Opasraportti

LTK - Health Management Science (2011 - 2012)

THE SCIENCE OF HEALTH MANAGEMENT

DEGREE PROGRAMME IN HEALTH MANAGEMENT SCIENCE  2011-2012

DEPARTMENT OF HEALTH SCIENCES

By virtue of the new statute on health science degrees issued 794/2004 the Bachelor’s (180 credits) and Master’s degrees (120 credits) in health science are available.

The goals for the lower academic degree (Bachelor of Health Sciences):

Learning outcomes:

When student has finished Bachelor of Health Administration sciences students are able to:

1. Apply the concepts and terms of health administration science in the context of changing operating environments and organisations.
2. Follow and interpret development in health care and health administration science.
3. Apply scientific working methods.
4. Use and apply in their own working tasks the information acquired in a creative and critical manner.
5. Communicate independently in their native language, the other official language spoken in Finland and at least one foreign language, to international audience as well.

The goals for the Master’s degree (Master of Health Science):

Learning outcomes:

After having attained the degree of Master of Health Science in addition to Bachelor of Health Science, students able to:

1. Acquire and evaluate critically current information and use it independently and innovatively from the viewpoint in health administration science.
2. Conduct scientific research with scientific research methods and engage in postgraduate studies in health administration science.
3. Participate in research, expert tasks, management and development in health care.
4. Communicate orally and in writing in a clear and analytical manner.
5. Evaluate the activities and knowledge of people acting in the operating environment and to increase their knowledge and readiness

Students who have attained a degree of health administration science are qualified advanced tasks in management, planning, development, research and education in the field of social and health care on both national and international level. Students can choose minor subjects to suit their career orientation.

Credit policy (credit transfer, recognition of prior learning)

Recognition of prior learning is marked in the Study Guide as follows:

Course marked with *: Credit is given based on a previous degree in health care or a University of Applied Sciences degree.

Course marked with **: Credit is given only based on a previous University of Applied Sciences degree.

Students do not have to make a separate application for credit towards courses marked with one or two asterisks if they have made a copy of their degree certificate available to the Faculty. The only exception are language and communications studies: the decision on providing credit is made by Language Centre (Kielikeskus). Student must apply for credit using the HYPERLINK "http://webcgi.oulu.fi/kielikeskus/index.php?a=o&s=aiemminopitunHyvaksiluku.html&v=tietoa" credit application form of Kielikeskus.

Concerning studies/courses completed at other universities, including open universities of other universities: students must make a separate application to get credit for prior studies. A decision on whether the student is given credit towards a course of study is made by the professor teaching the main subject or the teacher in charge of the course of study.

General studies for which credit is given:

A previous degree in health care (from a nursing college or a University of Applied Sciences) counts as 40 ECTS towards general orientation studies. Credit is given for general orientation studies towards a higher University of Applied Sciences health care degree, with the exception of course 350001Y, Study planning and tutoring (3 ECTS).

Application for recognition of language and communication studies (8 ECTS) must be addressed to Kielikeskus.

Optional studies and studies in minor subjects for which credit is given:

A University of Applied Sciences degree in health care counts as 35 ECTS towards the Degree of Bachelor of Health Sciences.

A University of Applied Sciences degree in health care counts as 25 ECTS towards the Degree of Master of Health Sciences (optional studies and studies in minor subjects).

STRUCTURE OF STUDIES

The Degree of Bachelor of Health Sciences (180 ECTS) consists of the following:

General studies 25 ECTS

Basic and advanced studies in major subject 65 ECTS

Studies in minor subject, optional studies 90 ECTS

The Degree of Master of Health Sciences (120 ECTS) consists of the following:

Advanced studies in major subject 63 ECTS
Studies in Health Administration Science as main subject towards Bachelor’s degree in Health Sciences

### STUDIES BY TERM

**General studies by term**

**1st term**
- 350001Y Study planning and tutoring 1.5
- 350003Y Philosophical basis of scientific research 5.0
- 350006Y Health science informatics 2.0
- 9000074 Introduction to written communication 2.0

