Opasraportti

KTK - Primary Teacher Education, special group (2012 - 2013)

Primary Teacher Education

Learning Outcomes:

- Student identifies the need for continuous self-development.
- Student is able to take responsibility for his/her actions and support the learners' self-efficacy.
- Student is capable of working in a multi-professional environment.
- Student knows how to analyse and explain theoretical knowledge on education and teaching.
- Student is able to recognize and evaluate creativity and innovation in the field of education.
- Student shows empathy and pedagogical tact and knows how to assess his/her actions in varying situations.
- Student is able to ponder and evaluate critically both own and others' views.
- Student knows how to plan research-based teaching.
- Student is able to participate in development and evaluation tasks in education.
- Student is capable of knowledge generalization, is able to design and invent theoretical knowledge, and apply it to teaching.
- Student knows how to analyse his/her conception of child and social and cultural assumptions of childhood.
- Student knows how to apply different methods and theoretical viewpoints to the study of interaction.

Tutkintorakenteet

Special selection to the primary teacher education programme

Tutkintorakenteen tila: archived

Lukuvuosi: 2012-13

Lukuvuoden alkamispäivämäärä: 01.08.2012

Advanced studies in education (60-62 credits) (60 op)

The Advanced Studies in Education (60 credits) consists of obligatory and interchangeable courses.

Courses obligatory to all students include:

408013S Master's thesis, 40 credits
408015S Curriculum and school development, 5 credits
408016S Education and teachers' work in transition, 5 credits
408028S Master's Phase School Experience I, special groups, 5 credits (this teaching practice comprises a total of 8 credits, out of which 3 credits are included in the multidisciplinary studies)

The student also completes one of the two interchangeable courses:

413030S Advanced Course in Quantitative Research, 5 credits
413031S Advanced Course in Qualitative Research, 5 credits

If the student has NOT previously completed the course entitled Basics of Educational Administration, s/he shall also study

408019S Basics of Educational Administration, 2 credits
as part of the advanced studies in education

408015S: Curriculum and School Development, 5 credits
408016S: Education and Teacher's Work in Change, 5 credits
408013S: Master's Thesis, 35 - 40 credits
408028S: School Work in the Master Phase I, special groups, 5 credits

Multidisciplinary studies in the subjects and cross-curricular themes taught in basic education (60 credits) (vähintään 60 op)

A256404: Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education (Special Groups), 60 credits

406020A: Mother Tongue and Literature, 7 credits
  Compulsory
  406020A-01: Literature and Reading, 3 credits
  406020A-02: Language and Writing, 4 credits
406021A: Drama Education, 2 credits
406022A: History, 3 credits
406025A: Mathematics Education: Part I, 3 credits
406026A: Mathematics Education: Part II, 2 credits
406027A: Physics and Chemistry, 4 credits
406028A: Biology, 2 credits
406029A: Geography, 2 credits
406030A: Health Education, 1 credit
406031A: Music, 8 credits
  Compulsory
  406031A-01: Pedagogical Applications of Music Education, 3 credits
  406031A-02: Voice and Singing, 1 credit
  406031A-03: Listening Education, 1 credit
  406031A-04: Music Theory in Practice, 1 credit
  406031A-05: Accompaniment Instrument, 2 credits
406032A: Art, 7 credits
  Compulsory
  406032A-01: Drawing, 1 credit
  406032A-02: Painting, 1 credit
  406032A-03: Ceramics, 1 credit
  406032A-04: Building, 1 credit
  406032A-05: School graphic, 1 credit
  406032A-06: Environmental aesthetic, 1 credit
  406032A-07: Media education, 1 credit
406035A: Physical Education, 7 credits
  Compulsory
  406035A-04: Lectures, adventure, track and field, 1 credit
  406035A-05: Indoor ball games, basic gymnastics, 1 credit
  406035A-06: Skiing, rhythmic gymnastics, 1 credit
  406035A-07: Outdoor ball games, 1 credit
  406035A-08: Orienteering, artistic gymnastics, 1 credit
  406035A-09: Skating, swimming, 1 credit
Tutkintorakenteisiin kuulumattomat opintokokonaisuudet ja -jaksot

413031S: Advanced course in qualitative research, 5 op
  **Compulsory**
  413031S-01: Advanced course in qualitative research, lectures and literature, 2 op
  413031S-02: Advanced course in qualitative research, exercises, 3 op

413030S: Advanced course in quantitative research, 5 op
  **Compulsory**
  413030S-01: Advanced course in quantitative research, lectures and literature, 2 op
  413030S-02: Advanced course in quantitative research, exercises, 3 op

408019S: Basics of educational administration, 2 op

Opintojaksojen kuvaukset

Tutkintorakenteisiin kuuluvien opintokohteiden kuvaukset

408015S: Curriculum and School Development, 5 op

**Voimassaolo:** 01.08.2005 -
**Opiskelumuoto:** Advanced Studies
**Laji:** Course
**Vastuuyksikkö:** Faculty of Education
**Arvostelu:** 1 - 5, pass, fail
**Opintokohteen oppimateriaali:**
Cornbleth, Catherine , , 1990
Doll, William E. Jr. , , 1993
Stoll, Louise , , 1996
**Opintokohteen kielet:** Finnish

**ECTS Credits:**
5 cr
Language of instruction: Finnish
Timing: 4th year, spring term
Learning outcomes:
The course provides students with the necessary capacities for curricular design at the school and municipal levels, and training for curricular evaluation at the local level. The course familiarises the students with curriculum theory - especially with the significance of the curriculum in the development of a school's activities - and discusses the connections of the curriculum with society and education policy. In addition, educational evaluation is looked at in terms of both theory and practice at local, national and international levels. As a whole, the course gives student teachers the capacity to function as committed, critical and responsible actors in the development of the curricular and its evaluation.

