

Opasraportti

Primary teacher education (2014 - 2015)

Primary Teacher Education

The degree programme in primary teacher education aims primarily at functions in the learning and educational environments of basic education grades 0-6. The programme gives the student a versatile competence in pedagogy, didactics and subject mastery to encounter educational challenges in the future school.

The studies offer ingredients for the construction of a student's own pedagogical ideology and activity, and the student is guided to an awareness of the social significance of a primary teacher's work. In addition to the courses offered by the Faculty of Education, a student can also apply for a right to pursue studies in the study modules of five different faculties.

Learning Outcomes (BA):

- Student is capable of discussing the nature of pedagogical action and the applicability of the pedagogical theory.
- Student is able to discuss the assessment and evaluation of learning and recognizes learning as a life-long process.
- Student can explicate his/her understanding of the subject knowledge of various subjects to the pupils.
- Student can examine the special educational needs of pupils.
- Student is able to adapt his/her behavior and action in different educational and teaching situations.
- Student shows responsibility, empathy and tact in educational situations.
- Student is able to participate in planning and evaluation tasks in education.
- Student can analyse interaction from the perspective of safety and caring.

Learning Outcomes (MA):

- Student is able to take responsibility for his/her actions and support the learners' self-efficacy.
- Student is capable of working in a multi-professional environment.
- Student knows how to analyse and explain theoretical knowledge on education and teaching.
- Student shows empathy, ethicalness and pedagogical tact and knows how to assess his/her actions in varying situations.
- Student knows how to plan research-based teaching.
- Student is able to participate in development and evaluation tasks in education.
- Student is capable of knowledge generalization, is able to design and invent theoretical knowledge, and apply it to teaching.

- Student knows how to analyse his/her conception of child and social and cultural assumptions of childhood.

Tutkintorakenteet

Primary Teacher Education, Bachelor's Degree

Tutkintorakenteen tila: archived

Lukuvuosi: 2014-15

Lukuvuoden alkamispäivämäärä: 01.08.2014

Orientation studies (6 ECTS cr)

- 410017Y: Digital Media in Teaching and Learning, 2 op
- 410014Y: Information and communication as a pedagogical tool, 3 op
- 405023Y: Orientation to studies, 1 op

Language and communication studies (9 ECTS cr)

- 902130Y: Foreign Language (English), 3 op
Compulsory
 - 902130Y-01: Foreign Language (English) part 1, 1,5 op
 - 902130Y-02: Foreign Language (English) part 2, 1,5 op
- 900070Y: Scientific Communication I, 2 op
- 901001Y: Second Official Language (Swedish), 2 op
- 900075Y: Speech Communication, 2 op

Basic Studies in Education (25 ECTS cr)

Primary Teacher Students choose from Pedagogical Research Seminar's courses the following: Orientation to Work at School 410072P-03 and Pedagogical Seminar I: Knowing the Pupils and Interaction.

A250504: Education, Basic Studies (Oulu), 25 op

Compulsory

- 410067P: Basic course in education, 4 op
- 410068P: Didactics, 4 op
- 410069P: Educational psychology, 4 op
- 410070P: Sociology of education, 4 op
- 410071P: Educational philosophy, 4 op
- 410072P: Pedagogical Research Seminar, 5 op

Alternative

- 410072P-01: Research areas and basics of early childhood education, 3 op
- 410072P-02: Orientating Practice in a day care center, 2 op
- 410072P-03: Orientation to Work at School, 2 op
- 410072P-04: Pedagogical Seminar I: Knowing the Pupils and Interaction, 3 op
- 410072P-05: Pedagogical Seminar in Technology Education I, 3 op
- 410072P-06: Research Seminar, Education, 5 op

Intermediate studies in education (45 ECTS cr)

A250531: Education, Intermediate Studies (LO), 45 - 50 op

Intermediate Studies include the following mandatory courses:

407042A: Encounters and Interaction at School, 15 op

Compulsory

407042A-01: Intercultural Education, 3 op

407042A-02: Special Education, 3 op

407042A-03: Pre and Primary Education, 3 op

407042A-04: Encounters and Interaction by Means of Art, 5 op

407042A-05: Seminar Day, 1 op

407043A: Curriculum, School Development and Evaluation, 5 op

407044A: Caring and Prevention of Violence in Educational Environments, 2 op

407028A: Pedagogical Seminar II: Teacher as a Learning Guide, 3 op

407040A: Basic Course in Quantitative Research, 5 op

Compulsory

407040A-01: Basis of research, 2 op

407040A-02: Statistical analysis, lecture, 2 op

407040A-03: Exercises, 1 op

407041A: Basic Course in Qualitative Research, 5 op

Compulsory

407041A-01: Basic course in qualitative research, lecture, 2 op

407041A-02: Basic course in qualitative research, exercises, 3 op

442164A: Bachelor's thesis, 10 op

Compulsory

442164A-01: Bachelor's thesis, 8 op

442164A-02: Seminar, 2 op

442164A-03: Maturity Test, 0 op

Multidisciplinary Studies in the Subjects and Cross-Cullicular Themes Taught in Basic Education (63 ECTS cr)

A256402: Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education, 65 op

Multidisciplinary Studies include the following mandatory courses:

406041A: Mother Tongue (Finnish) and Literature, 9 op

Compulsory

406041A-01: Literacy, 4 op

406041A-02: Children's and Youth Literature at School, 3 op

406041A-03: Teaching Language Knowledge, 2 op

406021A: Drama Education, 2 op

406022A: History, 3 op

406042A: Mathematics, 7 op

Compulsory

406042A-01: Mathematics Education, part I, 3 op

406042A-02: Mathematics Education, part II, 4 op

406043A: Environmental Studies, 9 op

Compulsory

406043A-01: Man and the Environment, 4 op

406043A-02: Basic Phenomena in Nature, 5 op

406044A: Music, 7 op

Compulsory

406044A-01: Basics of Music Education, 1 op

406044A-02: Pedagogy of Vocal Expression and Singing, 1 op

406044A-03: Listening Education, 1 op

406044A-04: Making Music Together, 1 op

406044A-05: Music Theory in Practice, 1 op

406044A-06: Accompaniment Instrument, part I, 1 op

406045A: Art, 6 op

Compulsory

406045A-01: Basics of Art Teaching 1, 3 op

406045A-02: Basics of Art Teaching 2, 3 op

406046A: Physical Education, 6 op

Compulsory

406046A-01: Lectures, Basic Exercise and Gymnastics, 1 op

406046A-02: Indoor Ball Games, 1 op

406046A-03: Skiing and Apparatus Gymnastics, 1 op

406046A-04: Orienteering and Outdoor Ball Games, 1 op

- 406046A-05: Skating and Swimming Skills, 1 op
- 406046A-06: Application of Physical Education at School and an Integrative Assignment, 1 op
- 406046A-07: Examination, 0 op

Student must also choose either Religion or Ethics and Textile Work or Technical Work

- 406023A: Religion, 2 op
- 406024A: Ethics, 2 op
- 406047A: Crafts/Textile Work and Technology, 6 op

Compulsory

- 406047A-01: School Handicrafts Before and Now, 1 op
- 406047A-02: User Centredness as a Starting Point for Handicrafts: from Fibre to a Product, 2 op
- 406047A-03: User Centredness as a Starting Point for Handicrafts: Techniques in Textile Work, 2 op
- 406047A-04: Pedagogy and Didactics of Textile Work, 1 op
- 406048A: Crafts/Technical Work and Technology, 6 op

Compulsory

- 406048A-01: Basics of Technical Work, 3 op
- 406048A-02: Technology Applications, 3 op

Student completes either School Experience II: Bachelor's Level 407032A (LO, TAIKA, TEKNO) or 407517A (ITE)

- 407032A: School Experience II: Bachelor's Level, 6 op
- 407517A: School Experience II: Bachelor's Level, 6 op

Minor studies (25 ECTS cr)

There are no strict stipulations on the minor subjects of degrees at the Faculty of Education. You may choose the minors freely from among the courses offered by the University of Oulu.

Choose one minor subject (25 credits) to be completed as part of the Bachelor's degree.

Optional Studies (7 ECTS cr)

The student can choose any higher education -level courses.

Primary Teacher Education, Master's Degree

Tutkintorakenteen tila: archived

Lukuvuosi: 2014-15

Lukuvuoden alkamispäivämäärä: 01.08.2014

Advances studies in education (70 ECTS cr)

A250541: Education, Advanced Studies (LO), 80 op

Advanced Studies include the following mandatory courses:

- 408030S: Educational Co-operation at School, 5 op
- 408031S: Childhood as a Social and Cultural Phenomenon, 3 op
- 408017S: Pedagogical Seminar III: I as a Teacher, on My Own and Together, 3 op
- 408020S: School Experience III: Master's Level, 11 op
- 408021S: Theme-based Practice, 6 op
- 408019S: Basics of educational administration, 2 op
- 408013S: Master's Thesis, 35 - 40 op

Compulsory

- 408013S-01: Thesis, 30 op
- 408013S-02: Seminar, 5 op
- 408013S-03: Abstract / Maturity Test, 0 op

Student must also choose either Advanced Course in Qualitative Research 5 ECTS cr or in Quantitative Research 5 ECTS cr

- 413030S: Advanced course in quantitative research, 5 op

Compulsory

413030S-01: Advanced course in quantitative research, lectures and literature, 2 op

413030S-02: Advanced course in quantitative research, exercises, 3 op

413031S: Advanced course in qualitative research, 5 op

Compulsory

413031S-01: Advanced course in qualitative research, lectures and literature, 2 op

413031S-02: Advanced course in qualitative research, exercises, 3 op

Minor studies (25 ECTS cr)

There are no strict stipulations on the minor subjects of degrees at the Faculty of Education. You may choose the minor subjects freely from among those offered by the University of Oulu.

Choose one minor subject (25 credits) to be completed as part of the Master's degree.

Optional Studies (25 ECTS cr)

The student can choose any higher education-level courses, for example free minor studies or other optional courses.

410017Y: Digital Media in Teaching and Learning, 2 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: General Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay410017Y Digital Media in Teaching and Learning (OPEN UNI) 2.0 op

ECTS Credits:

2 ECTS cr

Language of instruction:

Finnish

Timing:

Bachelor's Level, spring, see Course Structure Diagram

Learning outcomes:

After completing the course the student

- recognises the basic concepts of interactive digital media
- understands the role of copyrights in educational digital media projects
- knows how to use commonly available digital media production software and hardware
- has planned and implemented an educationally relevant digital product in a group
- discovers opportunities to use digital media in education

Contents:

- basic concepts in digital media
- copyrights in digital media
- planning digital media project: synopsis and treatment
- digital audio-, image-, and video processing
- digital animations and cartoons

Mode of delivery:

Blended teaching

Learning activities and teaching methods:

Lectures 6 hrs, small-group practical exercises 14 hrs, independent work 18 hrs, collaborative group work 22 hrs

Target group:

All the students in the faculty

Prerequisites and co-requisites:

None

Recommended optional programme components:

410014Y ICT as a Pedagogical Tool

Recommended or required reading:

Lectures, groupwork. Study materials will be confirmed at the beginning of the course.

Assessment methods and criteria:

Active participation in contact teaching, reflective blog journal about lecture topics, A digital media product.

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

1st year, autumn term

Learning outcomes:

After completing the course the student knows how to

- understands how technology is integrated with wider framework of instructional and learning activities in theory and practise.
- make good use of the social media, roomware and productivity programs in teaching and learning.
- can use technology as tool for supporting both individual and collaborative learning.
- Understands basic principles of instructional design of technology enhanced learning course/lesson.

Contents:

- Theoretical foundations and pedagogical models
- Societal issues
- Instructional design of the ICT in education
- Learning environments (learning management systems, social media, mobile social media)
- Roomware (interactive whiteboards, document cameras etc)
- Productivity programs and academic infrastructure

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 10 h, small-group sessions 20 h, independent work 25 h, group work 25 h

Target group:

All the students in the faculty of education

Prerequisites and co-requisites:

None

Leikkaavuudet:

ay902130Y Foreign Language (English) (OPEN UNI) 3.0 op

Voidaan suorittaa useasti: Kyllä

Proficiency level:

B2

Status:

Compulsory course for students of education.

Required proficiency level:

English must have been A1 or A2 language at school or equivalent English skills acquired otherwise. If you received the grade "L" or "E" in the Finnish matriculation exam, you can be exempted from **the first part of the course**.

ECTS Credits:

3 ECTS, workload is 80hrs (including 40 hrs of contact teaching)

Language of instruction:

English

Timing:

See the study guide of your study programme.

Learning outcomes:

Objectives:

- to develop students' English language skills needed for effective communication on different topics related to teaching and educational research
- to practice comprehending and producing scientific oral presentations and written texts
- to introduce students to the concept of multiculturalism and its impact on education

Learning outcomes - by the end of the course students are expected to be able:

- to summarize, interpret and discuss academic texts on topics related to the field of education
- to write short essays on the topics related to teaching and educational research
- to search information on a chosen educational theme, and analyze, explain and orally communicate the ideas
- to describe and define the concepts of inter/multiculturalism, and identify and explain its effects on education

Contents:

- reading strategies and techniques with academic texts
- writing activities for summarizing and interpreting texts
- academic writing practice
- oral presentation practice
- intercultural awareness activities

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Small-group workshop, individual assignments and homework tasks

Target group:

Students of the Faculty of Education

Prerequisites and co-requisites:

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay900070Y Scientific Communication I (OPEN UNI) 2.0 op

Proficiency level:

-

Status:

This course unit is compulsory for all students undertaking a BA degree in Education, Subject Teacher Education, Primary Teacher Education, Technology Oriented Primary Teacher Education, Creative Arts Oriented Primary Teacher Education and Music Education.

Required proficiency level:

-

ECTS Credits:

2 ECTS credits

Language of instruction:

Finnish

Timing:

1st year of studies

Learning outcomes:

Upon completion of the course unit the student should be able to prepare a verbally and stylistically fluent scientific presentation. The student should be able to assess and revise his/her own texts and apply the conventions and practices of scientific writing to his/her own work, especially to his/her scientific theses or dissertations. The student should be able to recognise his/her strengths and weak points as a communicator.

Contents:

The basics and various types of scientific communication. The basic notions of grammatical correctness and the stylistic and formal conventions demanded by proper scientific discourse. Critical approach to source literature and the most common formal standards (referencing techniques, constructing bibliographies etc.). Throughout the course unit the student analyses and produces texts of various types.

Mode of delivery:

contact teaching

Learning activities and teaching methods:

Contact lessons and group work 16 h. Independent study ca. 34 h.

Target group:

Students of the Faculty of Education

Prerequisites and co-requisites:

-

Recommended optional programme components:

-

Recommended or required reading:

the Material in the Optima learning environment,

Hirsjärvi, S., Remes, P. & Sajavaara, P. (2009). Tutki ja kirjoita. Helsinki: Tammi.

901001Y: Second Official Language (Swedish), 2 op

Voimassaolo: 01.08.1995 -

Opiskelumuoto: Language and Communication Studies

Laji: Course

Opintokohteen kielet: Swedish

Leikkaavuudet:

ay901001Y Second Official Language (Swedish) (OPEN UNI) 2.0 op

Proficiency level:

B1/B2/C1 (CEFR scale)

Status:

This course is compulsory to all students. The language proficiency provided by the course unit is equivalent to the language proficiency required of a state official with an academic degree working in a bilingual municipality area (Act 424/03 and Decree 481/03).

According to the requirements of the law, the student must be able to use Swedish both orally and in writing in various professional situations. Achieving this kind of proficiency during a course unit that lasts for only one semester requires that the student has already achieved the necessary starting proficiency level prior to taking the course.

Required proficiency level:

The required [starting proficiency level](#) for students of all faculties is a grade of 7 or higher from the Swedish studies at secondary school (B-syllabus) or equivalent knowledge AND a passing grade from the proficiency test held at the beginning of the course unit. Based on this proficiency test the students are directed to brush up on their language skills with a self-study course (901028Y PÅ VÄG 1-3, 2 ECTS credits) if it is deemed necessary; mastering basic vocabulary and grammar is a prerequisite to achieving the necessary language proficiency for the various communication situations one faces in professional life.