**2nd term**
- 350001Y Study planning and tutoring 1.5
- 350007Y Statistical analysis 5.0
- 902008Y Foreign language 3.0

**3rd term**
- 901007Y Other official language spoken in Finland (Swedish) 3.0

**Health Administration Science studies by term**

**1st term**
- 351008P Research course 2.0 **
- 351137P Health Administration Science I 7.0
Tutkintorakenteisiin kuulumattomat opintokokonaisuudet ja -jaksot

351138P Legal aspects of health care 4.0
350005Y Statistics 3.0

2nd term
351138P Legal aspects of health care 4.0
352107A Research methods I 6.0
350005Y Statistics 3.0
351140P Evaluation and development of the health care work community 6.0

3rd term
352114A Bachelor’s thesis and written maturity examination 10.0
352215A Health administration science II 8.0

4th term
352203S Research methods II 10.0
352214A Administrative law, public employment and labour law 8.0
(+ Minor subject students 352146A Training in administration)
352147A Multiprofessional management in health care 8.0

5th term
352204S Thesis seminar 4.0
353407S Advanced studies in health administration science 5.0

6th term
352204S Thesis seminar 4.0
353206S Master’s thesis 15.0
353208S Training in administration 5.0

7th term
353208S Training in administration 5.0
353206S Master’s thesis 15.0
353205S Written maturity examination

Compulsory
Opintojaksojen kuvaukset

Tutkintorakenteisiin kuulumattomien opintokokonaisuuksien ja -jaksojen kuvaukset

352147A: A multiprofessional management in health care, 8 op

Opiskelumuoto: Intermediate Studies

Laji: Course

Vastuuyksikkö: Institute of Health Sciences

Arvostelu: 1 - 5, pass, fail

Opettajat: Leena Turkki

Opintokohteen oppimateriaali:

Kauhanen, Juhani, , 2006

Virtanen Petri, Stenvall Jari, , 2010

Opintokohteen kielet: Finnish

Leikkaavuudet:

ay352147A A multiprofessional management in health care (OPEN UNI) 8.0 op

ECTS Credits:

8 ECTS

Language of instruction:

Finnish

Timing:

2nd year spring term

Learning outcomes:

Learning outcomes: Students are able to interpret challenging situations related to multiprofessional management in health care.

Contents:

Theories and basic concepts in health management.

Learning activities and teaching methods:

Lectures 10 hours. ArgueGraph 10 hours, independent study.

Recommended or required reading:

Topical research.
Assessment methods and criteria:
Participation in seminars, essay written as team work and individual essay.

Grading:
1-5/ Failed. Total grade: essay written as team work and individual essay both make up 50% of the grade.

Person responsible:
Professor, lecturer and doctoral candidate in Health administration science.

352214A: Administrative law and public employment and labour law, 8 op

Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Mirva Lohiniva-Kerkelä
Opintokohteen oppimateriaali:
Kulla, Heikki , , 2003
Bruun, Niklas , , 1995
Opintokohteen kielet: Finnish
Leikkaavuudet:
ay352214A Administrative law and public employment and labour law (OPEN UNI) 8.0 op

ECTS Credits:
8 ECTS
Language of instruction:
Finnish
Timing:
2nd year spring term

Learning outcomes:
Learning outcomes: Upon completion the course the student:
- is able to analyze legal relations between government officials and citizen
- is able to define administrative decision making process and legal settings
- is able to define assumes basic concepts of administrative law needed in processing administrative matters.
- is able to define official- and labour law, gets general idea of conflicts regulation and settlement concerning service and collective bargaining contract.
- is able to define aware of solutions to conflicts concerning employment and contract of employment.

Contents:
Part I: Basic concepts of administrative law, basics of good governance, processing administrative matters and decision making, legal effects of administrative actions, qualifications and invalidity and enforcement and forces, citizens legal protection in administration.

Part II: Basics of official- and labour law, conflicts regulation and settlement concerning service and collective bargaining contract. Solutions to conflicts concerning employment and contract of employment.

Learning activities and teaching methods:
Lectures 30 hours.