After the course the student is able to:
- identifies the theoretical premises underlying different curricula
- identify and interpret the values and goals underlying curricula as well as their connections with society and education policy.
- identifies and is able to determine the different levels of educational evaluation (local, national, international; theory and practice)
- design a curriculum and manage/develop its basis of evaluation

Contents:
- concept of curriculum
- different curricular theories and approaches
- foundations, levels and methods of evaluation
- evaluation and education policy

Mode of delivery:
Face-to-face teaching
Learning activities and teaching methods:
- lectures 20 h and small group sessions 12 h, as part of which a project plan is made in practice related to the field of curriculum or evaluation, or a project in progress in which you are involved is described and evaluated
- the planning or evaluation task can be integrated with teaching practice

Target group:
Primary teacher students
Prerequisites and co-requisites:
None
Recommended optional programme components:
Can be integrated with a teaching practice period.
Recommended or required reading:

The availability of the literature can be checked from this link.
Assessment methods and criteria:
Based on an exam and report on the development or evaluation assignment. Both parts are assessed on the scale 0-5. The exam is based on the lectures and literature.
Grading:
0 - 5
Person responsible:
Leena Syrjälä
Working life cooperation:
None

408016S: Education and Teacher's Work in Change, 5 op
Voimassaolo: 01.08.2005 -
Opiskelumuoto: Advanced Studies
Laji: Course
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail

Opintokohteen oppimateriaali:
Day, Christopher & Sachs, Judyth (eds.), 2004
Elbaz-Luwisch, Freema, , 2005
Sugrue, Ciaran & Day, Christopher (eds.), 2002
Vandenbergh, Roland & Huberman, A. Michael (eds), 1999

Opintokohteen kielet: Finnish

ECTS Credits:
5 cr

Language of instruction:
Finnish

Timing:
4th year

Learning outcomes:
Having completed the course, the student
- knows how to analyze social and cultural factors that are connected with changes in education and teachers’ work
- is able to function in changes actively and in cooperation with different parties
- knows how to describe forms of multiprofession cooperation in the school world and how to take measures to launch cooperation
- knows working methods of cooperation between the home and school and knows how to apply them in her/his work
- knows how to analyse the operation of work community and how to describe the characteristics related to the professional development of a teacher in early stages of her/his working career

Contents:
- school as a field of multiprofessional cooperation
- cooperation between schools and homes
- school as a work community
- identity of a newly qualified teacher

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Lectures and expert visits 22 h, small group sessions in the form of a reading circle 12 h.

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of the whole formed by "Pefagogical Seminar III", "School Work in the Master's Phase" and "Thematic Practice".

Recommended or required reading:
To be agreed on at the beginning of the course.

Assessment methods and criteria:
Participation in the lectures and small group sessions, completion of the learning tasks and passing the literature exams.

Grading:
0 - 5

Person responsible:
Sari Manninen

Working life cooperation:
None

408013S: Master’s Thesis, 35 - 40 op

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuysikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

ECTS Credits:
40 cr

Language of instruction:
Finnish or English

Timing:
Master's studies

Learning outcomes:
The student
  • is able to write either alone or in pairs an educational thesis that proves familiarity with the thematic area of the thesis and shows an ability for scientific thinking,
  • masters the research methods chosen by her/him and shows a readiness for scientific communication
  • knows how to assess theses made by others, take part in scientific discussion and defend her/his own thesis

Contents:
The course includes the following:
  • presentation of research plan and report
  • acquisition and reading of research literature
  • familiarisation with research methods
  • writing a thesis on an educational topic
  • active participation in seminar sessions

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Seminar sessions 40 h, independent work about 1000 h

Target group:
Students in the Faculty of Education

Prerequisites and co-requisites:
Bachelor's Thesis

Recommended optional programme components:
Advanced course in quantitative/qualitative research

The course is part of the Advanced Studies in the major subject.

Recommended or required reading:
Research and methodological literature: refereed publications

Assessment methods and criteria:
Participation in seminar sessions, writing a thesis and its presentation in a seminar session, acting as peer opponent and writing of the maturity test

Grading:
0 - 5

Person responsible:
Hannu Heikkinen and the leaders of seminar groups

Working life cooperation:
None

Other information:
For details on current Bachelor's and Master's thesis groups, see www.oulu.fi/ktk/opinnaytetyot

408028S: School Work in the Master Phase I, special groups, 5 op

Voimassaolo: 01.08.2012 - 
Opiskelumuoto: Advanced Studies
Laji: Practical training
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

Ei opintojaksokuvauksia.