-If a student has not completed Swedish studies (B-language) at secondary school with a grade of 7 or higher, or his/her language skills are otherwise lacking, he/she must achieve the required proficiency level BEFORE taking this compulsory Swedish course unit. Information about brushing up on one's language skills can be found in Finnish [here](#).

ECTS Credits:

2 ECTS credits

Language of instruction:

Swedish

Timing:

autumn or spring term

Learning outcomes:

Upon completion of the course the student should be able to read and understand texts from his/her academic field and make conclusions based on them. The student should be able to write typical professional emails and short reports. He/she should be able to carry himself/herself according to Swedish etiquette when acting as host or guest. The student should also be able to discuss current events and special field-specific matters, use the vocabulary of education and plan and give short oral presentations relating to his/her own field.

Contents:

Communicative oral and written exercises, which aim to develop the student's Swedish proficiency in areas relevant to his/her academic field and future professional tasks. The student practises oral presentation and pronunciation. Situational oral exercises done individually and in pairs and groups. Discussions in small groups. Current texts about the student's special field. Listening comprehension exercises. Written exercises relating to the student's professional field.

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

1 x 90 minutes or 2 x 90 minutes of contact teaching per week and related exercises, self-directed study, a total workload of 52 hours per course.

Target group:

Students of the Faculty of Education

Prerequisites and co-requisites:

See Required proficiency level

Recommended optional programme components:

-

Recommended or required reading:

The students will receive course material during the course.

Assessment methods and criteria:

The course unit focuses on improving both oral and written language skills and requires active attendance and participation in exercises, which also require preparation time. 100% attendance is required. The course unit tests both oral and written language skills. Students participate in the teaching in either autumn semester or spring semester.

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

Oral and written language proficiencies are tested separately and assessed using the so called KORU-criteria (publication of HAMK University of Applied Sciences, 2006). Separate grades will be awarded for the successful completions of both oral and written portions of the course unit: the possible passing grades are satisfactory skills and good skills (see language decree 481/03). The grades are based on continuous assessment and testing.

Person responsible:

See Contact teachers from Languages and Communication's home page

Working life cooperation:

-

Other information:

Students sign up for teaching in WebOodi. A student can only sign up for one teaching group. **When signing up in WebOodi, it is imperative** that the student fills in his/her university email address (paju.oulu.fi), major subject and Swedish grades attained during secondary education in the Further Information field. **The student will be notified of a place in the course unit via email prior to the beginning of teaching.**

900075Y: Speech Communication, 2 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Language and Communication Studies

Laji: Course

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay900075Y Speech Communication (OPEN UNI) 2.0 op

Proficiency level:

-

Status:

According to the old curriculum this course is compulsory for all students undertaking a BA degree in Subject Teacher Education, Primary Teacher Education, Technology Oriented Teacher Education, Creative Arts Oriented Teacher Education and Music Education. If a student of Education has included this course unit in his/her Bachelor's Degree, he/she must include 900071Y Scientific Communication II in his/her Master's Degree.

According to the new curriculum (2013 - 2014) this course is compulsory to all students.

Required proficiency level:

-

ECTS Credits:

2 ECTS credits

Language of instruction:

Finnish

Timing:

1st or 2nd year of studies according to the curriculum of the education programme.

Learning outcomes:

Upon completion of the course unit the student should be able to prepare and give an illustrative and understandable oral presentation on a topic relating to his/her own field in a way that suits the audience and the situation. The student should be able to function purposefully in various situations where he/she is working by himself/herself or as a part of a group. He/she should be able to participate in scientific discourse with sound argumentation and analytical listening. He/she should be able to give, receive and process constructive criticism. The student should be able to critically evaluate his/her own oral communication skills and understand the significance of oral communication in university studies, scientific activity and as a part of professional interaction and communication.

Contents:

Presentation exercises, group work, communicator image and its significance, the speech communication situation and speech communication skills, structure of a speech, preparing a speech, goals and distinctive features of scientific interaction, communicating as an expert in scientific and professional contexts, discussion, negotiation and meeting procedures and practices, observation and analysis of speech communication situations.

Mode of delivery:

Contact teaching

Learning activities and teaching methods:

Contact teaching 20 h and independent study ca. 30 h.

Target group:

the students of the Faculty of Education

Prerequisites and co-requisites:

-

Recommended or required reading:

material in the Optima learning environment

Assessment methods and criteria:

Active participation in teaching, independent study and completion of given assignments.

A250504: Education, Basic Studies (Oulu), 25 op

Opiskelumuoto: Basic Studies

Laji: Study module

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Leikkaavuudet:

ayA250504 Education, Basic Studies (OPEN UNI) 25.0 op

ECTS Credits:

25 ECTS credits

Language of instruction:

Finnish or English

Timing:

At the start of studies in education (in most programmes, 1st year, in secondary teacher education, 3rd and 4th years)

Learning outcomes:

At the end of the module, the student is expected to be able to analytically understand and describe pedagogical phenomena connected with the various stages and situations in a human being's growth as well as pedagogical interaction in different areas of the educational field. To understand and describe these phenomena, s/he knows how to use the basic concepts and theories in the classic fields of education and knowledge on the historical development of educational activity and thinking. The student also knows how to use various academic study and working methods and is able to conduct independent literary work and is getting oriented to educational expertise and research.

Contents:

Consists of the following courses:

[410067P](#) Basic Course in Education: Phenomenon, Theories and Practices of Education, 4 credits

[410068P](#) Didactics: Basics of Learning and Teaching, 4 credits

[410069P](#) Educational Psychology: Growth, Development and Learning, 4 credits

[410070P](#) Sociology of Education: Society, Educational Institutions and Social Interaction, 4 credits

[410071P](#) Educational Philosophy: Education as a Philosophical and Ethical Issue, 4 credits

[410072P](#) Pedagogical Research Seminar, 5 credits

The courses are divided into the following areas:

1. The study module is started with an orientation in "Basic Course in Education: Phenomenon, Theories and Practices of Education".

2. The next four courses comprise the content areas of the module, and the student can freely choose the order in which s/he studies them.
3. The applied course entitled "Pedagogical Research Seminar" is delivered differently in the various degree programmes. The student applies what s/he has learnt in the content courses, assuming a particular orientation depending on her/his educational and personal interests.

Mode of delivery:

Face-to-face and mixed teaching

Learning activities and teaching methods:

Lectures and seminar sessions

Target group:

Students pursuing major or minor studies in education

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

To be announced in connection with the courses

Assessment methods and criteria:

Exams, written assignments (a variety of individual or group assignments can be used depending on the situation)

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

pass/fail

Person responsible:

Veli-Matti Ulvinen

Working life cooperation:

Depending on the degree programme, possibly included in the "Pedagogical Research Seminar".

ECTS Credits:

4 credits

Language of instruction:

Finnish or English

Timing:

1st year

Secondary teacher students 3rd year spring term

Learning outcomes:

After completion of the course, the student

- identifies the most important features of education as a science
- has a basic understanding of the history of education and its main areas of study
- knows how to use the basic concepts of education and pedagogy and is familiar with issues connected with them
- can relate different sectors of the educational sciences to each other
- is familiar with practical and professional tasks in the field of education and with issues connected to them.

Contents:

- basic concepts: development, bildung, teaching, pedagogical activity
- the status of scientific and practical theory in education and pedagogy
- education as a science, main areas and subareas
- history and development of education
- basics of professional growth and development
- orientation to practical tasks in education, assumption of a professional identity as a teacher and in other educational tasks.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and other contact teaching 18 h, independent work 89 h

Target group:

Students in all programmes pursuing Basic Studies in Education

Prerequisites and co-requisites:

None

Recommended optional programme components:

This is the first course in the Basic Studies in Education (25 credits).

Recommended or required reading:

Rinne, R., Kivirauma, J. & Lehtinen, E. (eds.) (2000) Johdatus kasvatustieteisiin.

Siljander, P. (2014 or older prints) Systemaattinen johdatus kasvatustieteeseen. Peruskäsitteet ja pääsuuntauukset. Vastapaino.

ay410072P Pedagogical Research Seminar (OPEN UNI) 5.0 op

Voidaan suorittaa useasti: Kyllä**ECTS Credits:**

5 ECTS

Language of instruction:

Finnish

Timing:

Varies depending on the programme: during or at the end of the basic studies in education

Learning outcomes:

After the course, the student

- perceives the various areas of education and the relations between them
- is familiar with educational research and the basics of scientific writing
- has an understanding of the relationship between pedagogical theory and practice

In addition, students in the primary teacher education programmes in particular

- know how to gather observation data on social interaction in the classroom
- identify issues underlying changes in teachership
- know how to apply knowledge of the pupils in pedagogical activity as a teacher
- know how to present their pedagogical theories-in-use
- know how to compose a report based on observation data to discuss classroom observations from theoretical and practical viewpoints
- see the goals for the course Orientation to Practice 410072P-2 (formerly 410075P), 2 credits

In addition, students in the early childhood education programme in particular know how to

- explain the nature of the area of early childhood education research in the field of different sciences
- specify and evaluate different theoretical trends in early childhood education
- identify and assess the ethical basis of early childhood education research
- face different children and identify and assess the need for three-tier support in early childhood education
- summarise scientific text and discuss current research themes in early childhood education

Contents:

Research being carried out in the Faculty, expertise based on it, contents of a seminar paper based on the student's own interests, feedback and discussions related to it.

Mode of delivery:

Face-to-face and blended teaching, seminar sessions

Learning activities and teaching methods:

Varies by the degree programme. See the subcodes.

Target group:

Students in all programmes pursuing the Basic Studies in Education (25 credits).

Prerequisites and co-requisites:

Basic course in education

Recommended optional programme components:

The course is the final course in the Basic Studies in Education (25 credits), and in the primary teacher education programmes it is closely linked to Orientation to School Work and to studies in educational psychology and, in secondary teacher education, in special education.

Recommended or required reading:

E.g. Siljander, P. & Kivelä, A. (Eds) (2008). *Kasvatustieteen tila ja tutkimuskäytännöt: paradigmat katosivat, mitä jäljellä?* (applicable parts).

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Basic Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 ECTS cr

Language of instruction:

Finnish

Timing:

First year, Bachelor level

Learning outcomes:

After completion of the course, the student is able to:

- report on the activities of a class

- critically describe his/her conception of teachership and education
- assess the activity of a class by means of observation
- understand the contents and significance of curricula in school education

Contents:

School experience orientation is a part of the studies in the major subject at the Bachelor level. It is also a part of the pedagogical studies in teacher training. All the student teachers complete this practice period, irrespective of prior work experience.

The principal theme of this practice period is the pupil as a member of the classroom community.

The aim is for the students to build upon the themes and their individual levels of understanding of Pedagogical Seminar I by working in a concrete classroom context. In addition, this practice period introduces the students to the curriculum and its flexible implementation in teaching.

School experience orientation offers the students a guided opportunity to investigate child development and interaction in a classroom environment, as well as relevant socio-cultural phenomena, based on study assignments formulated in Pedagogical Seminar I. In the School experience orientation period, the students are introduced to the teaching profession by participating in the teaching and learning activities of their own student class groups and those of neighbouring classes (cells).

Place: Oulu Teacher Training School, grades 0-6.

Duration of the period: two calendar weeks

Mode of delivery:

School Work

Learning activities and teaching methods:

Description of the activities: During Orientation to School Work, the student works together with the staff of the Teacher Training School and his/her fellow students.

The student observes and monitors the activity in the class based on the learning assignments agreed on in Pedagogical Seminar I. The students get to know school as a growth and learning environment and is familiarised with the school curriculum, especially its general part.

The period starts with a cell-specific joint planning session, discussing the course and supervision arrangements and agreeing on the working classes where the planning continues. The planning is attended by all the persons taking part in the school work period. During this period, the student gets to know the class and carries out the monitoring tasks given in Pedagogical Seminar I.

There are 40 hours of activities tied to a time and place in this period, consisting of the following:

- In cooperation with Liikenneturva, the students in each class give a traffic education lesson to the pupils. There is a two-hour lecture on the contents of this lesson at a time to be specified later.
- The students also give small-scale simultaneous teaching, small group teaching or a jointly implemented teaching episode or lesson.
- In addition to the above, the students also monitor the activities in their own and neighbouring classes for a total of 36 hours.

Supervision: General supervision in Orientation to School Work is provided by the primary school principal at the Teacher Training School. Tutoring in a student's class or for a group of students is provided by specifically appointed class teachers. Tutoring in the major subject studies focuses on supervision of the practice period in Pedagogical Seminar I.

Information seminar: School experience orientation will begin with an information meeting to be held in the canteen for the grades 0-6 at the Teacher Training School.

Assessment: The class teacher assesses the student's performance on the scale pass/fail based on assessment discussions and the pedagogical portfolio. An entry on a "pass" is made in the practice card. The card is also signed by the staff member who delivered Seminar I. There are specific instructions available on the composition and contents of the pedagogical portfolio. Its composition is also discussed in Pedagogical Seminar I.

A fail may need to be retaken or supplemented. A failed school experience period can be retaken twice. There are specific instructions on supplementation or retakes. If a registration for the period is not cancelled, it is considered a fail.

Evaluation seminar: At the end of the Orientation to School Work, an evaluation seminar is organised at the Teacher Training School to analyse the fulfilment of the goals for the period and to discuss how the experiences can be utilised for future school experience periods. The seminar is attended by all the persons who contributed to the school experience period. A secretary chosen from among the students keeps minutes in the evaluation seminar, and the document is delivered to the members of the school experience team in electronic form within one week of the seminar.

Target group:

Primary teacher education (not ITE-students)

Prerequisites and co-requisites:

Participation in Orientation to School Work also requires participation in Pedagogical Seminar I.

Recommended optional programme components:

Pedagogical Seminar I

Recommended or required reading:

None

Assessment methods and criteria:

Work placement

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

Pass/ fail

Person responsible:

Vesa-Matti Sarenius, Auli Halme, Erkki Pekkala, Markku Juopperi, Outi Takalo

Working life cooperation:

Yes.

Other information:

Registration: Registration for the autumn period is by the end of September, and for the spring period by the end of previous November. The registration takes place via Weboodi.

University student must show **extract from their criminal record**, if studies involve practice with minor children. **Please take care that you have shown extract from criminal record before the practice begins.**

410072P-04: Pedagogical Seminar I: Knowing the Pupils and Interaction, 3 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Basic Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

1st year

Learning outcomes:

Upon completion of the course, the student

- identifies knowledge of pupils as learners as a dialogical relationship and as a continuous process
- identifies the most important group phenomena in the classroom and knows how to observe interaction between pupils
- knows how to describe his/her pedagogical theory-in-use and how to critically describe and reflect on his/her views on teaching and education
- knows how to apply his/her pedagogical expertise in a diversified, attentive and pupil-centred manner in different interaction situations
- is familiar with research on classroom interaction

Contents:

- changing knowledge in educational and development psychology, especially the traits of the growth and development of children at school age, but also the theories in which these traits are seen as socially produced
- familiarisation with classical sociological studies that apply or develop theories by observing classroom situations
- pedagogical portfolio as a tool for reflection on the development of your own teachership: aims of the portfolio and starting to compile one

Taika-students: The seminar focuses on the arts and crafts education perspective in learner growth and development and the study of interactive and socio-cultural phenomena in the classroom. We learn how to identify the opportunities provided by the arts in deepening the teacher-student relationship.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group teaching 24 h/ self-study 56 h

The student works on her/his portfolio also in a blog environment between the face-to-face meetings

Target group:

Luokanopettajakoulutusten opiskelijat

Prerequisites and co-requisites:

Basic Course in Education, Didactics

Recommended optional programme components:

Pedagogical Seminar I is part of a module formed by "Educational Psychology", "Sociology of Education" and "Orientation to School Work". Integrating the themes of these courses, students focus on studying the pupils' growth and development as well as interaction and sociocultural phenomena in the classroom. The pedagogical seminars I-III form a continuum in which the essential viewpoint is the student's comprehensive professional growth into a critical, reflective and inquiring teacher.

Recommended or required reading:

Sovitaan opintojakson alussa

Assessment methods and criteria:

Active participation in contact teaching, completion of assignments and pedagogical portfolio

410072P-05: Pedagogical Seminar in Technology Education I, 3 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Basic Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

1st year

Learning outcomes:

After the course the student knows how to plan and carry out teaching episodes based on research on technology education. The student knows how to analyse and evaluate teaching situations and reflect on the phenomena and issues taking place in them from the viewpoint of technology education.