Recommended or required reading:
Part I:
Säädösket niihin myöhemmin tehtyine muutoksineen:
Perustuslaki, 2 luku, hallintolaki (6.6.2003/434)
Laki viranomaisten toiminnan julkisuudesta (21.5.1999/621)
Kuntalaki (17.3.1995/365)
Part II:
Regulations according to separate list.

Assessment methods and criteria:
Exam
Grading:
1-5/failed.
352114A: Bachelor Thesis and Written Maturity Test, 6 op

Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish
Leikkaavuudet:
   ay352114A  Bachelor Thesis  6.0 op

ECTS Credits:
10 ECTS
Language of instruction:
Finnish
Timing:
2nd year autumn term
Learning outcomes:
Learning outcomes: After completing the course the student is able to write Bachelor’s thesis based on research literature or empirical data according to principles of scientific research. The student is able to present the research.

Contents:
Planning, carrying on and evaluating the research process. Writing a Bachelor's thesis based on literature and/or empirical data.

Learning activities and teaching methods:
Individual studying, group guidance and seminar.

Recommended optional programme components:
350008P Research methods (basic) and 352107A Research methods I.

Recommended or required reading:
Literature related to the topic of the Bachelor's thesis.

Assessment methods and criteria:
Writing the Bachelor's thesis and presenting it. Written maturity test.

Grading:
Pass / Fail

Person responsible:
Doctoral candidate and lecturer

900007Y: Basics of Written Communication, 2 op

Voimassaolo: 01.08.1995 -
Opiskelumuoto: Language and Communication Studies

351145P: Evaluation and development of the health care work unit, 6 op
Opiskelumuoto: Basic Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Marjo Suhonen
Opintokohteen oppimateriaali:
Paasivaara Leena, Suhonen Marjo, Virtanen Petri, , 2011
Paasivaara Leena, Suhonen Marjo, Nikkilä Juhani, , 2008
Virtanen, Petri , , 2007
Aro, Antti, , 2007
Ruuska, Kai , , 2006
Opintokohteen kielet: Finnish
Leikkaavuudet:
ay351145P Evaluation and development of the health care work unit (OPEN UNI) 6.0 op

ECTS Credits:
6 ECTS
Language of instruction:
Finnish
Timing:
1st year spring term
Learning outcomes:
Learning outcomes: Students are able to apply concepts health care work community and its development in a project plan. Students are able to name key challenges of health care projects. Students are able to design a project in a group and draft a project plan.
Contents:
he focal concepts in development of health care work community and the main themes of research. Project planning, implementation and evaluation.
Learning activities and teaching methods:
Lectures (schema learning and mindmapping) 6 hours, practical exercises 6 hours, projectwork and independent studying.
Assessment methods and criteria:
Lectures, participating seminars, project plan work.
Grading:
1-5/ Failed. Self-evaluation passed/failed, peer-review 50% and teacher evaluation 50%.
Person responsible:
Lecturer of Health management science
351137P: Health administration science I, 7 op

Opiskelumuoto: Basic Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Leena Turkki
Opintokohteen kielet: Finnish
Leikkaavuudet:
ay351137P Health administration science I (OPEN UNI) 7.0 op

ECTS Credits:
7 ECTS
Language of instruction:
Finnish
Timing:
1st year autumn term
Learning outcomes:
Learning outcomes: Student are able to analyze the research field of health administration sciences, its development and history so that they are able to compile an essay. Students are able to construct a national and international health policy frame in thematic discussion.
Contents:
Health administration science as an area of research area and a subject of study. Focal concepts and perspectives of health administration science. History of health care and its administration.
Learning activities and teaching methods:
Lectures 8 hours and thematic discussion groups 10 h.
Recommended or required reading:
Topical literature and material related to social and health policy.
Assessment methods and criteria:
Essay and thematic group discussion led by students.
Grading:
1-5/Failed. Essay 50% and thematic discussion 50%.
Person responsible:
Professor of Health administration science

352215A: Health administration science II, 8 op

Voimassaolo: 01.08.2005 -
Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Leena Turkki
Opintokohteen kielet: Finnish
Leikkaavuudet:
ay352215A Health administration science II (OPEN UNI) 8.0 op

ECTS Credits:
8 ECTS
Language of instruction:
Finnish
Timing:
2nd year autumn term
Learning outcomes:
Learning outcomes: Students are able to analyse the approaches, methods and theories used in health administration science research. Student are able to develop their health administration knowledge base in a Learning Cafe’ and by producing text.