A256404: Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education (Special Groups), 60 op
406020A: Mother Tongue and Literature, 7 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail

Opettajat: Sääskilahti, Minna Susanna
Opintokohteen oppimateriaali:
Suojala, Marja & Karjalainen, Maija (toim.), , 2001
Grüenthal, Satu & Pentikäinen, Johanna (toim.), , 2006
Harmanen, Minna & Siiroinen, Mari (toim.), , 2006
Huhtala, Liisi (toim.), , 2003

Opintokohteen kielet: Finnish

ECTS Credits:
7 credits

Language of instruction:
Finnish

Timing:
1st and 2nd year

Learning outcomes:
The aim of studies is to arouse students' interest in language and to make them multiskilled intermediaries of linguistic culture, who possess the competence to develop the linguistic abilities of children. To this end, students familiarize themselves with Finnish and literature as school subjects, together with the contents, methods and background theories of communication teaching, primary level reading and literature.

406020A-01 Literature and reading (3 credits), learning outcomes:
This course focuses on the primary level curriculum and helps students gain an understanding of the role of literature in childhood development and education. Using literary and interpretation pedagogy, a variety of texts are used to develop extensive and manysided reading, literacy and interaction skills.

406020A-02 Language and writing (4 credits), learning outcomes
Having completed the course, the student knows how to apply modern language knowledge to guide children to make observations on language and consciously consider language structure. The student also knows how to guide the children's writing processes in such a way that reading and writing skills are naturally interspersed with school learning as a whole. The student knows how to apply various theories of teaching writing. S/he also knows how to assess the texts produced by children that she takes into account of the age-specific developmental level of the child and the national core curriculum.

Contents:
Finnish Language and Literature comprises two parts:
406020A-01 Literature and Reading
- genres of children's literature
- teaching methods in literature
- supporting the child's literary interests
- folklore
- process reading and strategies of reading
• critical reading
• pedagogy of literature and reading interpretation
406020A-02 Language and Writing
• grammar of Finnish language
• variation of language
• methods and practices of teaching language knowledge
• development of children's writing skills
• theories of writing: fictive writing, process writing and genre writing
• evaluation of writing

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
406020A-01 Lectures 10 h, small groups 26 h and independent work 44 h
406020A-02 Lectures 12 h, small groups 26 h and independent work 69 h

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:
Introduced by the lecturer of the course at the beginning of the course.

Assessment methods and criteria:
Participation in lectures and small groups and an essay written independently by the student.

Grading:
0-5

Person responsible:
Minna Sääskilahti

Working life cooperation:
None

Other information:
Students whose language of instruction has not been Finnish and whose Finnish language skills are not sufficiently good, are exempted from Finnish studies. Instead, they study a corresponding amount of English and didactics of English language teaching.

Compulsory

406020A-01: Literature and Reading, 3 op

Voimassaolo: 01.08.2005 -

406021A: Drama Education, 2 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

ECTS Credits:
2 credits

Language of instruction:
Finnish. For ITE students, the small group sessions are in English.

Timing:
2nd year
Learning outcomes:
Having completed the course, the student is familiar with the premises of drama pedagogy in basic education. S/he knows how to apply to his work as a teacher the genre of drama and theatre education that s/he learnt in this course.

Contents:
The course deals with drama and theatre as a form of learning and and as a method of artistic performance in school.

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Small group sessions 24 h and independent work 30 h

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:
You can check for the availability of the literature here.

Assessment methods and criteria:
Participation in contact teaching and as a final project either a drama group work or an independent written work.

Grading:
pass/fail

Person responsible:
Hannu Heikkinen

Working life cooperation:
None

406022A: History, 3 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen oppimateriaali:
Asunmaa, Martti, , 1994
Karlen, Arno, , 2000
Löfström, Jan (toim.), , 2002
Vahtola, Jouko, , 2003
Zetterberg, Seppo et. al. (toim.), , 2006
Zetterberg, Seppo et. al. (toim.), , 1988
Opintokohteen kielet: Finnish

ECTS Credits:
3 credits

Language of instruction:
Finnish. For ITE students, the small group sessions are in English.
**Timing:**
(1st or) 2nd year

**Learning outcomes:**
Having completed the course, the student has a basic competence to give lessons in history. The student understands what history didactics means and how and why history is taught. The student knows how to plan and implement history teaching using different working methods and tools. The student knows how to apply several data acquisition methods in the planning of his/her teaching.

**Contents:**
The special characteristics of history from the viewpoints of school, society and the curriculum and basic teaching competence.

