DEPARTMENT OF NURSING SCIENCE AND HEALTH ADMINISTRATION

DEGREE PROGRAMME IN NURSING SCIENCE 2009-2010

By virtue of the new statute on health science degrees issued 794/2004 the Bachelor's (180 credits) and Master's degrees (120 credits) in health science are available.

The major subjects in the Department of Nursing Science and Health Administration are
1. nursing science
2. health administration science
3. radiography
4. clinical laboratory science
5. The study programme for health science teachers

The minor subjects alternatives are nursing science, clinical nursing science, health administration science, radiography, and clinical laboratory science.

1. General descriptions

- Qualification awarded: Bachelor of Health Sciences, Master of Health Sciences
- Admission requirements: Prerequisite to study at department of Nursing and health administration is degree at health care or polytechnic degree (post-secondary/polytechnic level)

- Educational and professional goals
  
  **The goals for the lower academic degree (Bachelor of Health Sciences):**
  
  The education must give to the student:
  1) The basic knowledge of the field of Health Sciences and the capacity to follow the development of the field
  2) Capability for scientific thinking and scientific working methods
  3) Qualifications for higher academic degree and continuous learning
  4) Personal capacity for using the knowledge in work
  5) Sufficient communication and language skills

  **The goals for the higher academic degree (Master of Health Sciences):**
  
  The education must give to the student:
  1) Good knowledge of the overall of the major studies and basics of the minor studies
  2) Capability of applying scientific information and methods
  3) Capability to act as a professional and developer of one's own subject
  4) Capability for scientific post-graduate education
  5) Good communication and language skills

Students enrolled in the degree programme of nursing science major in nursing science and may choose any of the minor subjects available. The goal of the degree programme of nursing science is to educate experts for planning, development, instruction and management in social work and health care.

- The aims are: 1. To be able to carry out duties that require expertise in nursing science
  2. To be able to follow developments in his/her field and to use new information
  3. To be able to develop nursing, nursing
administration or nursing education on the basis of the research. To be able to carry out scientific postgraduate studies in nursing.

- Access to further studies: After completing the Master's degree, the student is eligible for applying for postgraduate education (licentiate degree, doctoral degree).
- Course structure diagram with ECTS credits (60 per year): The Bachelor's degree consists of general studies (orientation and language studies, 52 credits), basic studies (25 cr) and intermediate studies (38 cr) in nursing science, studies in minor subject(s) and optional studies (55 cr), and a candidate thesis (10 cr). General studies are same in each programme/major subject. The Master's degree consists of advanced studies in nursing science (30 cr), studies in minor subject(s) and optional studies (60 cr), and a pro gradu thesis (30 cr). Some studies on Bachelor's level (parts of general studies, basic studies, and optional studies) are compensated for by previous studies, so that the Bachelor's degree can be completed in 1.5-2 years (full-time study).

**Bachelor's degree (180 ECTS credits) consists of:**

General studies
Basic- and subject studies of major subject
Minor studies
Optional studies

**Master's degree (120 ECTS credits) consists of:**

Advanced studies of major subject

#### Proficiency level:
B2/C1  
**Status:** Compulsory course  
**Required proficiency level:**  
Students are expected to have had English as their A1 or A2 language at school or have acquired equivalent skills.  
**ECTS Credits:** 3 credits  
**Timing:** 1st year spring term  
**Learning outcomes:**  
By the end of the course the students will have practiced the following skills  
- extracting information, identifying main points and inferring meanings from the academic texts of the student's field of study by using appropriate reading techniques (skimming and scanning)  
- recognizing discipline and culture-specific conventions (text-structures, grammatical patterns, phraseology and word formation), meanings and patterns in the academic texts of the target field  
- detailed understanding and summarising of target field academic texts  
- combining information from various academic sources, creating a synthesis, and assessing the sources used

**Target group:**  
Students in the degree programs of nursing science, nursing teacher education and health administration

**Recommended or required reading:**  
Information will be provided at the beginning of the course.

**Assessment methods and criteria:**  
The course requirements include active participation in classroom work and completion of home assignments. Alternatively, an end-of-course examination may be offered.

**Grading:**
The evaluation scale is pass/fail.

**Person responsible:**
Riitta Sallinen

**Other information:**
An exemption exam will be offered on **November 28th, 2008 at 9-12 in lecture hall 101A (Aapistie 7)**. The exemption exam is voluntary and can be taken only once. Students sign up for the exam in **WebOodi** from November 17th - 24th. Students passed in this exam receive a completion mark for the course and need not participate in it. The students not exempted are required to attend the course.

Students sign up for the course in **WebOodi** from December 1st - 15th. (**sign up code 902008Y-01**)

Information on the time and place of the classes is provided on the home pages of the Department of Nursing Science and Health Administration.