Contents:
Topical questions of health administration science and essential research themes.

Learning activities and teaching methods:
Lectures 4h, Learning Cafe’ 6h, written work.

Recommended or required reading:
Topical research articles (international and national) and dissertations in health administration and other suitable academic dissertations.

Assessment methods and criteria:
Written work.

Grading:
1-5 / Failed.

Person responsible:
Professor and lecturer of Health administration science.

350006Y: Informatics of health sciences, 4 op

Opiskelumuoto: General Studies
Laji: Course
Vastuuyksikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Pentti Nieminen
Opintokohteen kielet: Finnish

ECTS Credits:
4 ECTS

Language of instruction:
Finnish

Timing:
First year autumn term

Learning outcomes:
Learning outcomes: By the end of the course the student is able to:
- use information and communications technology resources in the University of Oulu,
- use workstations available in the Medical Faculty,
- apply basic software necessary in her/his studies,
- search research articles using basic literature retrieval methods,
- use bibliographic databases available in the Medical Faculty

Contents:
Use of workstations, data security, information services, information retrieval from internet, software applied in nursing studies, library services, electronic journals, Medline, CINAHL, Medic and RefWorks software.

Learning activities and teaching methods:
Lectures 6 hours, group lessons in computer class-room 36 h and completion of practical projects.

Recommended or required reading:
List given during the course.

Assessment methods and criteria:
Written essay, participation in workgroups.

Grading:
Pass / failed

Compulsory

350006Y-01: Informatics of health sciences part 1, 2,5 op

Voimassaolo: 01.08.2011 -
Opiskelumuoto: General Studies
Laji: Partial credit
Vastuuyksikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
350006Y-02: Informatics of health sciences part 2, 1,5 op

Voimassaolo: 01.08.2011 -
Opiskeluomo: General Studies
Laji: Partial credit
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Pentti Nieminen
Opintokohteen kielet: Finnish

Ei opintojaksovaluksia.

351138P: Legal aspects of health care, 4 op

Opiskelumuoto: Basic Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Mirva Lohiniva-Kerkelä
Opintokohteen oppimateriaali:
Mikkola, , 2004
Lohiniva-Kerkelä, Mirva , , 2007
Opintokohteen kielet: Finnish
Leikkaavuudet: ay351138P Legal aspects of health care (OPEN UNI) 4.0 op

ECTS Credits:
4 ECTS
Language of instruction:
Finnish
Timing:
1st year spring term
Learning outcomes:
Learning outcomes: Students are able to define the legislation that regulates the production of health services. Students are able to define the judicial basics of the status of health care professionals as well as their rights and obligations. Students are also familiar with patients rights and understand their meaning from the viewpoint of legal assesment and responsibility of health care professional activities. Students are able to identify the means of legal protection available to patient.
Contents:
Production of health care services, obligations of health care professionals, control and responsibility, patient’s status, rights and legal protection.
Learning activities and teaching methods:
Lectures 10 hours
Recommended or required reading:

2. Seuraavat säädetökset niihin myöhemin tehtyine muutoksineen:
Laki terveydenhuollon ammattihenkilöstä (564/1994)
Laki potilaan asemasta ja oikeuksista (785/1992)
Potilasvahinkolaki (585/1986)
Terveydenhuoltolaki (1326/2010)
Kansanterveyslaki (66/1972)
Erikoissairaahoitolaki (1062/1989)
Mielenterveyslaki (1116/1990)
Laki yksityisestä terveydenhuollosta (152/1990)

Assessment methods and criteria:
Exam
Grading:
1-5/ Failed

Person responsible:
Lecturer

353206S: Master's thesis and thesis seminars, 30 op

Opiskelumuoto: Advanced Studies
Laji: Diploma thesis
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

ECTS Credits:
30 ECTS
Timing:
3rd year autumn term to 4th year spring term

Learning outcomes:
Learning outcomes: The students are able to write a Master's thesis.