**Mode of delivery:**
Face-to-face teaching

**Learning activities and teaching methods:**
Lectures 8 h, small group sessions 12 h, independent work 34 h

**Target group:**
Primary teacher students

**Prerequisites and co-requisites:**
None

**Recommended optional programme components:**
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

**Recommended or required reading:**

**Assessment methods and criteria:**
Active participation in the course, exam

**Grading:**
0 - 5

**Person responsible:**
Jari Honkanen
For ITE students, Gordon Roberts

**Working life cooperation:**
None

**406025A: Mathematics Education: Part I, 3 op**

**Voimassaolo:** 01.08.2005 -
**Opiskelumuoto:** Intermediate Studies
**Laji:** Course
**Vastuuysikkö:** Faculty of Education
**Arvostelu:** 1 - 5, pass, fail
**Opintokohteen kielet:** Finnish

**ECTS Credits:**
3 credits

**Language of instruction:**
Finnish. For ITE students, small group teaching is in English.

**Timing:**
1st year
Learning outcomes:
After passing this course the student
- is able to plan mathematics teaching which is based on the curriculum and takes into consideration different learners
- is able to explain and evaluate the main goals, contents, assessment and teaching methods of elementary level mathematics
- can critically evaluate the usability of different learning aids and manipulatives in teaching of the elementary level mathematics
- can use a variety of mathematics manipulatives
- is able to show positive attitudes towards mathematics
- can explain some of theories about teaching and learning of mathematics

Contents:
The course includes the following:
- mathematics in the elementary curriculum
- problem based teaching of mathematics
- the concept of number and integer operations
- geometry, measurement and spatial thinking
- rational numbers and fractions
- mathematics learning difficulties

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Lecturelike introductions and problem based discussions 32 h, individual work 48 h.

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
Connected with the course Mathematics Education, Part II. Completion of School work in the Bachelor phase is required.
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:
Told in the first lecture

Assessment methods and criteria:
Voluntary exam, reading and commenting some articles, calculation exercises

Grading:
0 - 5

Person responsible:
Vesa-Matti Sarenius

Working life cooperation:
None

406026A: Mathematics Education: part II, 2 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies

Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

ECTS Credits:
2 credits

**Language of instruction:**
Finnish. For ITE students, small group teaching is in English.

**Timing:**
2nd year

**Learning outcomes:**
After passing this course the student:
- is able to apply his/her knowledge of mathematics education and make a mathematics medium term plan and can evaluate the meaning of it in teaching mathematics
- can apply the central goals, contents, teaching methods and assessment to his/her teaching
- can critically evaluate the applicability of different mathematics manipulatives and other teaching materials for teaching
- can apply some theories about mathematics teaching and learning to his/her planning

**Contents:**
The course includes the following:
- mathematical problem solving
- percentage calculations
- algebraic thinking
- statistics and probability
- assessing mathematics learning
- approximations and mental mathematics

**Mode of delivery:**
Face-to-face teaching

**Learning activities and teaching methods:**
Lectures/small group sessions 16 h, individual and groupwork 38 h

**Target group:**
Primary teacher students

**Prerequisites and co-requisites:**
Mathematics Education: Part I

**Recommended optional programme components:**
Mathematics Education: Part I
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

**Recommended or required reading:**
Told in the first lecture

**Assessment methods and criteria:**
Voluntary exam, making the medium term plan, calculation exercises

**Grading:**
0 - 5

**Person responsible:**
Vesa-Matti Sarenius

**Working life cooperation:**

**406027A: Physics and Chemistry, 4 op**

**Voimassaolo:** 01.08.2005 -

**Opiskelumuoto:** Intermediate Studies

**Laji:** Course

**Vastuuysikkö:** Faculty of Education

**Arvostelu:** 1 - 5, pass, fail

**Opintokohteen kielet:** Finnish
**ECTS Credits:**
4 credits

**Language of instruction:**
Finnish. For ITE students, small group teaching is in English.

**Timing:**
2nd year

**Learning outcomes:**
Student
- can evaluate the central goals, subject knowledge, teaching methods and assessing of elementary level physics and chemistry and is able to apply it to his/her own teaching
- can judge the applicability of teaching materials of science education
- is able to explain simple everyday phenomena according to physics and chemistry
- is able to plan teaching and evaluation of physics and chemistry on elementary school grades 0-6 and taking different kind of learners, experimental working and integration between different subjects into consideration
- is able to show positive attitudes towards physics and chemistry education

**Contents:**
The course includes the following:
- the significance of physics and chemistry to mankind and society
- environmental and natural studies and physics and chemistry in Finnish national core curriculum for basic education
- characteristics of natural scientific knowledge
- getting acquainted with teaching methods of natural science
- studying the phenomena, concepts and experimental working of the following topics from the viewpoint of didactics of physics and chemistry education: water, air, space, forms of energy, motion, light, sound, electricity, magnetism, intoxicants and structure of matter

**Mode of delivery:**
Face-to-face teaching

**Learning activities and teaching methods:**
Lectures and exercises 38 h, individual and group work 70 h.

**Target group:**
Primary teacher students

**Prerequisites and co-requisites:**
None

**Recommended optional programme components:**
The course is part of “Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education”.

**Recommended or required reading:**
Course material availability can be checked [here](#).

Wellington, Jerry , , 2000
Opintokohteen kielet: Finnish

ECTS Credits:
2 credits

Language of instruction:
Finnish. For ITE students, small group teaching is in English.