Contents:

Familiarisation with technology learning with a focus on educational psychology. The inquiring teacher and significance of awareness of pupil needs in primary school.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group sessions 20 h, individual teaching 16 h, work placement 2 h.

The seminar focuses on the technology learning process when the pupils are supposed to learn some technological entity. Making use of a self-made assembly kit, a teaching episode is planned and carried out, with literature produced on technology education research providing the theoretical basis. The teaching episode is analysed based on this, and the results of the analysis are presented in the form of a learning diary.

Target group:

Technology oriented primary teacher education

Prerequisites and co-requisites:

None

Recommended optional programme components:

405024Y Introduction to Theoretical Foundations and Practics in Technology Education, 407034A Pedagogical Seminar in Technology Education II, 408023S Pedagogical Seminar in Technology Education III, 406040A Crafts / Technical Work and Technology

Recommended or required reading:

Technology Education literature, self-produced educational materials

Assessment methods and criteria:

Literature, production and testing of learning materials at school, preparation of a pedagogical portfolio.

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

Pass/ fail

Person responsible:

Matti Lindh

Working life cooperation:

Yes. The course includes giving a teaching session at school (2 h).

410072P-06: Research Seminar, Education, 5 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Basic Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 ECTS cr

Language of instruction:

Finnish

Learning outcomes:

Having completed the course, the student

- has an understanding of the contents of and mutual relations between the courses in the Basic Studies in Education.
- has familiarised him/herself with current educational research especially in his/her own faculty.
- knows how to design, produce and evaluate scientific texts

Contents:

Current educational research

Mode of delivery:

In the Education Programme, face-to-face teaching scheduled to last an entire term. E.g. lectures on current research themes by researchers in the research group *Theory and Philosophy of Education* followed by discussion based on the lectures and production of a learning portfolio. *In the Open University*, lectures and seminar

Learning activities and teaching methods:

Lectures and seminar sessions, 20 h. In the Education Programme, to be implemented as a 2-hour lecture session at the end of each basic studies course, with 10 hours of seminar sessions at the end of the course in which the students present their learning portfolios.

Target group:

Students pursuing the Basic Studies in Education

Prerequisites and co-requisites:

no

Recommended optional programme components:

The course links together the various courses in the Basic Studies in Education (25 credits).

Recommended or required reading:

As applicable Siljander, P & Kivelä, A. (toim.) (2008). Kasvatustieteen tila ja tutkimuskäytännöt. Paradigmat katosivat, mitä jäljellä?

You can check for the availability of the course books [here](#).

Assessment methods and criteria:

Active attendance in lectures is recommended, while a 80% class attendance is required in the seminars. The student composes a learning portfolio to study the core contents of the courses in the basic studies based on the 2-hour lectures arranged at the end of each basic studies course. In the portfolio written on the basis of these lectures given by researchers, the student shows that s/he has understood the main contents of the basic studies course, and also outlines his/her own research interests and specific educational viewpoints. The student is expected to discover for him/herself a meaningful and topical theme for further educational research. The portfolios are presented, discussed and assessed in the seminar groups. The portfolios are based on the researchers' lectures, the course materials in the basic studies, and supplementary literature as agreed individually based on the focus of each student's portfolio. There is more information on the [grading of studies](#) in the university's website.

In the Open University, the course is implemented as a lecture providing an introduction to seminar work, in which the student composes a report for a research plan, on the basis of which the course grade is given.

407028A: Pedagogical Seminar II: Teacher as a Learning Guide, 3 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 cr

Language of instruction:

Finnish

Timing:

2nd year

Learning outcomes:

Upon completion of the course, the student knows how to

- explain the essential foundations of learning theory and integrate them into the planning and supervision of teaching
- design teaching based on different pedagogical approaches to implement individual and collaborative learning
- make use of technology as a tool in pedagogical activity
- support growth into a skilled learner

Taika-students: S/he is also able to tell about her/his own educational ideas in the school's art education on a broad basis. S/he identifies different pedagogical models as a basis for teaching and knows how to apply different ways to guide learning.

Contents:

- directing the learning of individuals and groups
- planning and assessment of teaching
- instructional use of technology
- pedagogical portfolio as a tool for the development of the student's own teachership: work on the portfolio is continued

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group teaching 24 h and self-study 56 h

The Faculty's Leaf research infrastructure is utilised in teaching as a collaborative space for learning and interaction. Between the face-to-face meetings, the student works on his/her pedagogical portfolio also in a blog environment.

Target group:

Primary teacher students

Prerequisites and co-requisites:

Pedagogical Seminar I

Recommended optional programme components:

Pedagogical Seminar I is part of a module formed by "Curriculum, School Development and Assessment" and "Bachelor Level School Experience". Based on theoretical approaches, it familiarizes the students with the practical design of different teaching and learning models and learning environments. The goal of the design of practices grounded in learning theory is to support teaching practice and learning to be a teacher. The pedagogical seminars I-III form a continuum in which the essential viewpoint is the student's comprehensive professional growth into a critical, reflective and inquiring teacher

Recommended or required reading:

To be agreed on at the beginning of the course

Assessment methods and criteria:

Active participation in contact teaching, completion of assignments and pedagogical portfolio

407040A: Basic Course in Quantitative Research, 5 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Peltonen, Jouni Aslak

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay407040A Basic course in quantitative research (OPEN UNI) 5.0 op

ECTS Credits:

5 cr

Language of instruction:

Finnish

Timing:

2. or 3. year

Learning outcomes:

Having completed the course, the student knows how to

- define the basic ideas in the approaches and methods of research in the human sciences from the viewpoint of different traditions of science
- plan and implement the main stages of a simple quantitative study
- evaluate and interpret quantitative studies conducted by others

Contents:

The course is divided into three parts:

407040A-01 Basis of research (2 cr.)

- basic features of empirico-analytical research
- role of theory in research
- main stages of the research process
- formulating and shaping the research question
- types of research
- data collection
- accountability/reliability analysis

407040A-02 Statistical analysis (2 cr.)

- description of one- and two-dimensional empirical distribution
- foundations of statistical deduction
- estimation
- statistical testing

407040A-03 Exercises (1 cr.)

- enhancing knowledge of content areas in 1 and 2

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

1. Lectures 18 h
2. Lectures 18 h
3. Exercises: Small group sessions 14 h

Target group:

Students in all programmes pursuing Intermediate Studies in Education (/Music Education)

Prerequisites and co-requisites:

None

Recommended optional programme components:

Thesis studies support the writing of a Bachelor's thesis

Recommended or required reading:

Metsämuuronen, J. (2003). Tutkimuksen tekemisen perusteet ihmistieteissä (s. 1-146).
Holma, K. & Mälkki, K. (toim.) (2011) Tutkimusmatkalla. Metodologia, teoria ja filosofia kasvatustutkimuksessa.

407030A Bachelor's Thesis 9.0 op

ECTS Credits:

10 ECTS cr

Language of instruction:

Finnish

Timing:

3rd year

Learning outcomes:

Upon completion of the course,

- the student knows how to formulate a research problem
- the student knows how to compose a research plan on the topic of his/her thesis
- the student can use relevant literature for a theoretical examination of her/his research topic
- the student is familiar with the basics of scientific writing and can use them to write a thesis
- the student prepares a Bachelor's thesis
- the student is able to act as an opponent for another student

Contents:

The course consists of the following:

- preparing a research plan
- conducting research
- writing a research report
- acting as peer opponent and assessor of a thesis
- writing the maturity test
- information skills training at the library

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Seminar sessions 30 h, information skills training at the library 10 – 12 t, and Self-study 227 h

Target group:

All the students in the Faculty of Education

Prerequisites and co-requisites:

Basic Studies (25 credits) in Major Subject, Scientific Communication I and Basic courses in qualitative and quantitative research(started)

Recommended optional programme components:

The course is part of the Intermediate Studies in Major Subject

Recommended or required reading:

Hirsjärvi, S., Remes, P. & Sajavaara, P. Tutki ja kirjoita.

APA-opas: <http://cc.oulu.fi/~sarenius/apatyyl/>

ECTS Credits:

63 credits

Language of instruction:

Finnish and English

Timing:

1st and 2nd year

Learning outcomes:

Student

- can explicate his/her understanding of the subject knowledge to the pupils on elementary school grades 0–6.
- is able to use various teaching methods and utilise learning environments in different school subjects and cross-curricular themes.
- is able to judge the applicability of his/her own teaching within the framework of the national core curriculum.
- is able to plan, apply and assess subject matter thought for primary level.

Contents:**Humanities Module***ECTS:* 16 cr.*assessment:* 0-5

This module crystallizes the three central perspectives in primary teacher education: values, social awareness and communication. Students familiarize themselves with the contents and pedagogy of the different subjects to gain the competence needed to enhance pupils' language-based learning and interaction skills. Further, students acquire a knowledge base and assessment skills that support their ethical development, empower them to become active participants in democratic society and promote human rights.

Science Module*ECTS:* 16 cr.*assessment:* 0-5

Studies in the Science Module aim at familiarizing students with science and mathematics teaching and with working methods appropriate for schools and their development. Students learn to perceive, study, model and explain scientific phenomena and events. In addition, they will understand the significance of mathematics and natural sciences in the context of pupil development and education.

Teaching within the module focuses on key issues that enhance student abilities and curriculum development, didactics of the various subjects and implications of didactic research for teaching. Teaching may also involve integration of shared projects involving a number of different courses. Results and experiences of these projects can then be utilized in teaching practice.

Arts and Crafts Module*ECTS:* 25 cr.*assessment:* 0-5

Studies in the Arts and Crafts Module provide students with such fundamental knowledge and skills in arts and crafts as will allow them to carry out and develop the basic educational curriculum in line with pupil achievement. Another goal is to foster an understanding of the educational significance of the different arts and the skill building process from the perspective of child development.

Humanities Module 16 ECTS cr

Mother Tongue (Finnish) Literature 9 ECTS cr

1. *Literacy* 4 ECTS cr
2. *Children's and Youth Literature at School* 3 ECTS cr

406041A-03: Teaching Language Knowledge, 2 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 ECTS cr

Language of instruction:

Finnish

Timing:

1st or 2nd year

Learning outcomes:

Having completed the course, the student

- knows how to apply modern language knowledge to guide children to make observations on language and consciously consider language structure
- is able to describe the premises of teaching Finnish as a second language

Contents:

- grammar of Finnish language
- methods and practices of teaching language knowledge
- teaching Finnish as a second language

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 6 h/Small group teaching 14 h/ Self-study 33 h

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

Children's literature at school, Literacy

Recommended or required reading:

Alho, Irja & Kauppinen, Anneli. 2008. Käyttökielioppi

You can check the availability of the course books via [this link](#).

Assessment methods and criteria:

Active participation in contact teaching, completion of assignments and exam

406021A: Drama Education, 2 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 ECTS cr

Language of instruction:

Finnish. For ITE students, the small group sessions are in English.

Timing:

2nd year

Learning outcomes:

Having completed the course, the student is familiar with the premises of drama pedagogy in basic education. S/he knows how to apply to his work as a teacher the genre of drama and theatre education that s/he learnt in this course.

Contents:

The course deals with drama and theatre as a form of learning and and as a method of artistic performance in school.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group sessions 20 h and independent work 30 h

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

Heikkinen, H. (2005 tai uudemmat painokset). Draamakasvatus - opetusta, taidetta, tutkimista. You can check for the availability of the literature [here](#).

Assessment methods and criteria:

Participation in contact teaching and as a final project either a drama group work or an independent written work.

406022A: History, 3 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish. For ITE students, the small group sessions are in English.

Timing:

(1st or) 2nd year

Learning outcomes:

Having completed the course, the student has a basic competence to plan and give lessons in history. The student understands what history didactics means and how and why history is taught. The student knows how to plan and implement history teaching using different working methods and tools. S/he knows how to apply several data acquisition methods in the planning of his/her teaching. The student knows what goals and contents the national core curriculum for basic education places on the history teaching.

Contents:

The special characteristics of the history subject from the viewpoints of school, society and the curriculum and basic teaching competence.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 10h, and small group sessions 20 h.

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

406042A: Mathematics, 7 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 + 4 ECTS cr

Language of instruction:

Finnish/English

Timing:

1st and 2nd year

Learning outcomes:

After passing the Mathematics Education courses the student:

- is able to plan and teach mathematics learning which is based on the curriculums and different learning theories and takes different learners into consideration
- can explain and evaluate the key goals, contents, teaching methods and assessment of primary mathematics and apply this knowledge to his/her teaching
- can critically evaluate how different learning aids can be applied to teaching at school
- is able to develop his/her mathematics teaching according to the life long learning principles

Contents:

Matematiikan didaktiikan kokonaisuudessa käsitellään seuraavia asioita:

- Eri matematiikan sisältöjen oppimista ja opetusta sekä oppimisen arviointia
- Matematiikan oppimisvaikeuksia
- Affekteja, asenteita ja uskomuksia matematiikan oppimisessa

Kokonaisuus antaa lähtökohdan itsenäiselle matematiikan opetuksen suunnittelulle ja toteutukselle sekä tiedonhauulle matematiikan oppimisesta ja opetuksesta. Kokonaisuuden tarkoituksena on myöskin pohtia opiskelijan omia asenteita matematiikkaa kohtaan ja opettajan asenteiden vaikutusta oppilaiden matematiikan oppimiseen.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

The course consists of two parts:

- Mathematics Education, part I
- Mathematics Education, part II

Target group:

Primary teacher education students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

Van de Walle, John A., Elementary and middle school mathematics : teaching developmentally / John A. Van de Walle, Karen S. Karp ; Jennifer M. Bay-Williams ; with contributions by Jonathan Wray. 8th ed. Boston: Pearson, cop. 2013.

Learning outcomes:

After passing this course the student

- is able to plan mathematics teaching which is based on the curriculums and takes different learners into consideration
- can critically evaluate how different learning aids can be applied to teaching at school
- is able to use different manipulatives
- is able to show positive attitudes towards mathematics
- can describe different learning theories which apply to mathematics teaching
- can apply different learning theories when planning mathematics teaching

Contents:

The course includes the following:

- Mathematics in the primary education core curriculum
- Mathematics learning theories and mathematics as a discipline
- Number concept and calculation with integers
- Teaching the base ten system
- Geometry, measurement and spatial thinking
- Rational numbers, fractions and decimal fractions
- Mathematics learning difficulties and the model of three stage support
- Affects, attitudes and beliefs towards mathematics

Mode of delivery:

Face-to-face teaching

Learning outcomes:

After passing this course the student

- can explain and evaluate the key goals, contents, teaching methods and assessment of primary mathematics and apply this knowledge to his/her teaching
- is able to apply his/her knowledge of mathematics education when making a medium term plan
- can apply the knowledge about differentiation and integration in his/her teaching
- can critically evaluate different learning aids and their applicability for teaching

Contents:

The course includes the following:

- Teaching percentage
- Teaching algebra
- Teaching statistics and graphs
- Teaching estimation
- Problem solving and its teaching
- The semantic classification of word problems
- Mathematical knowledge: conceptual and procedural knowledge
- Assessing mathematical knowledge, differentiation and integration

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

ECTS Credits:

5 + 4 ECTS cr

Language of instruction:

Finnish/English

Timing:

1st and 2nd year

Learning outcomes:

Upon completion of the course, the student knows how to

- evaluate the central goals, subject knowledge, teaching methods and assessing of elementary level natural sciences
- interpret environment from the scientific point of view
- evaluate his/her own growth as a teacher of natural sciences
- contribute positive attitudes towards natural sciences

Contents:

Ympäristöopin sisällöt muodostuvat fysiikan, kemian, biologian, maantiedon ja terveystiedon aihealueista.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

The course consists of two parts:

1. Human and environment 4 ECTS cr
2. Elementary Phenomena of Nature 5 ECTS cr

Target group:

Primary teacher education students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of the Multidisciplinary Studies in the Subjects and Cross-curricular Themes Taught in Basic Education.