Learning activities and teaching methods:
Inquiry learning and process writing. Individual study or group work. Thesis can also be written as a scientific article.

Recommended optional programme components:
Completed courses in research, Candidate thesis, research course and research methods I and II. Participation in the group in research seminars at the same time.

Assessment methods and criteria:
The student writes a pro gradu thesis or corresponding work. If the student has not taken part in to the written maturity test in connection with Candidate thesis a written maturity test has to be taken. Group guidance app. three times.
Grading:
1-5

350003Y: Philosophical foundations for scientific research, 5 op

Opiskelumuoto: General Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

Leikkaavuudet:
ay350003Y Philosophical foundations for scientific research (OPEN UNI) 5.0 op

ECTS Credits:
5 ECTS
Language of instruction:
Finnish
Timing:
1st year autumn
Learning outcomes:
The student will be able to respond to the scientific study of science with the philosophical issues that relate to information, science objectives and the nature of scientific thinking, and basis the study of human sciences.

Contents:
Philosophical foundations of science and philosophical study of basic concepts. Positivistic and hermeneutical approach. Phenomenology. Knowledge interests. The basic starting points of scientific concept and theory formation, and scientific reasoning. Ethics of science.

Learning activities and teaching methods:
Lectures 20 hour and literature.

Recommended or required reading:
Lectures and following items:

You can check the literature availability at this link

Assessment methods and criteria:
Examination of lectures and literature. Lectures and book carried out as a whole.

Grading:
Pass / Fail. Pass the examination required that the student receives at least half of the answer issues, the maximum points.

Person responsible:
Lecturer

---

351008P: Research methods (basic), 2 op

Opiskelumuoto: Basic Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish
Leikkaavuudet:
ay351008P Research methods (basic) (OPEN UNI) 2.0 op

ECTS Credits:
2 ECTS

Language of instruction:
Finnish

Timing:
1st year autumn term

Learning outcomes:
Learning outcomes: After completing the course the student is familiar with aims and principles of scientific research and she/he is able to describe the phases of research process.

Contents:
The aims and principles of scientific research, and research process.

Learning activities and teaching methods:
Independent studying

Recommended or required reading:

You can check the literature availability at this link

Assessment methods and criteria:
Literature examination.

Grading:
1-5 / fail

Person responsible:
Doctoral candidate
Other information:
The course is substituted to those students who have accomplished the degree in social and health care at the university of applied sciences.

352107A: Research methods I, 6 op

Opiskelumuoto: Intermediate Studies  
Laji: Course  
Vastuuysikkö: Institute of Health Sciences  
Arvostelu: 1 - 5, pass, fail  
Opintokohteen oppimateriaali:  
Polit, Denise F., 2004, pakollinen  
Opintokohteen kielet: Finnish  
Leikkaavuudet:  
ay352107A  Research methods I (OPEN UNI)  6.0 op

ECTS Credits:  
6 ECTS  
Language of instruction:  
Finnish / English  
Timing:  
1st year spring term  
Learning outcomes:  
The student gets familiar with methodological issues and the process of scientific research.  
Upon completion the student:  
- is able to formulate a research problem and research purpose and design a research  
- is able to review and evaluate scientific research  
- is able to design qualitative and quantitative research methods  
- knows the requirements of a good scientific writing  
- is able to evaluate ethical considerations  
- is able to evaluate the basic criteria to assess the quality of quantitative and qualitative studies  
Contents:  
The overview of research process, literature reviews, data collection, analysis of research data, reliability, addressing ethical issues, writing a research proposal.  
Learning activities and teaching methods:  
Lectures and practice 30 hours, independent studying and exam 130 hours.  
Recommended optional programme components:  
Research methods (basic).  
Recommended or required reading:  
Topical scientific articles.  
You can check the availability of literature at this link  
Assessment methods and criteria:  
Participation in exercises, working groups and exam.  
Grading:  
1-5 / fail  
Person responsible:  
Senior lecturers

353203S: Research methods II, 10 op

Opiskelumuoto: Advanced Studies  
Laji: Course  
Vastuuysikkö: Institute of Health Sciences  
Arvostelu: 1 - 5, pass, fail  
Opintokohteen kielet: Finnish
Language of instruction:
Finnish