Timing:
2nd year

Learning outcomes:
Student is able
• to describe the objectives and contents of biology and environmental and nature studies in the basic education curriculum.
• to compare various teaching and learning conceptions in biology and environmental and nature studies.
• to plan, apply and evaluate teaching and learning processes in biology and environmental and nature studies.
• to judge his or her own professional growth as a biology and environmental and nature studies teacher from the viewpoint of environmental education and education for sustainable development.

Contents:
Introduction
• Overview of the aims, contents and methods of completion of the course
• Biology curriculum
Biological basis of life
• Energy flow
• Material cycle
• Photo- and chemosynthesis
Morphology and physiology of plants
• Cells
• Water and nutrient transport
• Plant growth and reproduction
Anatomy and physiology of animals
• Cell and tissues
• Function and regulation of organs and organ systems
Genetics
• Genes and genotypes
• Phenotypes
Organisms and their environment
• Environmental factors
• Relationships between organisms and their environment
Biodiversity
• Biomes and ecosystems
• Phenology
Pollution

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Lectures and group work 16 h, independent work 38 h
**Target group:**
Primary teacher students

**Prerequisites and co-requisites:**
None

**Recommended optional programme components:**
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

**Opintokohteen kielet:** Finnish

**ECTS Credits:**
2 credits

**Language of instruction:**
Finnish. For ITE students, small group teaching is in English.

**Timing:**
1st year

**Learning outcomes:**
Student is able

- to describe the objectives and contents of geography and environmental and nature studies in the curriculum.
- to interpret geographical information about the natural environment, built environment and cultural environment.
- to plan and apply various teaching methods, and to evaluate teaching, studying and learning processes.
- to develop his/her teaching skills in geography and environmental and nature studies from the viewpoint of environmental education and sustainable development.

Contents:

Introduction
- Overview of the aims, contents and methods of completion of the course
- Geography curriculum

Maps and teaching of maps
- Different maps
- Different approaches to teaching of maps

Space, climate and weather
- Earth in the universe and solar system
- Climate classification
- Weather and its observation

Natural resources and livelihoods
- Organic and inorganic material
- Soil types, rocks, minerals and ores
- Structure of livelihoods

Landscapes and land use
- Topography
- Types of landscapes
- Built environment

Interaction between human beings and the environment
- Environmental relationship between human being and nature
- Sustainable development

Multiculturalism as a thematic entity

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:
Lectures and group work 16 h, independent work 38 h

**Language of instruction:**
Finnish. For ITE students, small group teaching is in English.

**Timing:**
1st and 2nd year

**Learning outcomes:**
In Music Studies, music education is viewed in the larger framework of cultural and art education. Students make music in groups and acquire the subject knowledge and pedagogical skills necessary for music education in school.
Contents:

Music education comprises the following courses:

1. **Pedagogical Applications of Music Education (3 cr.)** Students acquaint themselves with such pedagogical applications of music education as working with a large musical group and paying attention to different level students. They are also introduced to the contents and methods of the subject through a wide range of activities.
   - Familiarize students with the pedagogical contents and uses of music in primary school through extensive music-making (singing, playing, music and rhythmic exercises as well as musical innovation)
   - Present basic techniques and pedagogical uses of school instruments (percussive instruments, percussion instruments, band instruments, self-made instruments, recorders and kantele (traditional Finnish harp))
   - Music education is a holistic arts and culture-based education which incorporates physical activities, drama, other arts and skills as well as extramusical themes.

2. **Voice and Singing (1 cr.)** Students learn effective use of voice together with various ways of teaching vocal expression and singing. They are also encouraged to use their voice for creative personal expression.
   - Provide practice in the proper use and maintenance of voice, vocal expression and their pedagogical application through singing, speech and play-like exercises.

3. **Listening Education (1 cr.)** Students will be introduced to listening education as a natural ingredient of different ways of working with music. They also familiarize themselves with a range of music cultures, styles and stylistic periods and learn to adopt diverse approaches to music.
   - consists of different music styles and genres
   - Listening education is an integral part of all musical activities and helps to put music in a time and place and to gain an appreciation for culturally different types of music
   - Music is approached by adding such elements to listening as enhance focusing on it (physical, verbal, visual or musical stimuli)
   - Music listening proceeds from experiences and emotions to concepts

4. **Music Theory in Practice (1 cr.)** Students learn to play accompaniment in diverse musical settings. Focusing mainly on free accompaniment, the course helps to advance creative self-expression and the ability to follow music by ear.
   - To offer an introduction to musical notation, chord markings, keys and intervals
   - Practical competence is acquired through instrument playing (piano/guitar)

5. **Accompaniment Instrument / Piano or Guitar (2 cr.)** To familiarize students with different musical notation systems, real chord symbols, different styles of music and accompaniment as well as playing techniques. Group lessons involve directing and accompanying communal singing and music playing.
   - To familiarize students with different musical notation systems, real chord symbols, different styles of music and accompaniment as well as playing techniques
   - Group lessons involve directing and accompanying communal singing and music playing

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Teaching methods are described separately for each specific course (406031A-0X).