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

4 ECTS cr

Language of instruction:

Finnish/English

Timing:

1st or 2nd year

Learning outcomes:

Natural sciences includes topics of physics, chemistry, biology, geography and health education. After passing this course the student

- is able to explain the aims and contents of primary school natural sciences on the basis of national curriculum.
- is able to compare different kind of teaching and learning viewpoints in natural sciences.
- is able to create a lesson plan and execute and evaluate teaching and learning.
- is able to evaluate his/her own growth and development as a teacher of natural sciences and is able to improve his/her teaching skills from the viewpoint of sustainable development.
- is able to interpret biological and geographical information related to natural, built and cultural environment.
- is able to distinguish his/her attitudes towards natural sciences and remodel new point of views towards natural sciences.

Contents:

The course includes the following:

- Natural sciences, especially biology, geography and health education in the primary education core curriculum
- Methods and evaluation of natural sciences
- Key concepts of biology and geography through following entities i.a.
 - life's biological bases, structure and functions of organisms, relevance of genetics
 - maps, planetary system, biomes, natural resources and human-environment interaction

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Exercises and lectures 40 h and self and group study about 60 h

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of the Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education.

Recommended or required reading:

- Cantell, H., Rikkinen, H. & Tani, S. 2007. *Maailma minussa - minä maailmassa. Maantieteen opettajan käsikirja.*

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 ECTS cr

Language of instruction:

Finnish/English

Timing:

(1st. or) 2nd year, whole semester (Autumn or Spring)

Learning outcomes:

Natural sciences includes topics of physics, chemistry, biology, geography and health education. Upon completion of the course, the student knows how to

- critically judge the applicability of teaching materials of science education
- evaluate the central goals, subject knowledge, teaching methods and assessing of elementary level physics and chemistry
- plan teaching and evaluation of natural sciences on elementary school grades 0-6 and taking different kind of learners, experimental working, safety issues and integration between different subjects into consideration
- explain simple everyday phenomena according to physics and chemistry
- show positive attitudes towards physics and chemistry education

Contents:

The course includes the following:

- natural sciences, specially physics and chemistry in Finnish national core curriculum for basic education
- teaching materials of natural science

- safety issues
- characteristics of natural scientific knowledge
- getting acquainted with teaching methods of natural science
- studying the phenomena, concepts and experimental working of the following topics from the viewpoint of didactics of physics and chemistry education: water, air, space, forms of energy, motion, light, sound, electricity, magnetism, intoxicants and structure of matter

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group teaching 40 h and self and group study 95h.

Target group:

Primary teacher education students

Prerequisites and co-requisites:

Natural sciences II Human and Environment

406044A: Music, 7 op

Voimassaolo: 01.08.2013 -

Opiskelumoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Paula Rönkkö

Opintokohteen kielet: Finnish

ECTS Credits:

7 ECTS cr

Language of instruction:

Finnish, the small group sessions for the ITE students are in English.

Timing:

1st and 2nd year

Learning outcomes:

The student is familiarised with music education as part of broader cultural and art education. The student plays actively music as a group member and acquires abilities in music education for subject mastery and pedagogical issues in basic education.

Contents:

The share of music in the studies in subjects and cross-curricular themes taught in basic education comprises the following courses:

- Basics of Music Education (1 credit)
- Pedagogy of Vocal Expression and Singing (1 credit)
- Listening Education (1 credit)
- Making Music Together (1 credit)
- Music Theory in Practice (1 credit) The student learns to use and understand music concepts and notations in connection with listening to and making music.
- Accompaniment Instrument (2 op) The course enables the student to perform accompaniment in various practical situations where music is played.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group teaching 70 h, self study 112 h

Target group:

Students in the primary teacher education programmes

Prerequisites and co-requisites:

None

Recommended optional programme components:

The studies are part of the "Multidisciplinary Studies in Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

- Musiikki kuuluu kaikille. 2009. Koulujen Musiikinopettajat ry. Jyväskylä. Kopijyvä Oy.

*Compulsory***406044A-01: Basics of Music Education, 1 op**

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

1 ECTS cr

Language of instruction:

Finnish and English

Timing:

1st year, autumn

Learning outcomes:

The student knows how to make plans for and implement creative musical activities, with a variety of working methods in music providing a basis for consistently accumulating musical experiences, knowledge of music and unforgettable highlights. The student knows how to encourage children to work together and be creative, taking into account the children's individual skills.

Contents:

- Through pedagogical applications, students are familiarised with the development of children's musical expression using a variety of working methods in music (singing, playing, music and movement, and musical invention in connection with them).
- Students are familiarised with the various pedagogical uses of instruments used in schools.
- Students are familiarised with the concepts and educational contents of music education.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group sessions 10 h, independent study 16 h

Target group:

Students in the primary teacher education programmes

Prerequisites and co-requisites:

406044A-04: Making Music Together, 1 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

1 ECTS cr

Language of instruction:

Finnish and English

Timing:

1st year spring term OR 2nd year autumn term

Learning outcomes:

The student knows how to play music with different combinations of instruments. The student knows how to design and implement pedagogical applications related to playing school instruments.

Contents:

- The students are familiarised with the basic techniques and pedagogical uses of instruments used in schools (Orff instruments, various percussions, self-made instruments, recorder, kantele and band instruments).
- After the course, the student knows how to take into account in her/his own teaching the division of work in a large music group, paying attention to pupils of different levels.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group sessions 10 h, independent study 16 h

Target group:

Students in the primary teacher education programmes

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of the study module Music 406044A (7 credits).

Recommended or required reading:

Materials by various publishers (e.g. WSOY, Otava, Warner-Chappell), music textbooks for basic education and relevant supplementary materials.

Assessment methods and criteria:

Active participation in face-to-face teaching and assignments given during the course.

406044A-05: Music Theory in Practice, 1 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

1 ECTS cr

Language of instruction:

Finnish/English

Timing:

1st year, autumn term

Learning outcomes:

The student learns to use and understand concepts and notations in music in the context of listening to and making music.

Contents:

- To offer an introduction to musical notation, chord markings, keys and intervals
- Practical competence is acquired through instrument playing (piano/guitar)

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Contact teaching 10 h and independent work 16 h

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of the study module Music 406044A (7 credits). It has a special connection to 406044A-06 Accompaniment Instrument.

Recommended or required reading:

Handouts

Assessment methods and criteria:

Participation in contact teaching and exam

406044A-06: Accompaniment Instrument, part I, 1 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Partial credit

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 ECTS cr

Language of instruction:

Finnish/English

Timing:

1st ja 2nd years

Learning outcomes:

The course gives the student a competence for accompaniment in various practical music making situations.

Contents:

- To familiarize students with different musical notation systems, real chord symbols, different styles of music and accompaniment as well as playing techniques
- Group lessons involve directing and accompanying communal singing and music playing

Mode of delivery:

Face-to-face teaching, pair teaching

Learning activities and teaching methods:

Contact teaching 20 h and independent work 32 h

Target group:

Primary teacher students

Prerequisites and co-requisites:

See "Recommended optional programme components"

Recommended optional programme components:

The course 406044A-05 Music Theory in Practice provides a theoretical basis for instrument studies and is taken partly at the same time.

Recommended or required reading:

- Materials related to different music styles and genres, such as textbooks, music books and instrument guides by different publishers.
- Styng, J. (1997) Vapaa säestys ja melodiasoitto kitaralla. Opi musiikkia 1.
- Styng, J. (1998) Pop/Jazz -improvisaatio kitaralla. Opi musiikkia 2.
- Tenni, J. & Varpama, J. (2004) Vapaa säestys ja improvisointi.

You can check the availability of the course books via [this link](#).

Assessment methods and criteria:

Participation in accompaniment practice and the music playing party

406045A: Art, 6 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Lukkari, Matti Ilmari

Opintokohteen kielet: Finnish

ECTS Credits:

6 ECTS cr

Language of instruction:

Finnish

Timing:

1st and 2nd years

Learning outcomes:

The objectives of this course are that the student knows how to

- design and implement art education in grades 0 - 6
- apply working, data acquisition, interpretation and assessment skills that are typical of visual arts
- knows how to evaluate curricula
- analyse didactic and pedagogical methods in art

Contents:

The teaching in this course is based on the contents areas in the Core Curriculum for Basic Education 2004.

During the Art course the student develops her/his visual, didactic and pedagogical thinking by applying the means of visual expression.

The course includes the following themes

1. Drawing
2. Painting
3. Ceramics
4. Construction
5. School graphics

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and small group sessions 60 h, independent work 102 h

Target group:

Primary teacher students at the Faculty of Education

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

Kuvien kirja. Kuvataideopetuksen käsikirja perusopetukseen: Ann-Chistina Forsman & Liisa Piironen
You can check the availability of the course books via [this link](#).

Assessment methods and criteria:

Active participation in contact teaching, completion of assignments

406046A: Physical Education, 6 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Niina Loukkola

Opintokohteen kielet: Finnish

ECTS Credits:

6 ECTS cr

Language of instruction:

Finnish. For ITE students, small group teaching is in English.

Timing:

1st and 2nd year

Learning outcomes:

The student

- is able to name the objectives and contents of physical education
- is able to describe different methods of teaching physical education
- knows how to plan, carry out and evaluate supervised sport
- is able to name key factors in physical education:
 - motor development and motor learning
 - cognitive learning
 - sosio-emotional learning

Contents:

- Lectures, track and field, gymnastics (1st year, autumn)
- Indoor ball games (1st year, spring)
- Cross-country skiing and artistic gymnastics (1st year, spring)
- Orienteering and outdoor ball games (2nd year, autumn)
- Skating, swimming (2nd year, autumn and spring)
- Application of physical education at school and written essey (2nd year, spring)
- Exam

Lectures: Orientation Towards Didactics and Pedagogy in Physical Education (6h)

- societal justifications of physical education
- physical education = education for physical exercise and education through physical exercise
- latest research in the field of physical exercise and physical education
- curriculum and the process of physical education
- approaches towards teaching of physical education

School Gym as a Physical Education Environment (32 h)

- ball games, including ball handling, basketball, volleyball and floorball
- gymnastics, including basic-, rhythmic- and artistic gymnastics
- exercises to develop basic motor skills, physical exercise and learning

Snow, Ice, and Water as Physical Education Environments (9h)

- cross-country skiing
- skating
- swimming ability must be demonstrated

Immediate Environment of the School During the Autumn and Spring (14 h)

- athletics
- outdoor ball games, including football and Finnish baseball
- orienteering, hiking

Independent Work in Physical Education (LOTTO) (102 h)

- advance assignments in physical education (6-10 h)
- summaries of actual lessons (10 h)
- planning of teaching practice for their own group (4 h)
- preparing for the exam (20 h)
- "sportfolio" (30 h)
- learning and practicing swimming (0-20 h)
- practicing of physical exercise skills (20-40 h)
- taking part in health-oriented exercising (4-10 h)
- getting acquainted with the sports culture and physical education events at school (8-20 h)

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures, practical exercises, exam, written essay

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

- Heikinaro-Johansson P. ym. (toim) 2007 Näkökulmia Liikuntapedagogiikkaan.
- Peruskoulun opetussuunnitelman perusteet, liikunnan osuus. (http://www.oph.fi/saadokset_ja_ohjeet/opetussuunnitelmien_ja_tutkintojen_perusteet/perusopetus)

Student must also choose either Religion or Ethics and Textile Work or Technical Work

406023A: Religion, 2 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 credits

Language of instruction:

Finnish. For ITE students, small group teaching is in English.

Timing:

1st or 2nd year

Learning outcomes:

The aim of the module is orientate students towards the development of teacher's intercultural professional competence in teaching the Religious Education so that they can teach, plan and evaluate the pedagogical elements needed in the teaching of the subject in context of the Finnish Elementary School by

- giving basic knowledge about the goals, contents and methods of RE in the Finnish elementary school
- developing students capacity to recognize and deepen his/her knowledge, understanding and perspective into the teachers professional competence in RE
- to develop the larger frame of reference and understanding in the field of RE
- to develop the capacity to evaluate his/her professional progress as a professional of RE at school

Contents:

- What is religious education at school (in the Finnish society and cultural context)
- What is religion and its meaning
- Religion as a phenomenon of the human growth and development
- The didactic in the religious education
- Multicultural and intercultural perspectives in religious education at school
- Intercultural competence and sensitivity as a part of the teacher's professional competence

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 8 h, workshops 12 h, students active independent studies 32 h

Target group:

Primary teacher students

Prerequisites and co-requisites:

No

Recommended optional programme components:

The course is part of "Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

OPS 2004: www.edu.fi,

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 ECTS cr

Language of instruction:

Finnish

Timing:

1st and 2nd year

Learning outcomes:

The student achieves a basic ability to teach handicrafts in primary school grades 0-6 and understands the main characteristics of craft science and craft, art and technology education as the scientific basis of textile work.

For more details, see each course.

Contents:

The studies in Handicrafts/Textile Work are divided into four courses:

1. Handicrafts at School - Past and Present
 - students are familiarised with the historical development of school handicrafts and handicrafts education in Finland
2. User-Centeredness as a Basis of Handicrafts: From Fibre to Product
 - students collaborate to design and manufacture various product prototypes using the methods of handicrafts
 - theoretical contents, the practical process and the student's own learning are documented and analysed in a portfolio
3. User-Centeredness as a Basis of Handicrafts: Techniques in Handicrafts
 - familiarisation with fibres, yarns and fabrics
 - students design and manufacture a product using the methods of clothing technology
 - theoretical contents, the practical process and the student's own learning is documented and analysed in writing
4. Pedagogy and Didactics of Textile Work
 - outline problem-based learning and teaching in handicrafts
 - carry out collaborative exercises

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

To be announced for each individual course.

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The studies are part of the "Multidisciplinary Studies in Subjects and Cross-Curricular Themes Taught in Basic Education".

Recommended or required reading:

To be detailed in course-specific descriptions.

Assessment methods and criteria:

The studies are implemented through small group sessions and independent/group work. Read more about [assessment criteria](#) at the University of Oulu webpage.

Student completes either School Experience II: Bachelor's Level 407032A (LO, TAIKA, TEKNO) or 407517A (ITE)

407032A: School Experience II: Bachelor's Level, 6 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Intermediate Studies

Laji: Practical training

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

6 cr

Language of instruction:

Finnish

Timing:

Second year, Bachelor level

Learning outcomes:

After completion, the student will be able to:

- analyse their own perspectives on teaching and pedagogy
- understand the significance of responsibility/accountability in pedagogy
- plan and realize teaching according to curricula and lesson plans
- appreciate the distinctive features of different subjects
- evaluate student performance and learning
- evaluate their own teaching
- be familiar with professional working habits and apply them

Contents:

The School Experience II: Bachelor's level course is part of the multidisciplinary studies in the subjects and cross-curricular themes taught in basic education.

The principle theme is teaching and learning. During the practice period the students are expected to enhance their working knowledge and understanding of the topics covered in the Pedagogical Seminar II: Knowing the Pupils and Interaction by practical work in a school and classroom environment. In addition, the practice will introduce new themes: kinds of learning, learning problems and student care.

The School Experience II: Bachelor's level course provides the students with the possibility to practice basic skills as well as work on their planning, realizing and evaluating skills. Students become familiar with planning at different levels - from single lesson plans to curricula and using flexible and situation-specific teaching approaches in their teaching to critical assessment.

Hence, it is possible for the students to familiarize themselves with important phenomena and core concepts in pedagogical activity, e.g. the pedagogical relationship, discretion, facing the child, and teacher responsibility. The student is also given the chance to take notice of and explore the link between educational research and teaching.

Place: Oulu Normal School (teaching school), grades 0-6

Duration: 6 calendar weeks

Mode of delivery:

Teaching Practice

Learning activities and teaching methods:

Description: The School Experience II: Bachelor's level constitutes 160 h half of which is at a specified time and place at the normal school, including both lesson-observation and supervisions.

The School Experience II: Bachelor's level will involve practicing teaching in either Maths or Finnish (A1), in accordance with class level and lesson resources. In addition, the student will teach at least one Arts and Crafts subject (Physical Education, Art, Music, Textiles, or Technical Crafts).

The student will also teach one of the following subjects: History, Religion/World Views, Physics and Chemistry, Biology, Geography, Environmental Sciences. There will be a total of 20 lessons, of which 8 are during group-work weeks and 12 during independent teaching weeks. Apart from lesson-holding, the students will also follow classes in a second Arts and Crafts subject for a total of 4 lessons.

The remaining 56 hours of pre-set school practice work consists of actively following the assigned homeroom's various lessons and the supervision sessions given by the teaching lecturer and the KASOPE (Educational Sciences and Training Dept) staff.

