar paper. The papers are discussed and each other's papers are commented on. The themes of these papers can include

- teachership
- development of teaching and educational institutions
- assessment of teaching (e.g. skills demonstrations and competence-based qualifications)
- theoretical foundations of teaching and educational work

The following topics will be covered:

- familiarisation with a theme in teaching or teacherhood
- preparation of a seminar assignment
- presentation of the seminar assignment and discussion

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group sessions (24 h).

Target group:

Students pursuing Pedagogical Studies in the Education Programme

Recommended or required reading:

To be announced at the beginning of the course.

Assessment methods and criteria:

Active participation in small group sessions and completion of assignments

Grading:

pass/fail

Person responsible:

Jouni Peltonen

Working life cooperation:

None

416014A: Practical Training, 18 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

19 credits

Language of instruction:

Finnish

Timing:

4th or 5th year

Learning outcomes:

Having completed practical training, the student

- knows how to plan, implement, evaluate and develop teaching in the subjects taught by her/him
- knows how to use methods of pupil assessment
- is able to identify needs for special education among the learners and to face different learners
- is able to work in different learning environments
- is able to develop her/his work community and her/himself as a teacher
- knows how to function collegially and responsibly in her/his teaching profession

Contents:

The teaching practice is carried out depending on the opportunities offered by the practice places. It is recommended that practice is divided between two terms in such a way that there is first an orientation period (around 7 credits) followed by advanced practice (around 12 credits). Practice includes the following contents:

- observation of teaching in the practice place
- observation of teaching in other schools or educational institutions
- acting as a teaching assistant and giving practice lessons, participation in individual and group supervision
- planning of practice lessons
- participation in the other activities of educational institutions
- assessment and reportin on her/his own practice activities

Mode of delivery:

Face-to-face teaching, practice

Learning activities and teaching methods:

Observation of teaching, participation in guidance, giving practice lessons, participation in the other activities of educational institutions and independent work

Target group:

Students pursuing Pedagogical Studies in the Education Programme

Recommended or required reading:

To be announced at the start of the course

Assessment methods and criteria:

Practice, report

Grading:

pass/fail

Person responsible:

Jouni Peltonen

Working life cooperation:

Yes. See more at Learning activities and teaching methods

416015A: Elective special course, 2 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 credits

Language of instruction:

Finnish

Timing:

4th or 5th year

Learning outcomes:

Depends on the course chosen by the student.

Contents:

A course related to or supporting teachers' work chosen by the student from among the Faculty's or other educational institutions' offerings (such as special education, educational planning, educational technology, information and communication technology, drama education).

Mode of delivery:

Face-to-face and/or online teaching

Learning activities and teaching methods:

Depends on the selected course.

Target group:

Students pursuing Pedagogical Studies in the Education Programme

Recommended or required reading:

Depends on the selected course.

Assessment methods and criteria:

Depends on the selected course.

Grading:

pass/fail

Person responsible:

Jouni Peltonen

Working life cooperation:

None

Other information:

The scope of the course can be 2-3 credits.

416004A: Basics of educational administration, 2 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

1 ECT

Language of instruction:

Finnish

Timing:

4.-5. year

Learning outcomes:

Upon completion of the study module, the students

- know the laws and statutes governing educational administration as well as their contents
- know how to apply educational administration legislation into practice at their own level of education
- know how to use the Finlex software

Contents:

The course aims to give the students the necessary legal proficiency for work as a public servant or in school administration. In addition, the students will gain an understanding of their own rights and obligations and learn how to recognize situations when further information and/or help is necessary. During the course, the students will be introduced with the administration system and public services in terms of set duties and opportunities as defined in legal regulations and norms.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and exam 16 h, post-exam small group work and practice assignment 4 h.

Target group:

Students pursuing Pedagogical Studies

Prerequisites and co-requisites:

No

Recommended optional programme components:

Pedagogical studies for teachers

Recommended or required reading:

TBC at the beginning of the course

Assessment methods and criteria:

Exam, assignment

Grading:

pass/fail

Person responsible:

N.N.

Working life cooperation:

No

416012A: Optional course: basics of educational administration, 1 op

Voimassaolo: 01.08.2006 - 31.07.2013

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

1 credit

Language of instruction:

Finnish

Timing:

4th to 5th year

Learning outcomes:

Upon completion of the study module, the student

- knows the acts and decrees governing educational administration as well as their contents
- know how to apply educational administration legislation into practice at her/his own level of education
- knows how to use the Finlex software.

Contents:

The course aims to give the students the necessary legal proficiency in relation to work as a public servant or in school administration. In addition, the students gain a good understanding of their own rights and obligations and are able to recognise situations when further information and/or help is needed. During the course, students will be introduced with the administrative system and public services in terms of set duties and opportunities as defined in legal regulations and norms.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small-group sessions and practical assignment 4 h.

Recommended optional programme components:

This is a part of the compulsory course 416004A "Basics of Educational Administration".