Target group:
Primary teacher students

Prerequisites and co-requisites:

Compulsory

406031A-01: Pedagogical Applications of Music Education, 3 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies
Laji: Partial credit
Vastuuyksikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish
Voidaan suorittaa useasti: Kyllä

ECTS Credits:
3 cr

Language of instruction:
Finnish and English

Timing:
1st and 2nd years

Learning outcomes:
Upon completion of the course, the student knows how to design and implement pedagogical applications for music education in the lower grades. S/he knows how to discuss the essential goals, contents and assessment in music education. The student is capable of making music by different working methods.

Contents:
- Familiarize students with the pedagogical contents and uses of music in primary school through extensive music-making (singing, playing, music and rhythmic exercises as well as musical innovation)
- Present basic techniques and pedagogical uses of school instruments (mallet instruments, percussion instruments, band instruments, self-made instruments, recorders and kantele (traditional Finnish harp))
- The student knows how to employ a large music group in her/his teaching and how to take into account pupils of different levels.
- Music education is a holistic arts and culture-based education which incorporates physical activities, drama, other arts and skills as well as extramusical themes.

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Small group teaching 40 h and independent studies 41 h

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of the study module in Music 406031A (8 credits)

**Recommended or required reading:**
Ensimmäiset kouluvuodet. Perusopetuksen vuosiluokkien 1-2 opetus.
Ervasti, M. 2003. Lorutan laulun, sävellän sillan, piirrän partituurin, äänikuvitan kertomuksen
-musikillinen keksintö osana sovellettua orff-pedagogiikkaa. Licentiate thesis. Faculty of Education.
University of Oulu. (Applicable parts)
Topical articles and web materials on music education (esim. MOVE, Teacher Training School
curriculum, core curriculum issued by the National Board of Education)
Music textbooks by various publishers (eg. WSOY, Otava, Warner-Chappell) with supplementary
materials.
Availability of course books can be checked [here](#).

**Assessment methods and criteria:**
Active participation in contact teaching and independent assignments given during the course

**Grading:**
pass/fail

**Person responsible:**
Paula Rönkkö

**Working life cooperation:**

**Voidaan suorittaa useasti:** Kyllä

**ECTS Credits:**
7 credits

**Language of instruction:**
Finnish / English

**Timing:**
1st and 2nd years

**Learning outcomes:**
The objectives of this study unit are that the student
- is able to design and implement art education in grades 0 - 6
- can apply working methods, data acquisition, interpretation and evaluation skills which are common in visual arts
- is able to evaluate the curricula and apply didactic and pedagogical applications and solutions in art education

**Contents:**
The teaching in this course is based on the contents areas in the Core Curriculum for Basic Education 2004.
During the visual arts course the student develops her/his visual, didactic and pedagogical thinking by applying the means of visual expressions. The course consists of the following parts

1. Drawing
2. Painting
3. Ceramics
4. Construction
5. School graphics
6. Environmental aesthetics
7. Media education

**Mode of delivery:**
Face-to-face teaching

**Learning activities and teaching methods:**
Lectures and small group sessions 91 h, independent work 98 h.

**Target group:**
Primary teacher students

**Prerequisites and co-requisites:**
None

**Recommended optional programme components:**
The course is part of “Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education”.

**Recommended or required reading:**
To be agreed on at the beginning of the course

**Timing:**
1st and 2nd year

**Learning outcomes:**
The student
- is able to name the objectives and contents of physical education
- is able to describe different methods of teaching physical education
- develops sufficient skills to teach physical education successfully in grades 0-6 of basic education

**Contents:**
- 406035A-04 Lectures, adventure, track and field (1st year, autumn)
- 406035A-05 Indoor ball games, basic gymnastics (1st year, autumn)
- 406035A-06 Skiing, rhythmic gymnastics (1st year, spring)
- 406035A-07 Outdoor ball games (1st year, spring)
- 406035A-08 Orienteering, artistic gymnastics (2nd year, autumn)
- 406035A-09 Skating, swimming (2nd year, spring)
- 406035A-10 SkiAgriFun, the final assignment in p.e. (2nd year, spring)

**Exam**
Orientation Towards Didactics and Pedagogy in Physical Education
- societal justifications of physical education
- physical education = education for physical exercise and education through physical exercise
- latest research in the field of physical exercise and physical education
- curriculum and the process of physical education
- approaches towards teaching of physical education
- adventure education

School Gym as a Physical Education Environment (46 h)
- ball games, including ball handling, basketball, volleyball and floorball
- gymnastics
- exercises to develop basic motor skills, physical exercise and learning

Snow, Ice, and Water as Physical Education Environments
- skiing
- skating
- swimming ability must be demonstrated
Immediate Environment of the School During the Autumn and Spring
- athletics
- outdoor ball games, including football and baseball (pesäpallo)
- orienteering, hiking

Independent Work in Physical Education (LOTTO)
The student keeps a physical education diary
- advance assignments in physical education (2-5 h)
- summaries of actual lessons (5-10 h)
- planning of teaching practice for their own group (2 h)
- preparing for the exam (10 h)
- "portfolio" (20 h)
- learning and practicing swimming (0-20 h)
- practicing of physical exercise skills (20-40 h)
- taking part in health-oriented exercising (4-10 h)
- getting acquainted with the sports culture and physical education events at school (8-20 h)
- compiling a source list of teaching materials for physical education

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Lectures 8 h, practical exercises 83 h, exam, written essay

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:
Peruskoulun opetussuunnitelman perusteet, liikunnan osuus.
Opetushallitus ja NuoriSuomi 2008 Fyysisen aktiivisuuden suositukset kouluikäisille 7-18 vuotiaille.