During the practice programme, the level of independence in teaching will grow gradually. In the beginning, the work will be undertaken in groups formed of fellow students and an appointed teacher, and only later will it be undertaken at a more independent level.

The six calendar weeks in this course are thus structured as follows :

- **The 1st week** is a monitoring week. At the end of the monitoring week, the students working in the same class implement as a group two lessons connected with the school's cross-curricular themes.
- **The 2nd week** is a pairs teaching week. The student plans and implements six lessons together with his or her pair.
- **Weeks 3 to 6** are individual teaching weeks. During these weeks the student plans and implements 12 lessons in mathematics or mother tongue, one subject representing arts, crafts and physical education, and one subject to be assigned on a case by case basis. All the subjects to be taught by a student are to be found in the list of trainees.

During the group work stage, emphasis will be placed on the basic skills involving lesson-planning, lesson-holding, and evaluation for different pupil-groups and situations. During the independent work stage, the aim is for the teacher student to come up with new ideas and try out different teaching methods according to the pupils' ways of learning and subject-specific teaching methods.

Supervision: During The School Experience II: Bachelor's level, supervision will be provided by the teaching lecturers at normal school as well as group supervision in subject didactics offered by the staff at the Faculty of Education.

Information seminar: The School Experience II: Bachelor's level will begin with an information seminar in the canteen of the normal primary school (0-6).

Assessment: The teaching lecturer of the class will assess student performance on the basis of assessment discussions and the student's pedagogical portfolio on a scale of pass/conditional/retake. A successful pass will be marked in the teaching practice card, which will also be signed by the arts or crafts subject didactics lecturer.

A failed course may have to be repeated or supplemented. A failed school experience course can be repeated twice. There are special instructions for supplementing or repeating a failed school experience course. If you register for the course but fail to attend, it will be counted as a fail.

Target group:

Primary teacher students (Not ITE- students)

Prerequisites and co-requisites:

Before commencing The School Experience II: Bachelor's level, the student must have completed at least 50 ECTs of their Bachelor level studies, including Mathematical Didactics Part I (3 cr), Literacy (4 cr) and the Orientation practice period (2 cr). The courses must be completed before the deadline for registration.

Recommended optional programme components:

Pedagogical Seminar II: Teacher as a Learning Guide

Recommended or required reading:

None

Assessment methods and criteria:

Practical training

Other information:

Registration: Registrations for the spring term The School Experience II: Bachelor's level course are accepted until the end of November in the preceding autumn term, and for the autumn course until the end of May in the preceding spring term.

The School Experience courses for students doing Bachelor studies are organized by group. Information on the timing of each group's course can be found on the web page for teaching practice in primary teacher education.

Registration for the school experience periods is done on weboodi. Students will be informed by e-mail when the registration form is open. You shall fill in the form with great care.

Registrations can be cancelled by a deadline to be announced at a later date. If a student does not cancel his or her registration by the deadline and fails to participate in the practice, s/he is awarded a fail for the practice period.

University student must show **extract from their criminal record**, if studies involve practice with minor children. **Please take care that you have shown extract from criminal record before the practice begins.**

407517A: School Experience II: Bachelor's Level, 6 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Intermediate Studies

Laji: Practical training

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

6 credits

Language of instruction:

Varies according to where the practice takes place

Timing:

Second year spring term

Learning outcomes:

The student

- is aware of the challenges and opportunities in working in multilingual/ intercultural/ international schools
- is capable of analysing and reporting on his own view of 'teachership' and intercultural education
- knows how to explain the significance of responsibility in pedagogical activity
- knows how to plan and implement teaching based on the local and/or international curricula
- knows how to evaluate the special characteristics of different subjects in primary education
- is able to assess pupils' learning
- is able to assess his/her own activity as a teacher
- knows how to utilize and contribute to synergy among colleagues in developing activities

Contents:

Duration: six calendar weeks.

School Experience II is related to Multidisciplinary Studies in the Subjects and Cross-curricular Themes Taught in Basic Education (A256402).

The overarching theme in this practice is teaching and learning with special reference multilingual/ intercultural/ international school settings. The purpose is that the student should deepen and enrich her /his personal understanding of the themes introduced in the courses "Curriculum, Planning and Evaluation of Teaching" and "Pedagogical Seminar II" through hands-on work in the classroom. Other themes that will emerge in this practice will include different learners, obstacles to learning and pupil welfare.

School Experience II offers the student an opportunity to practice the fundamental skills of planning, implementing and evaluation of lessons and longer periods of teaching. The emphasis is on critical evaluation of one's own teaching, and on how the teaching circumstances require flexible implementation of plans which are nevertheless based on the core framework.

From the experience, the student will use this opportunity to study the main phenomena and concepts of pedagogical action, such as pedagogical relationships, pedagogical tact, encountering the child and teacher responsibility, all in the context intercultural education.

The student also has an opportunity to observe and consider how educational research and its results are linked to the work of a teacher.

Mode of delivery:

The teaching practice is carried out in a school either in Finland or abroad.

Learning activities and teaching methods:

The whole practice represents 160 hours of work, half of which (80 hours) consists of school work, and observation of lessons.

This practice is timed to be immediately after the completion of all the modules of 'Multidisciplinary Studies in the Subjects and Cross-curricular Themes taught in Basic Education'; lessons should be planned and delivered that touch on all modules of the Multidisciplinary Studies.

The student should develop and experiment with various teaching methods appropriate for different learners that address the special characteristics of different subjects and cross-curricular themes. At all times there should be reflection on issues related to intercultural matters.

There must be a particular colleague or mentor from the permanent staff of the school who will work with the student.

School Experience II is supervised by the tutor of Seminar II, and additional advice can be sought from the university teachers responsible for the various Multidisciplinary Studies modules.

Target group:

Students in the Intercultural Teacher Education Programme

Prerequisites and co-requisites:

School Experience I, Seminar I

Recommended optional programme components:

School Experience I, Seminar I

Assessment methods and criteria:

The students shall write a report on the practice. This report will be added to the Pedagogical Portfolio begun in School Experience I and Seminar I.

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

Pass/ to be supplemented/ fail. The Seminar II tutor assesses the course based on assessment discussions with the student, and the report and reflections that have been added to the portfolio.

Person responsible:

Vesa-Matti Sarenius, Gordon Roberts

Working life cooperation:

Yes

Other information:

Registering: once arrangements with the host school have been finalised, and a letter/message of confirmation from the school has been shown to either of the persons responsible for the practice, the student registers for the practice. This must be done before the practice itself commences.

University student must show **extract from their criminal record**, if studies involve practice with minor children. **Please take care that you have shown extract from criminal record before the practice begins.**

A250541: Education, Advanced Studies (LO), 80 op

Voimassaolo: 01.08.2010 -

Opiskelumuoto: Advanced Studies

Laji: Study module

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

70 credits

Language of instruction:

Finnish

Timing:

4th and 5th years

Learning outcomes:

Advanced studies in education (80 credits) (Primary teacher education)

Upon completion of the advanced studies in education, the student knows how to evaluate critically the foundations of and approaches to educational research. S/he knows how to apply scientific data acquisition methods to the

research of educational and teaching processes. S/he has a theoretically justified view of his/her expertise and a readiness to function as a teacher and in other expert positions in the field of education.

Grading:

0 - 5

Person responsible:

Leena Syrjälä

Working life cooperation:

Yes. Includes 11 credits of school work, School Experience III: Master's Level, as well as 6 credits of other work placement, Thematic Practice

Advanced Studies include the following mandatory courses:

408030S: Educational Co-operation at School, 5 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 ECTS cr

Language of instruction:

Finnish

Timing:

4th year, autumn term

Learning outcomes:

Upon completion of the course, the student

- knows how to analyse social and cultural factors that determine education and teachers' work
- knows how to describe the forms and purposes of multiprofessional cooperation in the school world
- is familiar with methods of cooperation in teacher and school communities and knows how to apply them in her/his work
- is familiar with methods of cooperation between the home and school and knows how to apply them in her/his work
- knows how to analyse the operation of a work community and a beginning teacher's relationship to the surrounding work community.

Contents:

- school as a multiprofessional work community
- cooperation between school and home
- the identity of a newly qualified teacher
- collaborative working methods in a teacher's work

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 22 h/small group teaching 12 h/ self-study 100 h

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

The course is part of a module formed by "Pedagogical Seminar III", "Master Level School Experience" and "Thematic Practice".

Recommended or required reading:

To be agreed on at the beginning of the course

Assessment methods and criteria:

Active participation in contact teaching and completion of assignments

408017S: Pedagogical Seminar III: I as a Teacher, on My Own and Together, 3 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

Master's studies

Learning outcomes:

Upon completion of the course, the student knows how to

- justify his/her pedagogical activity using the research concepts of his/her own field
- analyse ethical issues in a teacher's work
- reflect on his/her own teacher identity from the viewpoints of a self-regulated learner and collaborative actor
- explain the development of teachership as a constantly developing self-regulated process, in which essential issues include continuous reflection, self-regulated action and collaboration

Contents:

- The teacher's pedagogical theory in use
- Materials connected with practice situations
- Pedagogical portfolio as a tool for reflection on the development of the student's own teachership: completion and evaluation of portfolio work
- Arts and crafts education students explore the significance "making" in arts teaching from the theoretical perspective of arts pedagogy.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small group teaching 24 h/ self-study 56 h

The Faculty's Leaf research infrastructure is utilised in teaching as a space for collaborative learning and interaction. Between the face-to-face meetings, the student works on his/her pedagogical portfolio also in a blog environment.

Target group:

Primary teacher students

Prerequisites and co-requisites:

Pedagogical Seminar I: Knowing the Pupils and Interaction 3 ECTS cr, Pedagogical Seminar II: Teacher as a Learning Guide 3 ECTS cr

Recommended optional programme components:

Pedagogical Seminar III is part of a module formed by "Educational Cooperation in Schools" (5 credits) and "Master Level School Experience" (11 credits). The pedagogical seminars I-III form a continuum in which the essential viewpoint is the student's comprehensive professional growth into a critical, reflective and inquiring teacher.

Recommended or required reading:

To be agreed on at the beginning of the course

Assessment methods and criteria:

408020S: School Experience III: Master's Level, 11 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Advanced Studies

Laji: Practical training

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

11 cr

Language of instruction:

Finnish/English

Timing:

The Teacher Training School arranges opportunities to carry out School Experience II on four occasions every year. The student usually takes the course in his or her fourth or fifth year of study. No provision is made for groups of students for School Experience III, and every student shall reserve a time slot for it in his/her personal study plan.

Students who cannot teach in Finnish carry out the SE III practice at the Oulu International School. The course timing is the same as at the Teacher Training School.

Learning outcomes:

The student

- knows how to evaluate and report on her/his conception of teachership and education
- knows how to evaluate the special didactic characteristics of different subjects and cross-curricular themes and how to apply this knowledge in practice
- knows how to plan and carry out teaching based on the curriculum
- knows how to apply what s/he has learnt to assessment of learning
- knows how to evaluate the different forms of cooperation between home and school
- knows how to evaluate his/her own activities as an educator
- knows how to construct learning materials, use them in her/his teaching and evaluate their functionality

Contents:

School Experience III is a part of Master's level pedagogical studies.

The driving theme behind School Experience III is *Myself as a teacher and educator*. The practice is linked to the Seminar III course.

SE III focuses on taking comprehensive responsibility for work in the classroom. Basically, the student shall take care of all the tasks that class teachers are supposed to attend to.

SE III offers the student a supervised opportunity to plan teaching periods based on the curriculum and cross-curricular themes and to get acquainted in practice with the special didactic characteristics of different subjects.

During School Experience III the student examines her/his 'teachership' from the viewpoint of social and community influence and from the viewpoint of the ethics of education and teacher morality. The student also participates in the cooperation between school and home.

Based on her/his own experience, the student will examine together with other students and her/his supervisors essential phenomena and concepts of pedagogical activity, such as *pedagogical relationship*, *pedagogical tact*, *encountering the child* and *teacher responsibility*, adding depth to her/his earlier conceptions. An opportunity is opened up to the student to observe and reflect upon how educational research and its results are linked to the teacher's work and to carry out educational research related to a teacher's work. The reflections are added to the Pedagogical Portfolio

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Place: Oulu Teacher Training School, or Oulu International School grades 0–6.

Duration: Six to seven calendar weeks.

Description of the activities: School Experience III has a scope of 215 hours, 100–110 hours of which consists of school work tied to time and place, classroom observation and supervision sessions. The work tied to time and place includes:

Giving lessons: The student shall give 50 lessons during the course. The lessons shall be implemented as follows.

Selected Subjects: 20 lessons will be given in the first four weeks of the SE III practice. The lessons are related to selected subjects, i.e. mathematics and mother tongue (Finnish or English) and one minor or other subject taught at school, each one of which must be practised for a minimum of six hours during this period. Together with the class teacher and lecturers in subject didactics, the student shall prepare period plans for the lessons. If the student practices an advanced minor subject in the upper grades, the number of hours practised there shall be deducted from the number to be practised in the primary grades.

Weeks of Responsibility: The remaining 30 lessons in the SE III practice are given during the weeks of responsibility. The last two weeks of the course are called the weeks of responsibility because the student practising in a class takes full responsibility for the activities in the classroom. In addition to planning and giving the lessons, this includes break and lunch supervision, cooperation between home and school, morning assemblies and other events.

If there are more than one student in the same class, they plan the programme for the last two weeks together. In addition to other school work, they agree on the division of lessons allocating 30 lessons to each student. The lessons given can include those given individually by each student, simultaneous teaching or, for instance, teaching taking place in two spaces at the same time (such as special education). The students shall clearly show in their plan their individual role in the lessons they are planning and giving together. The students can also carry out their minor subject practice in special education during these weeks.

If a student is practising alone in a class, s/he shall plan and give the entire set of 30 lessons by her/himself.

Student welfare: The SE III practice includes an 8-hour set of studies in student welfare, comprising lectures and exercises.

Other school work: The course includes other work related to teaching, the school world or practical applications of education, such as project work or observing of teaching, totalling 20–30 hours. Project work can involve, among other things:

- collection of data, based on a research plan for the Master's or some other thesis
- research team activities in the didactics of a subject
- a special course related to school work, or tasks connected with one project forming part of the regular activities of the Teacher Training School, such as festivals, parents' evenings, exhibitions, Unesco themes, camp schools, art productions, cooperation projects with various educational institutions and other events.

When s/he is observing lessons, the student gets to know the class and its methods of working. This may also include observation tasks given by the teacher or lecturer in didactics.

Supervision. School Experience II includes supervision and guidance in subject didactics by the teachers of the Teacher Training School. The student shall thus seek didactic supervision from three lecturers in subject didactics. These three lecturers also observe a lesson given by the student.

Supervision comprises a total of 20-25 hours.

The student shall carry out the planning, implementation and evaluation of lessons and teaching periods in a peer team formed by the other students that may be working in the same class, the class teacher and didactics staff of the Department depending on the nature of the lessons.

Target group:

Master's students

Prerequisites and co-requisites:

Participation in School Experience III requires Bachelor's Degree. If the Bachelor's Degree does not include the multidisciplinary studies in the subjects and cross-curricular themes taught in basic education they must be passed separately. This requirement must be met three weeks before the School Experience III starts not yet at the registering.

If the student completes 60-credit minor studies in a subject taught in schools, s/he can carry out an advanced practice in the subject in the grades 7-9. The practice in the minor subject can also be carried out separately from the School Work in the Master Phase -course.

The right to practise in a minor subject in the grades 7–9 is achieved, if the prerequisites for School Work in the Master Phase are fulfilled and at least 40 credits of the 60-credit minor subject have been completed, in time of the registration.

If a student wants to do the advanced practice in a minor subject in grades 7-9, s/he shall report to the Faculty's practice coordinator immediately upon registration for the course.

In unclear situations the decision on the right to participate is made by the Faculty's practice coordinator. The practice in an advanced minor subject can also be carried out in grades 0–6.

Recommended optional programme components:

Orientation to Work at School, School Work in the Bachelor Phase, Pedagogical Seminar I, Pedagogical Seminar II, Pedagogical Seminar III

Recommended or required reading:

None

Assessment methods and criteria:

Practical training

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

The class teacher and the other supervisors assess the student's performance on the basis of the assessment discussions and pedagogical portfolio on a pass/fail scale. An entry on a pass is made in the practice card. The card is also signed by the three lecturers in the didactics of the various subjects, and the student signs her/his confirmation that s/he has received mentoring in subject didactics. There are separate instructions available on the construction and contents of the pedagogical portfolio.