Timing:
Second year spring

Learning outcomes:
Learning outcomes: Upon completion the course the student
- is able to define in deeply the features and methodological issues in quantitative and qualitative research
- can choose and apply types and designs for nursing research in his / her own research
- has a good command of the research process
- is able to assess questions of reliability and validity and apply them in planning and implementing his / her own research
- can assess main questions of the ethical issues in research
- is able to write proposal and research report

Contents:
Methodological issues in quantitative and qualitative research, types / designs for nursing research, phases of research process, reliability and validity assessment, ethical issues. Writing a research proposal and research report.

Learning activities and teaching methods:
Lectures and practice 50h (qualitative research, quantitative research, statistic), group-working 30h, independent studying and written essay 190h. Compulsory attendance is 80% in qualitative and quantitative lectures / exercises.

Recommended optional programme components:
Research methods (basic), research methods I, Candidate's thesis. No substitution by earlier studies.

Recommended or required reading:

Assessment methods and criteria:
Participation in lectures and exercises, group work and written essay.

Grading:
1-5 / fail

Person responsible:
Senior lectures in health administration and nursing science

353204S: Research seminars, 5 - 8 op

Opiskelumuoto: Advanced Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opintokohteen kielet: Finnish

ECTS Credits:
8 ECTS

Language of instruction:
Finnish

Timing:
3rd year autumn and spring term.

Learning outcomes:
Learning outcomes: The students produce research proposal. Students are able to evaluate process and its phases critically.

Contents:
Drafting a research proposal.

Learning activities and teaching methods:

Recommended optional programme components:
Completed courses: Candidate thesis, Research course, Research methods I and II.

Recommended or required reading:
Research related to research proposal and research literature.

Assessment methods and criteria:
Research proposal. Participation in briefing and to group guidance.

**Grading:**
Pass / Fail. Peer-review, teacher evaluation.

**Person responsible:**
Lecturer

**350007Y: Statistical computing, 5 op**

Opiskelumuoto: General Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Pentti Nieminen
Opintokohteen oppimateriaali:
Uhari, Matti , , 2001, pakollinen
Opintokohteen kielet: Finnish
Leikkaavuudet:
ay350007Y Applied statistics and ADP (OPEN UNI) 5.0 op

**ECTS Credits:**
5 ECTS
**Language of instruction:**
Finnish
**Timing:**
1st year spring term
**Learning outcomes:**
Learning outcomes: The student can design data collection, she/he can enter the data to computer and can use statistical software to analyze the data. The student is able to report results and can critically read research articles
**Contents:**
**Learning activities and teaching methods:**
Lectures 12 hours, group work 21 hours, a practical projects and home-works.
**Recommended or required reading:**

**Assessment methods and criteria:**
Exam, written report about data analysis and participation in workgroups.
**Grading:**
Pass / Failed
**Person responsible:**
Pentti Nieminen, Ph.D., Faculty of Medicine

---

**350005Y: Statistics, 6 op**
Opiskelumuoto: General Studies
Laji: Course
Vastuuyksikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Maria Laukkala
Opintokohteen oppimateriaali:
Heikkilä, Tarja, 2004, pakollinen
Helenius, Hans, 1989, pakollinen
Opintokohteen kielet: Finnish

Leikkaavuudet:
ay350005Y Statistics (OPEN UNI) 6.0 op

ECTS Credits:
6 ECTS
Language of instruction:
Finnish
Timing:
First year autumn term
Learning outcomes:
Learning outcomes: Student is able to get numeric observational data and plan quantitative research process. Student is able to describe things which are examined by tables, figures and parameters. Student is able to use the principles of distributions and test theories and statistic reasoning methods and models in quantitative data.
Contents:
Learning activities and teaching methods:
Lectures 40 hours. Individual and group work 50 hours.
Recommended or required reading:

You can check the literature availability at this link
Grading:
Pass / Fail

350001Y: Study planning and tutorial, 1 - 3 op

Opiskelumuoto: General Studies
Laji: Course
Vastuuyksikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Hanna Tiirinki
Opintokohteen kielet: Finnish

ECTS Credits:
3 ECTS
Language of instruction:
Finnish
Timing:
1st academic year
Learning outcomes:
Learning outcomes: After completing the course the student is able to assess him-/herself as a student and a member of science community. The student recognizes the structure and aims of health science education and is
able to plan his/her own studies. The student is able to evaluate the meaning of learning outcomes and learning strategies in planning his/her own studies. The student is able to describe the ethical principles of the university studies.