408029S: School Work in the Master Phase II, special groups, 3 op

Voimassaolo: 01.08.2012 -
Opiskelumuoto: Advanced Studies
Laji: Practical training
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

Ei opintojaksokuvauksia.

406023A: Religion, 2 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen oppimateriaali:
Kallioniemi, Arto & Luodeslampi, Juha (toim.), 2005
Pyysiäinen, Markku & Seppälä, Jarkko (toim.), 1998
Watson, Brenda , 1993
Opintokohteen kielet: Finnish

ECTS Credits:
2 credits

Language of instruction:
Finnish. For ITE students, small group teaching is in English.

Timing:
2nd year

Learning outcomes:
The aim of the module is orientate students towards the development of teacher's intercultural professional competence in teaching the Religious Education so that they can teach, plan and evaluate the pedagogical elements needed in the teaching of the subject in context of the Finnish Elementary School by
- giving basic knowledge about the goals, contents and methods of RE in the Finnish elementary school
- developing students capacity to recognize and deepen his/her knowledge, understanding and perspective into the teachers professional competence in RE
- to develop the larger frame of reference and understanding in the field of RE
- to develop the capacity to evaluate his/her professional progress as a professional of RE at school
Contents:
- What is religious education at school (in the Finnish society and cultural context)
- What is religion and its meaning
- Religion as a phenomenon of the human growth and development
- The didactic in the religious education
- Multicultural and intercultural perspectives in religious education at school
- Intercultural competence and sensitivity as a part of the teacher’s professional competence

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Lectures 8 h, workshops 14 h, students active independent studies 32 h

Target group:
Primary teacher students

Prerequisites and co-requisites:
No

Recommended optional programme components:
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:
OPS 2004: www.edu.fi

Kurssikirjojen saatavuuden voi tarkastaa tästä linkistä.
Literature (in English): Introduced by the M.Ed. lecturers at the beginning of the course.

Assessment methods and criteria:
Active studying in lectures and workshops, presentation in workshop, essay

Grading:
0 - 5

Person responsible:
Markku Salakka

Working life cooperation:
No

406024A: Ethics, 2 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuyskikko: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen oppimateriaali:
Airaksinen, Timo, , 1987
Kamppinen, Matti (toim.), , 1987
Laurila, Arne (toim.), , 1979
Niiniluoto, Ilkka, , 1984
Opintokohteen kielet: Finnish

ECTS Credits:
2 credits
Language of instruction:
Finnish. For ITE students, small group teaching is in English.

Timing:
(1st or) 2nd year

Learning outcomes:
The aim of the module is orientate students towards the development of teacher’s intercultural professional competence in teaching the Philosophy of Life so that they can teach, plan and evaluate the pedagogical elements needed in teaching of the subject in context of the Finnish Elementary School.

Contents:
Philosophy of Life as a subject of the Finnish Elementary School, the history, content and the ethical statements of the subject in Finland, the practical arrangements of the teaching, philosophy of life, its structure and and its relation to human action, ethics, didactics in the subject

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
lectures 8 h, workshops 14 h, independent work 32 h

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

Assessment methods and criteria:
Active participating in lectures and workshops, presentation in workshop, essay

Grading:
0 - 5

Person responsible:
Markku Salakka

Working life cooperation:
None

Other information:
Philosophy of Life is mutually optional with religion.

406033A: Crafts/Textile Work and Technology, 7 op

Voidaan suorittaa useasti: Kyllä

**ECTS Credits:**
7 credits

**Language of instruction:**
Finnish. For ITE students, small group teaching is in English.

**Timing:**
1st and 2nd years

**Learning outcomes:**
The student achieves a basic competence to teach handicrafts in grades 0-6 of basic education and is aware of the characteristics of craft science and crafts, arts and technology education that provide the scientific basis of textile work.

**Contents:**
Crafts/Textile Work and Technology studies comprise three courses:

1. **User-centered design and production in solving crafts and technology problems (2 cr)** This course familiarizes students with user-centered design and problem solving in crafts and technology.
2. **Material, sewing and clothing technology (3 cr)** In material technology, students consider textiles in terms of their fiber material and fabric structure and as products. They also study the basics of sewing and clothing technology.
3. **Pedagogical and didactic considerations (2 cr)** Product design, manufacture and evaluation processes are viewed within the framework of crafts, technology and art education.

**Mode of delivery:**
Face-to-face teaching

**Learning activities and teaching methods:**
Specified separately for each specific course.

**Target group:**
Primary teacher students

**Prerequisites and co-requisites:**
None

**Recommended optional programme components:**
The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

**Recommended or required reading:**
Specified separately for each specific course.

**Assessment methods and criteria:**
Specified separately for each specific course.

**Grading:**
Specified separately for each specific course.

**Person responsible:**
Marjut Sarkkinen

**Working life cooperation:**

406033A-01: User-Centred Design and Manufacture as an Approach to Crafts nad Technology Problems, 3 op

Voimassaolo: 01.08.2011 -
Opiskelumuoto: Intermediate Studies
Laji: Partial credit
Vastuuysikkö: Faculty of Education
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

ECTS Credits:
2 cr

Language of instruction:
Finnish. For ITE students, small group teaching is in English.