A failed practice may need to be retaken or supplemented. A failed practice period can be retaken twice. There are specific instructions on supplementing or retaking a failed practice period. If you register for the course and then fail to participate without cancelling your registration, it is recorded as a fail.

Person responsible:

Vesa-Matti Sarenius, Auli Halme, Erkki Pekkala and Gordon Roberts, Markku Juopperi, Outi Takalo

Working life cooperation:

Yes.

Other information:

Registration:

- Registrations for School Work in the Master Phase to be arranged in the autumn shall be submitted by the end of May in the preceding spring term.
- Registrations for School Work in the Master Phase to be arranged in the spring shall be submitted by the end of November in the preceding autumn term.

Registrations for the teaching practice period are submitted via Weboodi. The registration form is available for a period of time that is announced to the students by e-mail and on the practice website. The registration form shall be filled in with great care.

If the student wants to practice in an advanced minor subject in the basic education grades 7–9 of the Teacher Training School, s/he shall fill in the appropriate form available on the practice website when s/he registers for the School Work in the Master Phase and deliver it to the Faculty's practice coordinator.

Students need to note that an opportunity to practice in the upper grades cannot always be arranged in some of the subjects. In such cases the student shall carry out all of his/her School Work in the Master Phase -teaching practice in the regular manner in the lower grades.

If you register for the course and then fail to participate without cancelling your registration, it is recorded as a fail.

Information meeting: School Work in the Master Phase is launched with an information meeting in the refectory for grades 0–6 at the Teacher Training School.

408021S: Theme-based Practice, 6 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Advanced Studies

Laji: Practical training

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

6 credits

Language of instruction:

Varies

Timing:

Master's level

Learning outcomes:

After the practice period the student

- will be familiar with the multiple layers of the field of education
- knows how to analyse different perspectives of educational work and knows how to apply them in various contexts and tasks in educational work.
- knows how to apply a research-based approach to experimental or developmental work or has gained other special competence
- apply his/her skills in planning project work.

Contents:

Thematic practice provides an opportunity for experimental, developmental or research activity with different actors and partners in the education field. The aim of the practice period is to support the student in gaining expertise in an area of particular interest to the student.

In Thematic Practice the student can familiarize him/herself on a broader level with the teaching profession and/or focus in depth on a more specific area of interest. It is also possible to complete this practice period as a more long-term period of research or development work related to pedagogical studies and/or research studies undertaken before the practice period begins.

Familiarising with the education field on a broader level provides the students with the opportunity to expand their experience of working as a teacher in general or vocational education, or in an educational organization or project outside grades 0-6 of basic education. In this form of practical experience, the student plans, carries out and evaluates teaching and gets to know the position of the practice place as part of the educational system.

Focusing on a particular field in education provides the students with a chance to deepen in their chosen pedagogical environments their working knowledge of the various themes that arise in their previous and current studies. Thematic practice involves either educational, guidance, or teaching work.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

As the name implies, the practice period bears a theme of the student's own choice based on her/his previous pedagogical studies and/or research studies. The theme could, for example, be based on a focal area of her/his education, a minor subject or some other studies, such as the Master's thesis. During this practice period, the students can gather data for their Master's theses.

One of the main features of Thematic Practice is the student's individual responsibility.

The student is responsible for

- planning and implementing the thematic practice
- constructing a thematic practice plan before the practice period, and having it accepted by the study advisors or practice coordinator
- finding a practice place and a host supervisor there
- planning and implementing practice evaluation

Implementation of this particular practice period will be negotiated with the relevant supervisors.

Place: One practice place is sufficient. The practice period can also be divided into 2 or 3 different time periods, which can also take place at different work places.

The practice place must be a public or third sector organisation, whose line of business is education, training or teaching. The internship can take place in Finland or abroad. It can also take place at a teacher training school.

Different types of practice periods and their durations: The practice period can be completed in either one place or be divided into 2-3 parts (at least 2 credits each).

A) Work practice

This type of practice is completed by engaging in work in the educational field. The experience will expand the teacher trainee's views on the various different jobs within the teaching profession, OR the activities of the many parties to the multiprofessional cooperation in which primary teachers are involved, OR work in an educational organisation.

Multi-dimensional teacherhood. kindergarten teacher, special needs teacher, special class teacher, subject teacher, vocational teacher, general studies teacher, liberal adult education teacher, guidance councillor.

Multiprofessional cooperation. e.g. social services in child protection, school curator, school healthcare, speech therapy, school psychologist.

Cultural field. e.g. involvement in an art project or organisational duties in a cultural organisation, art therapy, special education classes and schools.

Other pedagogical sector. work with children, youth, participation in pedagogical organisations.

Qualification for these sectors is attained in other training programmes, so familiarisation with these activities can only be done in the form of work experience under the direction of a person actually working in the particular field.

30-40 hours of work corresponds to 2 credits, depending on how demanding the work is. In addition, the student shall reserve time for planning and evaluation (including the writing of a report).

B) Research and development activity. E.g. projects; experimental educational projects; development of expertise for the Master's thesis.

30-40 hours of work corresponds to 2 credits, depending on how demanding the work is. In addition, the student shall reserve time for planning and evaluation (including the writing of a report).

C) School experience practice. E.g. special education schools, special care units, student groups in small rural schools, supervising groups of integrated students, field schools, teacher training school, kindergartens, student groups within schools, after school activities, student club activities, arts classes (also arts programme classes), educational/training in organisations.

In this kind of school experience, the students give 12-15 lessons and observe actively, possibly working as teachers' aides for another 12-15 lessons, amounting to a total of 2 credits. In addition, the students shall reserve time for planning and writing a report on their work experience period.

This form of work experience will also require a supervisor at the school in question, who monitors the student's lessons and gives feedback on them.

The work practice period can also be constructed in such a way that it is spread over a longer period of time, e.g. the whole year. The number of credits given is determined according to the hours in A) and B).

Planning and reporting

The practice period begins with the design of a working plan and ends with the completion of a work experience report.

Working Plan:

This plan is a pedagogically justified free-form description of the intended work practice period, which shall be approved by the supervisor assigned for the practice period. It should include the following:

- the theme of the practice period
- place and timing
- the studies or issues in the student's education to which the practice and its theme are connected
- activities included in the practice
- personal objectives for the practice period
- supervision arrangements
- how the work practice period will be evaluated

Work Experience Report:

The report is based on the theme of the work experience period. The form of the report will be agreed on upon the approval of the working plan by the supervisor at the university. The length of the report depends on the progress of the work experience period in general. Thematic Practice is an advanced course and the report must therefore also contain theoretical aspects based on scientific literature, and also explain how the latter relates to the theme and activities in the work experience period.

If the work practice is in the form of school experience, the student should arrange for a host advisor, and for a supervisor in other forms of work experience.

The work experience report is verified and credits are awarded by the practice coordinator, or in the case of projects, the project leader working at the Faculty of Education.

For a special reason, Thematic Practice can also be completed in more than one part.

Target group:

Primary teacher students (except ITE)

Prerequisites and co-requisites:

A student may begin this practice period after successful completion of the following: Orientation to School Work (2 credits), Bachelor Level School Experience (6 credits), a minimum of 20 credits of basic studies in the major subject in the teacher education programme, and a minimum of 20 credits of intermediate studies in the major subject in the teacher education programme.

Recommended optional programme components:

Orientation to School Work (2 credits), Bachelor Level School Experience (6 credits),

The practice belongs to the major subject studies in the Master's Degree and is a part of the Pedagogical Studies for Teachers.

Recommended or required reading:

To be agreed on individually.

Assessment methods and criteria:

Work Practice

Working life cooperation:

Yes.

Other information:

Register for the practice period after your working plan has been approved.

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 cr

Language of instruction:

Finnish

Timing:

4th or 5th year

Learning outcomes:

Upon completion of the study module, the student

- knows the main acts and decrees governing educational administration as well as their contents
- knows how to apply educational administration legislation into practice at their own level of education
- knows how to use the Finlex software.

Contents:

The course aims to give the student a mastery of the basic legislation governing school administration and teaching as well as work as a civil servant in public administration. In addition, the student will gain an understanding of her/his rights in the teaching profession and knows how to seek for more information if necessary. During the course, the student is introduced to the administration system and work as a civil servant within the framework of the duties and functional possibilities set by current legislation and standards.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and exam 16 h, small-group work and an assignment 4 h.

Target group:

Primary teacher students, early childhood education students

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

To be announced at the start of the course

Assessment methods and criteria:

Face-to-face teaching and individual tasks if any

Read more about [assessment criteria](#) at the University of Oulu webpage.

408013S: Master's Thesis, 35 - 40 op

Voimassaolo: 01.08.2005 - 31.07.2016

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

35 cr

Language of instruction:

Finnish or English

Timing:

Master's studies

Learning outcomes:

The student

- is able to write either alone or in pairs an educational thesis that proves familiarity with the thematic area of the thesis and shows an ability for scientific thinking,
- masters the research methods chosen by her/him and shows a readiness for scientific communication
- knows how to assess theses made by others, take part in scientific discussion and defend her/his own thesis

Contents:

The course includes the following:

- presentation of research plan and report
- acquisition and reading of research literature
- familiarisation with research methods
- writing a thesis on an educational topic
- active participation in seminar sessions

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Seminar sessions 40 h, presentation of research plan and report, acting as a peer opponent, writing the thesis self-directedly

Target group:

Students in the Faculty of Education

Prerequisites and co-requisites:

Bachelor's Thesis

Recommended optional programme components:

Advanced course in quantitative/qualitative research

The course is part of the Advanced Studies in the major subject.

Recommended or required reading:

Research and methodological literature: refereed publications

Assessment methods and criteria:

Participation in seminar sessions, writing a thesis and its presentation in a seminar session, acting as peer opponent and writing of the maturity test (the thesis abstract)

Student must also choose either Advanced Course in Qualitative Research 5 ECTS cr or in Quantitative Research 5 ECTS cr

413030S: Advanced course in quantitative research, 5 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opettajat: Peltonen, Jouni Aslak

Opintokohteen kielet: Finnish

Leikkaavuudet:

408517S-01 Quantitative Methodology 5.0 op

ECTS Credits:

5 ECTS cr

Language of instruction:

Finnish

Timing:

4th year

Learning outcomes:

Having completed the course, the student

- knows how to analyse and interpret typical educational and psychological research data
- knows how to assess the credibility, reliability and ethicality of her/his own research and research done by others

Contents:

Course is divided into two parts:

413030S-01 Lectures, 2 credits

413030S-02 Exercises, 3 credits

- statistical testing
- classic multivariate methods
- modelling by means of liner structural equations
- publishing the results of statistical methods of analysis in a research report

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 20 h, small group sessions 16 h

Target group:

Students pursuing Advanced Studies in the Faculty of Education

Prerequisites and co-requisites:

Basic course in quantitative research 5 cr.

Recommended optional programme components:

Master's Thesis

Proficiency level:

-

Status:

According to the old curriculum 2012 - 2013: This course unit is compulsory for all students undertaking a Master's degree in Subject Teacher Education, Primary Teacher Education, Technology Oriented Teacher Education, Creative Arts Oriented Teacher Education and Music Education. If a student of Education has included a Speech Communication course unit in his/her Bachelor's Degree, he/she must include this course unit in his/her Master's Degree.

According to the new curriculum 2013 - 2014: This course is optional.

Required proficiency level:

-

ECTS Credits:

2 ECTS credits

Language of instruction:

Finnish

Timing:

4th or 5th year of studies

Learning outcomes:

Upon completion of the course unit the student should have a more in-depth understanding of scientific communication, especially scientific writing. He/she should be able to produce scientific text fitting for an MA thesis. The student should also be able to analyse and interpret the special field-specific conventions of scientific writing.

Contents:

The distinctive features of an MA thesis as a form of scientific communication. Writing as a process. Analysis of texts written for various scientific purposes. Popularised scientific discourse.

Mode of delivery:

contact teaching

Learning activities and teaching methods:

Contact lessons and independent group work 16 h. Independent study ca. 34 h.

Target group:

Students of master's degree of the Faculty of Education

Prerequisites and co-requisites:

-

Recommended optional programme components:

-

Recommended or required reading:

the material in the Optima learning environment

410018Y: Professional growth, 3 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: General Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 cr

Language of instruction:

Finnish

Timing:

Masters level (autumn)

Learning outcomes:

The students

- identify their competence from the perspective of working life.
- construct their professional identity together with other students

- strengthen their self-knowledge
- learn about the teaching profession and obtain the tools that are necessary for coping in daily work life
- familiarize themselves with other professions in the field of education and with working life in general
- know how to find employment and are encouraged to enter working life.

Contents:

- self-knowledge and ways to support it
- identifying one's own skills
- opportunities in education and working life (thesis, minor subjects, jobs, etc.)
- the teaching profession
- transitional elements in working life (skills, employment, coping)
- building a professional identity

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Small-group work, seminars, visiting lecturers.

Target group:

Master-level primary teacher students, music education students and early childhood education students

Prerequisites and co-requisites:

None

Recommended or required reading:

To be announced at the start of the course

Assessment methods and criteria:

Active participation, completion of assignments

405021Y: Knowledge Work as a Pedagogical Challenge, 3 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: General Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 cr

Language of instruction:

Finnish

Timing:

4th year

Learning outcomes:

Students familiarize themselves with the pedagogical and technological challenges imposed by the knowledge society, and learn to understand the research-based pedagogical principles underlying the pedagogical use of ICT. Students enhance their capacity to function as teachers/educators in a technology-based environment in an information society based on knowledge work.

Contents:

- familiarization with the phenomena of information society and knowledge work
- the challenges of learning and teaching in the information society
- digital natives, social media, mobile learning, u-learning and other phenomena of the information society and their influence on teaching arrangements and learning as a whole
- social discussion on the theme and its connections with, for instance, curriculum work

Mode of delivery:

Three face-to-face meetings and work in a wiki environment

Learning activities and teaching methods:

Lectures 4h, web-based work 10h, seminar 6h, independent study.

- Lecture
- Group discussion after the lecture
- Independent work and writing a summary article based on literature
- Group discussion on the results of independent work
- Knowledge construction by the group in a wiki environment
- Presentation of wiki articles.

Target group:

Primary teacher students (apart from ITE-students), music education students, early childhood education students

Prerequisites and co-requisites:

None

Recommended optional programme components:

Part of the Master-level language, communication and orientation studies, mutually optional with "Professional growth" and "Philosophy of science".

Content connected with the following courses:

- 410014Y Information and communication technology as a pedagogical tool
- 410017Y Multimedia as a learning project
- 410068P Didactics
- 407027A Guidance of learning, planning and assessment of teaching

Recommended or required reading:

- Literature (international peer-reviewed articles, Finnish peer-reviewed articles, book chapters, reports, presentations) divided into themes a) teaching, b) information society, c) knowledge work, available on the course wiki
- Lecture materials on the wiki and on SlideShare
- Abstract of the students' articles and their essays are stored on the wiki.

Assessment methods and criteria:

- Active participation in face-to-face meetings
- Summarising an article/articles as independent work
- Composition of a wiki article based on article summaries in a group

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 cr

Language of instruction:

Finnish

Timing:

Master's level

Learning outcomes:

After completion, the student

- will be knowledgeable of the core factions and traditions in the philosophy of science and scientific research
- understands the special nature of scientific work and the role of education as one of the sciences.
- is able to justify, philosophically, the different alternatives in scientific research.

Contents:

The following topics are covered:

- overview of the history of philosophy
- introduction to philosophical thought
- different classes in philosophical science

Mode of delivery:

Face-to-face or web-based teaching

Learning activities and teaching methods:

Note: Student in VAKA and MUKO complete this course online. See http://cc.oulu.fi/~epikkara/opetus/tf/jtf_1.htm for further information.

KAKO: book exam.

In English see <http://cc.oulu.fi/~epikkara/opetus/philsci.htm>

Target group:

All students in the faculty

Prerequisites and co-requisites:

None

Recommended optional programme components:

Part of the Master's level language, communication and orientation studies, mutually optional with "Professional growth" and "Knowledge work as a pedagogical challenge" (for primary teacher, music teacher and early childhood education students)

Recommended or required reading:

Kiikeri, M. (2004) Tiede tutkimuskohteena. Filosofinen johdatus tieteen tutkimukseen.