Contents:
Introduction to university studies: the structure, aims and content of the education. Student services at the University of Oulu. Study methods, individual study plan and learning assessment. The membership of a science community and ethical principles of the university studies.

Learning activities and teaching methods:
Information sessions, student and teacher tutoring, independent studying, and workshops.

Recommended or required reading:
Curriculum and study guide, web-pages of the Faculty of Medicine and University of Oulu. Ethical Guidelines for Teachers and Students.

Assessment methods and criteria:
Participation in student and teacher tutoring and workshops. Individual study plan and its continuous self assessment. Individual study plan will be prepared and returned to teacher tutor.

Grading:
Pass / fail

Person responsible:
Teacher tutors

353408S: Synthesis in Health Management Science Part I and II, 5 - 10 op

Opiskelumuoto: Advanced Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Leena Turkki
Opintokohteen kielet: Finnish

ECTS Credits:
5 ECTS

Language of instruction:
Finnish

Timing:
3rd year autumn and spring.

Learning outcomes:
Learning outcomes: In a limited area of health care students are able to generate a wholeness by exploiting the main questions in health administration science. Students are able to comment and reflect on the nature of health administration science as a result of PBL-work. Students are able to apply information of health administration science in practice and in writing.

Contents:
Knowledge of Health administration science in health care practices, education and management.

Learning activities and teaching methods:

Recommended or required reading:
Topical research.

Assessment methods and criteria:
Participating in idea-lectures and PBL-work. Written work.

Grading:
1-5 / Failed

Person responsible:
Professor of Health administration science.

352146A: Training in administration, 6 op

Opiskelumuoto: Intermediate Studies
Laji: Course
Vastuuysikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
ay352146A  Training in administration (OPEN UNI)  6.0 op

ECTS Credits:
6 ECTS

Language of instruction:
Finnish

Timing:
2nd year spring term - 3rd year autumn term

Learning outcomes:
Learning outcomes: Students are able to define and delimit the area of social and health care according to their own objectives. Students have the competence to apply information gained from health administration science to management in social and health care and/or research and development work in social and health care by producing ideas for development.

Contents:
Students train in healthcare settings according to their own individual plan.

Learning activities and teaching methods:
Individual training and reflective report. Instructions in Optima.

Target group:
Minor subject students.

Recommended optional programme components:
Completion of basic studies in Health administration science is required.

Recommended or required reading:
Topical research and books.

Assessment methods and criteria:
Training and reflective report.

Grading:
Passed/failed.

Person responsible:
Doctoral candidate of Health administration science.

Other information:
More details instructions in Optima (web). Registration via weboodi.

353208S: Training in administration, 5 op

Opiskelumuoto: Advanced Studies
Laji: Course
Vastuuksikkö: Institute of Health Sciences
Arvostelu: 1 - 5, pass, fail
Opettajat: Hanna Tiirinki
Opintokohteen kielet: Finnish

ECTS Credits:
10 ECTS

Language of instruction:
Finnish

Timing:
4th year autumn term.

Learning outcomes:
Learning outcomes: Student's can reflect on their own know-how in the area of social and healthcare administration. Students shows their own development and know-how with a portfolio.

Contents:
Students train in health care settings according to their individual plans.

Learning activities and teaching methods:
Individual training and portfolio. Instructions in Optima.

Target group:
Students who main subject is Health administration science.
Recommended optional programme components:
Completion (mostly) of basic studies and in health administration science is required.

Recommended or required reading:
Topical research and books.

Assessment methods and criteria:
Training and portfolio.

Grading:
Passed / Failed

Person responsible:
Doctoral candidate in Health administration science