Timing:
1st year

Learning outcomes:
- The student knows how to apply and introduce a user-centred design approach.
- The student knows how to produce products suitable for crafts activities, technological problem solving and children's world of crafts.
- The student knows how to document the progress of her/his assignment in a portfolio.

Contents:
The following things are done in the course:
- various small prototype products are designed and manufactured collaboratively
- the theoretical contents and the practical process are documented and analysed in a portfolio

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
Lectures 8 h, small group teaching 31 h and independent work 39 h

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of the Crafts/Textile Work and Technology 406033A module.

Recommended or required reading:
Kasvatustieteiden julkaisusarja A:189

Leaening materials as applicable.

Availability of course literature can be checked here.

Assessment methods and criteria:
The studies are based on large and small group teaching and independent study, and partly on optional workshops. Completion of the studies requires active participation. Both the theoretical and the practical studies are documented in a partly digital and partly 3-dimensional pedagogical portfolio.

The assessment is carried out collaboratively by peers, self and teacher. The final projects of the course and the teaching portfolio are assessed on the basis of agreed criteria.

**Grading:**

0 - 5

- **Opintokohteen kielet:** Finnish

**ECTS Credits:**

3 cr

**Language of instruction:**

Finnish. For ITE students, small group teaching is in English.

**Timing:**

1st year

**Learning outcomes:**

The student knows how to

- classify a textile as a fibre, cloth and product
- put into use the basics of sewing and clothing technology

**Contents:**

- A piece of clothing is made from an elastic material, while the life span of another piece of clothing is prolonged by fixing it.
- The student's own learning is analysed from the theoretical and practical points of view by means of a portfolio.

**Mode of delivery:**

Face-to-face teaching

**Learning activities and teaching methods:**

Lectures 6 h, small-group work 20 h and independent work 26 h.

**Target group:**

Primary teacher students

**Prerequisites and co-requisites:**

No

**Recommended optional programme components:**

The course is part of the Crafts/Textile Work and Technology 406033A module.

**Recommended or required reading:**

Learning materials as applicable.
The availability of course literature can be checked here.

**ECTS Credits:**
7 cr
Language of instruction:
Finnish. For ITE students, small group teaching is in English.

Timing:
1st and 2nd years

Learning outcomes:
Having completed the studies student will know how to
- use the most common machines and equipment which are needed in machining wood, plastic and metal in primary school technical work.
- teach the safe use of the most common technical work hand tools to primary school children.
- apply the basics of mechatronics in primary school technical work.
- apply the basics of electronics in primary school technical work.
- design, implement and evaluate small-scale ranges of themes from the viewpoint of technology education in primary school technical work.

Contents:
The studies comprise three courses:
- Traditional Handicrafts in the Context of Technical Work (3 cr)
- Mechatronics Applications (2 cr)
- Electronics Applications (2 cr)

The emphasis in the first course is on traditional handicrafts. Through lectures and exercises students familiarize themselves with common materials used in technical work and learn how to machine them. Students learn to teach the safe use of most common technical work hand tools and implement simple theme works in primary school technical work. Work is based on individual design.

Mechatronics Applications focuses on the applications of basic mechatronic principles and their use in technical work in primary school. Students learn to combine mechanics and electricity into technological wholes by designing, experimenting and constructing. Experiments and constructions are problematized in textual outputs.

The aim of Electronics Applications is to guide the students towards an understanding of the fundamental principles of electrics and electronics through individual design, experimentation and construction. The students' pedagogical competence is developed with the primary school pupil in mind.

Mode of delivery:
Face-to-face teaching

Learning activities and teaching methods:
- 406033A-01 Traditional Handicrafts in Technical Work Context: lectures 6 h ja small group sessions 33 h
- 406033A-02 Mechatronics Applications: lectures 4 h ja small group sessions 22 h
- 406033A-03 Electronics Applications: lectures 6 h ja small group sessions 20 h

Target group:
Primary teacher students

Prerequisites and co-requisites:
None

Recommended optional programme components:
The course is part of “Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education”.

Recommended or required reading:
To be agreed on at the beginning of the course.

Assessment methods and criteria:
Active participation in contact teaching, practical exercises and textual outputs.

Grading:
0 - 5
1) Mainly numerical assessment, partly pass/fail.
2) The written and/or online materials produced in the exercises are assessed. Attention is paid to factual content and didactic issues. Instead of producing materials, the study modules can be passed by sitting an exam based on a corresponding amount of literature and the written materials given in the lectures. Agreement is made separately on substitutive ways to pass the course.
3) Concrete materials produced in the exercises are assessed numerically. The assessment pays attention to the pedagogical value and functional and aesthetic aspects of the objects.
4) The ratio between concrete and written assessment is 2:1.