Education students: The course is compulsory if it was not already completed in the Bachelor's programme. If it was completed, another optional communications/orientation studies course that was not taken at the Bachelor's level must be taken in its place.

407051A: Finnish as a Second Language, Optional, 5 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

In different phases of the studies

Learning outcomes:

- To get acquainted with the goals and arrangements of teaching people with an immigrant background and with their assessment in curricula and in practice from the viewpoint of the work of a primary teacher
- To be familiarised with the most essential theoretical ways to understand multilingualism, second-language learning and teaching and everyday life in a multicultural school
- To learn in her/his own work as a primary teacher to take into account the linguistic needs of a multilingual learner in general teaching, in the teaching of Finnish as a second language and in instruction preparing for basic education
- To familiarise her/himself with essential literature and materials on Finnish as a second language

Contents:

The course deals with teaching Finnish as a second language in practice and theory especially from the viewpoint of a primary teacher's work: how to teach Finnish and support the learner linguistically in practice in mainstream education, when teaching Finnish as a second language and in instruction preparing for basic education.

The course topics include learning and teaching Finnish, components of language skills and their development, spoken and written language, Finnish as a second language in curricula, language skills assessment and the European frame of reference, learning to read and write and text skills among Finnish learners, the need for special support among multilingual learners, learning materials in Finnish as a second language, development of teaching Finnish as a second language, and the utilisation of new technologies in teaching Finnish as a second language.

Mode of delivery:

26 h face-to-face teaching and independent work

Learning activities and teaching methods:

- Getting to know Finnish as a second language by means of lecture materials and literature
- Active participation in small group sessions: asking, commenting, questioning and sharing of personal experiences and thoughts
- Participation in exercises
- Reading circle
- Visiting speakers & conversation
- Familiarisation with a case learning assignment, based on which an introductory talk to the rest of the group

Target group:

Primary Teacher Education Students

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

410050Y: Educational research and information seeking systems I, 1 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: General Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

1 ECTS credit

Language of instruction:

Finnish/English

Timing:

During periods I, II, III & IV

Learning outcomes:

Upon completion of the course, the student will be able to search scientific information. The student will be able to use most important databases of the discipline and evaluate different information sources.

Contents:

- Transforming information need to search terms
- Most important datebases of the discipline
- Search process: search techniques & analysing search results
- Using reference management software

Mode of delivery:

Face-to-face teaching or web-based teaching

Learning activities and teaching methods:

Several methods: lectures or web-based teaching, self study

Target group:

Major students of the faculty of education

Prerequisites and co-requisites:

None

Recommended optional programme components:

Recommended to take the course at the beginning of proseminar

Recommended or required reading:

None

408512S: Perspectives on Globalisation, 5 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: English

ECTS Credits:

5 credits

Language of instruction:

English

Timing:

EDGlo: 1st year, autumn and spring

DD: 2nd year, autumn and spring (in Oulu)

Learning outcomes:

After completion of the course, students are able to:

- Analyse globalisation as a political, economic, social, cultural, ecological and technological phenomenon
- Compare and evaluate the different attitudes towards globalisation
- Contribute to the debate about its nature, the tensions and the conflicting values
- Identify the effects of globalisation on educational practices, policies and changes within countries and between countries
- Differentiate the positive and negative effects of globalisation
- Examine the directing of global change through global governance
- Investigate globalisation in the context of values
- Analyse and produce their own theories and constructs of globalisation
- Relate globalisation to education
- Make decisions and enhance their professional development using their knowledge on global issues

Contents:

- Globalisation as a political, economic, social, cultural, ecological and technological phenomenon
- Education as a commodity
- Knowledge production, equity, neo-colonialism
- Effects of globalisation on education and learning
- Globalisation and the Nation State
- Global governance
- Localisation and globalisation

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

50h lectures/seminars, 85 h independent study

Target group:

1st year students in the Master's Degree Programme in Education and Globalisation
DD students

Prerequisites and co-requisites:

No

Recommended optional programme components:

1st and 2nd year EdGlo courses: 408513S, 408514S, 408527S and 408516S

Recommended or required reading:

Held, D. & McGrew, A. (Eds.). (2003). *Global transformations reader: An introduction to the globalization debate*. (2nd ed). Cambridge: Polity Press.

Held, D., McGrew, A., Goldblatt, D. & Perraton, J. (Eds.). (2007). *Globalization theory*. Cambridge: Polity Press.

Other study material will be confirmed at the beginning of the course.

The availability of the literature can be checked from [this link](#).

Assessment methods and criteria:

Active participation in lectures/seminars, weekly assignments for seminars, essay assignments

408513S: Ethics and education, 5 op**Voimassaolo:** 01.08.2006 -**Opiskelumuoto:** Advanced Studies**Laji:** Course**Vastuuyksikkö:** Faculty of Education**Arvostelu:** 1 - 5, pass, fail**Opintokohteen kielet:** English**ECTS Credits:**

5 credits

Language of instruction:

English

Timing:

EdGlo: 1st year, spring semester

DD: 2nd year, spring (in Oulu)

Learning outcomes:

After completion of the course, students are able to:

- Discuss the multi-dimensional relationships between education, ethics and internationalization
- Analyse current challenges and future alternatives in relation to addressing the needs of marginalised communities in education and educational research
- Synthesise debates related to global ethics and human rights addressing the issue of universalization of values
- Map four different traditions of educational ethics with reference to North-South-East-West dialogue
- Analyse educational policies, practices and changes from ethical perspectives

Contents:

- North-South-East-West dialogue: four traditions of ethics
- Education as an ethical and value-laden activity
- Professional ethics in education
- Human rights, global ethics and education
- WSF and new social movements
- Contradictory trends in European and global educational transformations
- Key debates in equality, justice, interdependence and sustainability
- Development discourses (including the right to development)
- Global and development education

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

30h lectures, 10h seminars, 95h independent study

Target group:1st year students in the Master's Degree Programme in Education and Globalisation
DD students**Prerequisites and co-requisites:**

Completion of 1st year, autumn semester courses

DD students: No

408514S: Nordic education in the European and global context, 5 op

Voimassaolo: 01.08.2006 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: English

ECTS Credits:

5 credits

Language of instruction:

English

Timing:

EdGlo: 1st year, autumn and spring

DD: 2nd year, autumn and spring (in Oulu)

Learning outcomes:

After completion of the course, students are able to:

- Assess education in the Nordic countries
- Identify geographical and demographic circumstances in the circumpolar areas
- Analyse and compare education in different settings
- Identify trends in Nordic societies affecting education in the European and global context
- Provide models of educational structures based on best practices and lessons learnt

Contents:

- Educational systems in the Nordic countries
- Current educational issues in relation to Europe and the global context
- Challenges to education (historical, geographical, globalisation)
- Visits to educational institutions

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

30 h lectures, 20 h seminars and visits, 85 h independent study

Target group:

- 1st year students in the Master's Degree Programme in Education and Globalisation
- DD students

Prerequisites and co-requisites:

No

Recommended optional programme components:

1st and 2nd year EdGlo courses: 408512S, 408513S, 408527S and 408516S

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: English

ECTS Credits:

5 credits

Language of instruction:

English

Timing:

1st year, spring

Learning outcomes:

After completion of the course, students are able to

- Distinguish between different ideological frameworks for development and education, development education, and discuss Finnish and international policies and debates in the field of development and education
- Discuss possibilities for sustainable education sector development co-operation Identify the current trends of the UNESCO Education for All (EFA) initiative
- Discuss the challenges of implementation of EFA, and the Millennium Development Goals (MDGs)
- Critically examine approaches to partnerships and education that promote problematic ethnocentric, depoliticised, ahistorical and paternalistic patterns Summarise emerging educational theories that promote an ethical relationship to individuals and communities who have historically been marginalised and use educational theory to create informed pedagogical practices
- Identify challenges and opportunities for partnerships in working in countries labelled 'less economically developed'

Contents:

- Development approaches and education
- Sustainable development as political, social, cultural, ecological, ethical, and economical concept
- The United Nations Millennium Development Goals
- UNESCO Education for All initiative
- Ethnocentrism, depoliticisation, ahistoricism and paternalism in development approaches and education
- Current debates and new approaches in 'development education'
- Practicing education for sustainable development and development education
- Finnish and International policies of development and development education
- Working in countries labelled 'less economically developed'

Mode of delivery:

Blended learning and face-to-face teaching

Learning activities and teaching methods:

Lectures and seminars 20 h, 14 h seminars, reading and assignment preparation 81 h

Target group:

- Students enrolled in the Master's Degree Programme in Education and Globalisation pursuing minor studies "Education in Transition"
- Other students pursuing minor studies "Education in Transition"

Prerequisites and co-requisites:

No

Recommended optional programme components:

Other courses in Education in Transition:

407530A Defining Education, Educational Sciences and Their Tasks, 5 credits

407531A Technology-Enhanced Learning, 5 credits

407054A: Current Issues in Special Education, 5 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5ECTS cr

Language of instruction:

Finnish

Timing:

From September 2014 to may 2015

Learning outcomes:

By means of the "Online Lectures in Special Education" and other materials, the student is familiarised with current issues in special education, with the background to topical themes and a few recent publications on the topic. S/he understands and knows how to use essential concepts related to the relevant range of topics. The student forms an overall picture of the topic and knows how to view themes of special education that are close to the topic in addition to those given to her/him. S/he updates her/his ideas of current issues in special education.

Contents:

The student composes an essay in his lecture diary of at least 3 pages on each lecture (7-8 lectures of two hours each) including an introduction, main elements of the topic of the lecture, themes related to the topic and practical connections. S/he also writes a reflective discussion to consider future perspectives.

Mode of delivery:

Online lectures, lecture journal, exam

Learning activities and teaching methods:

listening to all the Online Lectures in Special Education (7-8 lectures, two hours each) and getting to know the lecture materials

- writing a lecture diary on each lecture with reflections, 3 pages each, totalling some 20 pages

- book (some 200-300 pages exam) to be agreed on later with the professor

- feedback in a group or individually, 1-2 hours

The lecture diary is returned at the end of the lecture series. The book exam is taken in the spring term of 2015.

Target group:

Students in the faculty of education

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

To be agreed on at the beginning of the course

Assessment methods and criteria:

Active participation in contact teaching, completion of assignments and exam

Grading:

pass/fail

Person responsible:

Marjatta Takala ja Timo Mauno

Working life cooperation:

Other information:

Details on the lectures: <http://www.luovi.fi/luovi/asiantuntijapalvelut/erkaa-verkossa-luennot/>. It is possible that the lectures will be via ACP in the future, upon which it will be possible to follow them at the university beginning in the autumn of 2014.

Please note! You need to register for each lecture separately through the Online Lectures in Special Education website!

408014S: Pedagogical Challenges in Research: Literature Course, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

4 cr

Language of instruction:

Finnish

Timing:

4th and 5th years, spring/summer

Learning outcomes:

After completing this course, students are able to justify their educational viewpoints with recent and diverse scientific knowledge.

- The student acquaints her/himself with research carried out in the various research groups of the faculty and with modern educational literature.
- The student is capable of deepening the topics of her/his Bachelor's or Master's thesis
- The student enhances her/his pedagogical skills to respond to the challenges offered by current themes.

Contents:

The literature packages familiarize the student with various pedagogical challenges in the field of education. The student chooses one of the following literature packages, among others:

- a) Ethical issues in education and multiculturalism
- b) Prevention of and intervention in school violence
- c) Environmental ethics and aesthetics
- d) Child's voice and place
- e) The teacher's work in terms of being in relationships

f) Learning and ways to support it

Mode of delivery:

Independent and face-to-face teaching

Learning activities and teaching methods:

The literature course is carried through in the spring term, but the course ends at the start of the next autumn term. It is thus possible to study in the summer to complete the course. The student chooses one of the available literature packages. Each package has a responsible leader of its own representing one of the faculty's research groups. The course consists of independent work and includes 2-3 meetings in a small group. The course starts with an information meeting, after which registrations for the course are allowed: the students register for their chosen package on Weboodi.

The literature course comprises

- an information meeting 2 h
- small group sessions 6 h
- independent work 73 h

Target group:

Primary teacher students and students in the degree programme in education (final exam)

Prerequisites and co-requisites:

None

Recommended optional programme components:

You may utilise the course literature in your Master's thesis.

Recommended or required reading:

To be handed out/agreed on at the start of the course.

Assessment methods and criteria:

Participation in small group sessions and familiarisation with the chosen literature. Either a literature exam, or essays written on the literature.

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

0 - 5

Person responsible:

Minna Uitto

Working life cooperation:

None

Other information:

The literature course offers one way to complete the Optional Course (advanced studies, primary teacher education) or Final Exam (advanced studies, education) or it can be included among other optional studies. Students in the Education Programme should note that the course is worth 4 credits. Arrangements should be made with the person in charge for a more comprehensive package.

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay411007A Educational systems I (OPEN UNI) 4.0 op

ECTS Credits:

4 ECTS cr

Language of instruction:

Finnish

Timing:

2nd year

Learning outcomes:

Having completed the course, the student

- is able to consider the Finnish educational system from a comparative perspective and to use its conceptual tools to do so
- perceives the developmental lines and changes in Finnish educational system
- knows how to evaluate the economic and political factors affecting national educational systems

Contents:

The course introduces the students to the Finnish educational system as part of the European educational system and EU education policy. Special attention is given to issues of educational systems assessment, the international dimensions of education, and economic and political factors with an impact on national educational systems.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Contact teaching 20 h.

Target group:

Students in the educational sciences programme studying the Intermediate Studies (35-45 ECTS) in Education.

Prerequisites and co-requisites:

Basic studies

Recommended optional programme components:

The course is part of the Intermediate Studies (35-45 credits) in Education.

Recommended or required reading:

Rinne, R., Tähtinen, J., Jauhiainen, A. & Broberg, M. (toim.) (2011). Koulutuspolitiikan käytännöt kansallisessa ja ylikansallisessa kehyksessä.

408015S: Curriculum and School Development, 5 op

Voimassaolo: 01.08.2005 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 cr

Language of instruction:

Finnish

Timing:

4th year, spring term

Learning outcomes:

The course provides students with the necessary capacities for curricular design at the school and municipal levels, and training for curricular evaluation at the local level. The course familiarises the students with curriculum theory - especially with the significance of the curriculum in the development of a school's activities - and discusses the connections of the curriculum with society and education policy. In addition, educational evaluation is looked at in terms of both theory and practice at local, national and international levels. As a whole, the course gives student teachers the capacity to function as committed, critical and responsible actors in the development of the curricular and its evaluation.

After the course the student is able to

- identifies the theoretical premises underlying different curricula
- identify and interpret the values and goals underlying curricula as well as their connections with society and education policy.
- identifies and is able to determine the different levels of educational evaluation (local, national, international; theory and practice)
- design a curriculum and manage/develop its basis of evaluation

Contents:

- concept of curriculum
- different curricular theories and approaches
- foundations, levels and methods of evaluation
- evaluation and education policy

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

- lectures 20 h and small group sessions 12 h, as part of which a project plan is made in practice related to the field of curriculum or evaluation, or a project in progress in which you are involved is described and evaluated
- the planning or evaluation task can be integrated with teaching practice

Target group:

Primary teacher students

Prerequisites and co-requisites:

None

Recommended optional programme components:

Can be integrated with a teaching practice period.

Recommended or required reading:

Vitikka, E. 2009. Opetussuunnitelman mallin jäsenyys: sisältö ja pedagogiikka kokonaisuuden rakentajina. Helsinki: Suomen kasvatustieteellinen seura.

Articles from W. Pinar (Ed.) 2003. International Handbook of Curriculum Research. Mahwah, New Jersey: Lawrence Erlbaum Associates. E.g. Autto, T. 7 ECTS

Language of instruction:

English/Finnish

Timing:

Spring term, 1st year studies in the LET Master's Degree Programme

Learning outcomes:

After completion of this course, the student knows how to

- describe the theoretical background and main stages of designing technology-enhanced learning (TEL)
- design a TEL course
- justify and evaluate instructional and technological design

Contents:

- Technology-Enhanced Learning (TEL) as a concept
- Designing TEL: instructional and technological design
- Structuring individual and collaborative learning activities
- Implementing and evaluating TEL

Mode of delivery:

Face-to-face and online

Learning activities and teaching methods:

Face-to-face / online 32h

Collaborative and individual learning 150h

Students become familiar with the key concepts, theories and approaches of technology-enhanced learning (TEL) and implement this knowledge by designing their own course in small groups. Students reflect and report on the different stages of the design process in a digital portfolio.