Recommended or required reading:

To be announced at the start of the course

Assessment methods and criteria:

Assignment

Grading:

pass/fail

Person responsible:

ay410017Y Digital Media in Teaching and Learning (OPEN UNI) 2.0 op

ECTS Credits:

3 cr

Language of instruction:

Finnish

Timing:

1st year

Learning outcomes:

After completing the course the student:

- recognises the basic concepts of multimedia
- has planned and implemented an educationally relevant multimedia product in a group
- knows how to use commonly available multimedia production software
- discovers opportunities to use multimedia in education

Contents:

- basic concepts in multimedia
- digital audio processing
- digital image processing
- digital video processing
- digistories

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 10h, small-group sessions 20h, independent study

Target group:

All the students in the faculty

Prerequisites and co-requisites:

No

Recommended optional programme components:

No

Recommended or required reading:

Lectures, groupwork. Study materials will be confirmed at the beginning of the course.

Assessment methods and criteria:

Active participation in contact teaching and practical exercises. A multimedia product.

410015Y: Philosophy of science, 3 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: General Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 cr

Language of instruction:

Finnish

Timing:

Master's level

Learning outcomes:

After completion, the student

- will be knowledgeable of the core factions and traditions in the philosophy of science and scientific research
- understands the special nature of scientific work and the role of education as one of the sciences.
- is able to justify, philosophically, the different alternatives in scientific research.

Contents:

The following topics are covered:

- overview of the history of philosophy
- introduction to philosophical thought
- different classes in philosophical science

Mode of delivery:

Face-to-face or web-based teaching

Learning activities and teaching methods:

Note: Student in VAKA and MUKO complete this course online. See http://cc oulu.fi/~epikkara/opetus/tf/jtf_1.htm for further information.

KAKO: book exam.

In English see <http://cc oulu.fi/~epikkara/opetus/philsci.htm>

Target group:

All students in the faculty

Prerequisites and co-requisites:

None

Recommended optional programme components:

Part of the Master's level language, communication and orientation studies, mutually optional with "Professional growth" and "Knowledge work as a pedagogical challenge" (for primary teacher, music teacher and early childhood education students)

Recommended or required reading:

Kiikeri, M. (2004) Tiede tutkimuskohteena. Filosofinen johdatus tieteen tutkimukseen.

Raatikainen, P. (2004) Ihmistieteet ja filosofia.

You can check for the availability of course books [here](#).

Assessment methods and criteria:

Book exam or online course. In the case of the online course, either an online exam and essay.

Grading:

Pass/fail

Person responsible:

By programme:

- Ari Kivelä (KAKO)
- Eetu Pikkarainen (VAKA, MUKA, LUKO)

Working life cooperation:

None

Other information:

Education students: The course is compulsory if it was not already completed in the Bachelor's programme. If it was completed, another optional communications/orientation studies course that was not taken at the Bachelor's level must be taken in its place.

415043S: Practice in educational psychology, 10 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

10 credits

Language of instruction:

Finnish

Timing:

4th to 5th year

Learning outcomes:

The student

- knows how to inspect and evaluate her/his own professional identity
- is capable of analysing her/his working methods both alone and in a group
- has familiarised her/himself with the ways of action, general practices and organisational duties in her/his chosen practice place

Contents:

The course covers the following topics:

- exploring professional identity
- analysing individual working habits alone and in a group
- practical training for at least 3 months in a place chosen by the student and approved by the Faculty.

Mode of delivery:

Face-to-face and online guidance, practical training

Learning activities and teaching methods:

Guidance seminar work 12 h, work practice 3 months, practice report.

Target group:

Master's level students in Educational Psychology

Recommended or required reading:

As agreed.

Assessment methods and criteria:

3-month practical training, participation in seminars, report

Grading:

pass/fail

Person responsible:

Tiina Kemppainen

Working life cooperation:

Yes, a 3-month practice period. During the practice there are online seminars in the Optima learning environment.

900071Y: Scientific Communication II, 2 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Language and Communication Studies

Laji: Course

Vastuuyksikkö: Language Centre

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay900071Y Scientific Communication II (OPEN UNI) 2.0 op

Status:

This course unit is compulsory for all students undertaking a Master's degree in Subject Teacher Education, Primary Teacher Education, Technology Oriented Teacher Education, Creative Arts Oriented Teacher Education and Music Education. If a student of Education has included a Speech Communication course unit in his/her Bachelor's Degree, he/she must include this course unit in his/her Master's Degree.

ECTS Credits:

2 credits

Language of instruction:

Finnish

Timing:

4th year of studies

Learning outcomes:

Upon completion of the course unit the student should have a more in-depth understanding of scientific communication, especially scientific writing. He/she should be able to produce scientific text fitting for an MA thesis. The student should also be able to analyse and interpret the special field-specific conventions of scientific writing.

Contents:

The distinctive features of an MA thesis as a form of scientific communication. Writing as a process. Analysis of texts written for various scientific purposes. Popularised scientific discourse.

Mode of delivery:

See Learning activities and teaching methods

Learning activities and teaching methods:

Contact lessons and independent group work 16 h. Independent study ca. 34 h.

Target group:

See Status

Prerequisites and co-requisites:

-

Recommended optional programme components:

-

Recommended or required reading:

To be agreed at the beginning of the course.

Assessment methods and criteria:

Active participation in teaching, independent study and completion of given assignments.

Grading:

pass / fail