Target group:

1st year students on the LET Master's Programme
 Educational Technology minor students
 Other students

Prerequisites and co-requisites:

No

Recommended optional programme components:

No

Recommended or required reading:

Contemporary readings in the field of technology-enhanced learning, to be announced at the beginning of the course

Assessment methods and criteria:

Active participation in face-to-face teaching and collaborative and independent work. Successful completion of all the learning assignments and exercises.

Read more about [assessment criteria](#) at the University of Oulu webpage.

Grading:

0-5

Person responsible:

Essi Vuopala

Working life cooperation:

No

Other information:

The students in the Master's Degree Programme in Education and Globalization (EdGlo) join the same face-to-face sessions in their own 5-credit course "Designing Technology-Enhanced Learning"

418019P: Introduction to Learning and Educational Technology, 5 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 ECTS

Language of instruction:

English/Finnish

Timing:

autumn 2013

Learning outcomes:

After completion of this course, the student knows how to

- describe the basic concepts of learning sciences and educational technology
- name some of the major research topics in the field of learning sciences and technology enhanced learning
- identify and discuss contemporary issues in educational technology in global and local educational contexts
- use contemporary educational software and hardware, and also evaluate those pedagogical usability
- create a digital portfolio in the form of a personal journal in a weblog

Contents:

- Basic concepts of instruction, learning and technology enhanced learning

- Introduction to the field of learning sciences and technology enhanced learning: objectives, research subjects and theoretical framework
- Reflection on one's own learning and expertise
- Pedagogical use of contemporary educational software and hardware

Mode of delivery:

Face-to-face and online

Learning activities and teaching methods:

Face-to Face 50h

Collaborative and individual learning 80 h

In this course the students familiarise themselves with the theoretical background, core concepts, and contemporary tools of educational technology. The course introduces the students to the field of learning sciences and examines the role of learning and educational technology in a globalised world. One central goal of this course is to learn to use and evaluate technologies in a pedagogically meaningful way. In this course students start to reflect on their own learning and expertise in a digital portfolio.

Target group:

1st year students on the LET Master's Programme

Educational Technology minor students

Other students (as a part of their optional studies)

Prerequisites and co-requisites:

no

Recommended or required reading:

- How People Learn: Brain, Mind, Experience, and School: Expanded Edition. (2000). Washington, DC: The National Academies Press.
- and/or other contemporary readings in the field of learning and educational technology, to be announced at the beginning of the course.

Assessment methods and criteria:

Active participation in face-to-face teaching and collaborative and independent work. Successful completion of all the learning assignments and exercises.

418020P: Learning Theory and Pedagogical use of ICT, 7 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Basic Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

7 ECTS

Language of instruction:

English/Finnish

Timing:

Autumn term, 1st year studies in the LET Master's Programme

Learning outcomes:

After completion of this course, the student knows how to

- identify the theoretical principles underlying technology-enhanced learning
- define the concepts of self-regulated learning, collaborative learning and learning of expertise

- describe the use of technology to support such learning
- justify pedagogical use of technology by using current theoretical knowledge of learning

Contents:

- Self-Regulated Learning
- Collaborative Learning and Computer-Supported Collaborative Learning (CSCL)
- Learning of Expertise
- Supporting learning with technology

Mode of delivery:

face-to-face and online

Learning activities and teaching methods:

Face-to-face 30 h

Collaborative and individual learning 157 h

The course includes three theoretical viewpoints on learning: self-regulated learning, collaborative learning, and learning of expertise. The goal of the course is to understand these theoretical principles of learning and comprehend the possibilities to support such learning with technology. Students reflect on their theoretical knowledge and their own learning process in their digital portfolio

Target group:

1st year students on the LET Master's Programme

Educational Technology minor students

Other students (as a part of their optional studies)

Prerequisites and co-requisites:

no

Recommended optional programme components:

no

Recommended or required reading:

- How People Learn: Brain, Mind, Experience, and School: Expanded Edition. (2000). Washington, DC: The National Academies Press.
- Boekaerts, M. Pintrich, P.R. & M. Zeidner, M. (Eds.), (2000). Handbook of Self-Regulation. San Diego, CA: Academic Press.
- Spada E. & Reiman, P. (Eds) (1996). Learning in Humans and Machine: Towards an interdisciplinary learning science. Oxford: Elsevier.
- Bereiter, C. & Scardamalia, M. (1993). Surpassing ourselves: An Inquiry Into the Nature and Implications of Expertise. Open Court Publishing Company.
- and/or other contemporary readings in the field of learning and educational technology, to be announced at the beginning of the course.

Assessment methods and criteria:

Active participation and collaborative and independent work. Successful completion of all the learning assignments and exercises.

407056A: How to Design and Use Complete Learning Environments, 5 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

5 ECTS cr

Language of instruction:

Finnish

Timing:4th period**Learning outcomes:**

After the course the students will be able to:

- practice the introduced methods as a part of developing their pedagogical competence
- describe the future trends of learning
- describe the concept of future learning scenarios
- evaluate different elements of the learning environments
- identify different benefits in technology and in other pedagogical practices
- evaluate how the future learning scenarios support the design process of learning environments
- sense the different trends possibly affecting future learning environments
- use a learning scenario in its most beneficial form
- familiarize in the pedagogical practices; learning activities, and learning stories of current teachers
- choose appropriate technological tools to support learning activities and explain those choices
- plan and carry out a learning stories to enhance their teaching practices

Contents:

- Examples on how the future learning environments, teaching tools and roles of teachers might change in the future
- Group work based on beneficial learning environments, and learning and teaching practises
- Knowledge on holistic learning environments fruitful for learning
- Student-oriented learning, Design learning
- The *Eduvista* –approach and the *Edukata* –approach
- Putting the learned learning activities and learning stories into practice
- Presentations, peer evaluations, and feedback on the group work assignments
- Familiarizing in the innovative, nearby projects on learning environments

Mode of delivery:

Lectures: 44h Seminars: 6h Independent work: 85h

Learning activities and teaching methods:

Interactive learning, excursions, group work, individual assignment

Target group:

All students

Prerequisites and co-requisites:

None

Recommended optional programme components:

704055A

Recommended or required reading:www.oppimaisema.fi Other material will be introduced during the first lecture**Assessment methods and criteria:**

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

1 ECTS cr

Language of instruction:

Finnish

Timing:

2nd period

Learning outcomes:

After the course the students will be able to:

- evaluate their own learning environments
- define the basic elements of their usual, day-to-day learning environments
- identify new trends related to the building of learning environments
- participate in conversations on the technology of the *Ubiikki*
- state their opinion on the requirements of beneficial learning environments and technology to support natural learning processes
- identify aspects of modern learning environments supporting teaching and learning

Contents:

- Examples on possible alternatives for building schools
- Examples on research and development of learning environments
- Examples on current trends of technology
- A look into the learning environment –related projects in Finland

Mode of delivery:

Lectures: 10h Independent work: 17h

Learning activities and teaching methods:

Active lecturing

405039A: Basics of Entrepreneurship Education, 2 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 cr

Language of instruction:

Finnish

Timing:

2nd year

Learning outcomes:

After the course, the student identifies the concepts of corporate and individual entrepreneurship. The student is familiarised with the application of these concepts to basic education as part of his/her own and pupils' work in the form of assignments to be carried out. The assignments help the students to get an idea of what an enterprising life attitude is all about, what the requirements of future working life are like and how they are used in teaching. After the course, the student knows how to design examples of applications and know how to analyze curricula as outlined in "Yrittäjyyskasvatuksen suuntaviivat 2015". The goal is to interpret and solve together issues involving entrepreneurship education as part of the pedagogical activity of the school. After the course, the thematic entity "Inclusive citizenship and entrepreneurship" is identified as a positive working method.

Contents:

- theory of entrepreneurship education
- social status of entrepreneurship education
- policy decisions in education policy as part of the educational system
- creativity, innovation, production of ideas, taking responsibility, decision-making
- familiarisation with and analysis of curricula for basic education
- practical arrangements for a corporate visit and legislation
- characteristics of an enterpriser
- significance of motivation and volition in teaching through entrepreneurship education as part of the teaching activities
- personal economics management
- the effect of the hidden curriculum in a learning environment

Thematic entities:

- Inclusive citizenship and entrepreneurship
- Man and technology

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures 14 h, exercises 6 h, independent work 34 h

Target group:

Technology Oriented Primary Teacher Education

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

Mankinen, P. (toim.). 2000. Näkökulmia yrittäjyys- ja teknologiakasvatuksen kehittämiseen Suomessa, osat 2 ja 3.

Santakallio, E. (toim.) 1997. Näkökulmia yrittäjyys- ja teknologiakasvatuksen kehittämiseen Suomessa, osa 1.

Ristimäki, K. 2004. Yrittäjyyskasvatus.

Kyrö, P. (toim.) 2007. Yrittäjyyskasvatuksen monia suuntia.

You can check for the availability of course books [here](#).

Assessment methods and criteria:

Active participation in lectures and exercises and completion of study assignments.

2 ECTS cr

Language of instruction:

Finnish

Timing:

2nd period

Learning outcomes:

Having completed the course, the student knows how to:

- test materials appropriate for a product
- produce a functional and practical safety product
- specify the safety product and its purpose of use
- analyse her/his own learning
- report on her/his learning in writing

Contents:

The students do the following in the course:

- examine various materials and their meanings in terms of safety
- deal with the patterning of different forms, applying them to techniques in textile work

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

small group teaching

Target group:

Primary Teacher Education Students

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

2 ECTS cr

Language of instruction:

Finnish

Timing:

4th period

Learning outcomes:

Having completed the course, the student knows how to:

- choose alternative implementation methods in textile work depending on their uses, applying them for early and preprimary learners
- combine appropriate working methods with various exercises
- practice the development of motor functions by getting to know various materials-based methods and tools

Contents:

The students do the following in the course:

- design exercises suitable for early skill levels
- produce sample items on a small scale
- get to know the first tools of small learners and materials that help them to learn

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

small group teaching

404013A: School Graphics, 3 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

1st or 2nd year of studies

Learning outcomes:

The student

- gets to know the expressive means of graphics
- understands graphics as a means of artistic expression
- knows how to apply the methods of graphics in her/his own visual expression
- knows how to apply various methods of school graphics in school and early childhood education

Contents:

During the course the student deepens her/his knowledge and skills in the various methods, materials and expressive possibilities of school graphics. Special attention is given to the development of a personal relationship to art and visual expression.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and small group sessions 30 h, independent work 51 h

Target group:

Students in the faculty of education

Prerequisites and co-requisites:

None

Recommended optional programme components:

Multidisciplinary Studies in the Subjects and Cross-curricular Themes Taught in Basic Education

Recommended or required reading:

To be agreed on at the beginning of the course

Assessment methods and criteria:

Active participation in contact teaching, completion of assignments

Grading:

1-5

404014A: Media Education, 3 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

2nd year of studies

Learning outcomes:

The student

- knows how to discuss changes taking place in the media teaching and learning environments
- knows how to discuss the basic nature and purpose of different media
- knows how to analyse media contents and means of communication
- knows how to function as a media expert in primary school grades 0-6 and in early childhood education
- knows how to apply media education in the primary school grades 0-6 and in early childhood education

Contents:

Media education is viewed during the course on a diverse basis from the viewpoints of the school, learning and practical applications.

The course enables the student to encounter, produce, understand and assess media. The studies focus on practical applications for the primary school grades 0-6 and early childhood education. The work is based on the following themes, among others: comics, films, animation, advertisements.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and small group sessions 30 h, independent work 51 h

Target group:

Students in the faculty of education

Prerequisites and co-requisites:

None

Recommended optional programme components:

Multidisciplinary Studies in the Subjects and Cross-Curricular Themes Taught in Basic Education

Recommended or required reading:

To be agreed on at the beginning of the course

404019A: Alternative Photography, 3 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

3rd or 2nd year of studies

Learning outcomes:

The student

- understands the expressive means of photography.
- is familiarised with photography as part of art education.
- knows how to apply photography in her/his teaching in primary school grades 0-6 and in early childhood education.

Contents:

During the course, photography is considered from the viewpoint of school applications.

The course provides abilities to encounter, produce, understand and evaluate photos.

The studies focus on practical applications in the primary school grades 0-6 and in early childhood education.

The work is based on the following themes, among others:

- photography without a camera
- elements of studio photography and image manipulation
- photographic narrativeness and empowerment

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and small group sessions 30 h, independent work 51 h

Target group:

Students in the faculty of education

Prerequisites and co-requisites:

None

Recommended optional programme components:

407053A: SensoArt Laboratory: Comprehensive, Well-Rounded and Insightful Teacher, 3 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 ECTS cr

Language of instruction:

Finnish

Timing:

Summer studies 2015

Learning outcomes:

The student perceives the meaning of comprehensiveness (body, mind, movement) for a teacher. The student understands the unity of constructing movement and knowledge as an option for work with different kinds of groups. The students improve their skills of interaction, bodily knowledge and creative self-expression from their own starting-points. They become conscious of the meaning of different learning environments in the learning process.

Contents:

The course discusses the meaning of movement in the changing work of teachers from the viewpoint of the individual, the community and the learning environment. In which different ways can a teacher make use of his or her body at work? What is the meaning of bodily experience in being a teacher? What is bodily

knowledge all about? How can a teacher's well-being be supported in interaction? How can teachers develop their teaching to be better suited for their own community from the viewpoint of equality and tolerance?

Mode of delivery:

Multiform studying

Learning activities and teaching methods:

An experiential learning environment to sensitise the student to the unity of movement and theory. The course includes the construction of a personal portfolio and an advance assignment.

Target group:

Students in the primary teacher, music education and early childhood education programmes, students pursuing minor subject studies in special education

Prerequisites and co-requisites:

None

Recommended optional programme components:

None

Recommended or required reading:

To be agreed on at the beginning of the course

Assessment methods and criteria:

Active participation in the course and successful completion of course assignments.

Grading:

Pass/fail

Person responsible:

Johanna Aromaa (johanna.k.aromaa@gmail.com)

Pauliina Lappi (pauliina.ruhanen@gmail.com)

Working life cooperation:

None

Other information:

Research data will be collected during the course (more information at the start of the course or in advance from the teachers). The teachers in this course are dance artist, educator Pauliina Lappi, and Johanna Aromaa, doctoral student of cultural anthropology.

Tutkintorakenteisiin kuulumattomien opintokokonaisuuksien ja -jaksojen kuvaukset

392356S: National culture and globalisation, 5 op

Voimassaolo: 01.08.2005 - 31.07.2013

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Kajaani Department of Teacher Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

Ei opintojaksokuvauksia.

407050A: Open Textbook Project, mathematics, 3 op

Voimassaolo: 01.08.2013 -

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Faculty of Education

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish

ECTS Credits:

3 cr

Language of instruction:

Finnish

Timing:

Autumn Semester

Learning outcomes:

After successfully passing this course the student:

- can analyse the mathematics part of the National Core Curriculum of Primary Education of the chosen yeargroups
- can analyse mathematics textbooks and other related material
- can make based on the analyses above a part of a mathematics textbook and/or other material
- can describe the use of an electronic textbook and solve problems, which might occur when using an electronic textbook

Contents:

Based on the number of students in the course a mathematics textbook or many textbooks are made. The year group for the textbook is told later. The book is published using the open CC-BY-license.

Mode of delivery:

Contact teaching, project teaching face-to-face, web-based teaching and self study

Learning activities and teaching methods:

Contact teaching: 2h

Project teaching face-to-face, web-based teaching and self study: 72h

Target group:

Primary teacher education students

Prerequisites and co-requisites:

Mathematics Education, parts I and II

Recommended optional programme components:

Mathematics Education, parts I and II

Recommended or required reading:

To be told in the beginning of the course

Assessment methods and criteria:

Making an open mathematics textbook, group work, continuous assessment, peer assessment
