

Opasraportti

OBS - Master of Science, International Business Management (2019 - 2020)

This guide describes the contents of this master's programme. More information about studying at the business school can be found in the general study guide for Oulu Business School's master level students.

Master's Programme in International Business Management

Through its focus on the challenging and complex international organizational settings and organizing contexts including multitude of actors and activities, the International Business Management (IBM) programme brings knowledge on proactive, innovative and collaborative practices that facilitate development of strong sustainable and growing businesses and prospering areas in the globalized world.

General Learning Outcomes:

- Analytical thinking and problem solving – our graduates are able to solve business and/or economic problems and make business decisions.
- Disciplinary knowledge – our graduates demonstrate deep and coherent understanding of an academic field of study.
- Business knowledge - our graduates demonstrate deep understanding of their own profession, and are able to use, process and analyze economic and/or business information.
- Globally responsible leadership – our graduates are able to act as future generators of sustainable value for business and society.
- Communication skills - our graduates demonstrate professional oral and written communication knowledge and skills appropriate for business situations.

List of courses and teaching timetable are available in [IBM degree structure diagram](#).

(HUOM! Opiskelijat, jotka eivät ole Master` s Programme in International Business Management tutkinto-ohjelmassa, katsokaa suomenkielinen opinto-opas, jossa näille opiskelijoille tarkoitettu tutkintorakenne esillä.)

Learning Outcomes in the Degree:

Upon completion of Master` s degree in IBM programme a student is able to evaluate and apply the conceptual tools of management and international business in order to build up a comprehensive and holistic understanding of administrative and organizational phenomena as well as practices. In addition, a student is able to build and manage growth-oriented and international businesses in a successful way. Therefore, he or she can apply and create knowledge about organizations so that multi-cultural needs of firms can be handled well. It means that he or she cannot only collaborate and co-create with others in a firm, but also work individually in work- and business-related interventions. In that way, he or she is experienced in a clear oral and written communication.

This course cannot be taken if you have previously completed the course 721536S Leadership and Change

721537S: Introduction to Strategizing Practices, 6 op

Voimassaolo: 01.08.2001 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Sari Laari-Salmela

Opintokohteen kielet: English

Leikkaavuudet:

721554A Strategizing Practices 5.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 2 (year 2019) It is recommended to complete the course at the 1st autumn semester of the Master's program

Learning outcomes:

Students know how to analyze strategy as organizational practice and develop and lead strategizing practices supporting the objectives of a business organization. Thus, after the course students are able to compare the process based against the planning based approach to strategy and to analyze what strategic actors do in practice and execute strategizing practices involving the internal micro-practices organizing the strategy. Students demonstrate the ability to express their ideas analytically and effectively in written form.

Contents:

The purpose of this course is to introduce the contemporary theory of strategic thinking and develop skills to lead the strategy creation process in dynamic business situations. The course will explore the dominant social scientific perspectives used in strategy research and the connections between strategy and organizational management as well as strategy, leadership and new business creation. This approach regards strategy as a social phenomenon – strategy as practice – rather than an analytical technique.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

36 hours workshops with reflection (72 h), reading the course literature and writing the report (52 h). The course will be taught in intensive sessions consisting of lecturing and group work. 70 % attendance of sessions is required. Further details will be provided by the responsible person during the first session.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

Basic and intermediate studies in international business management

Recommended optional programme components:

No

Recommended or required reading:

[Whittington, R. What is strategy? And does it matter \(Thomson\)](#); Article collection; Lecture materials.

Assessment methods and criteria:

Assessment will be based on individual learning diary and group assignment (including presentation).

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Sari Laari-Salmela

Working life cooperation:

The student will practice with a real-life case study and work together with a team to define and solve a real-life organizational problem. The student also practices critical reflection, a core capability in strategic thinking. Practical exercises enable reflecting and developing both one's own behavior and organizations' operations.

Other information:

The number of students is limited.

723038S: Multinational Enterprise Theory, 6 op

Voimassaolo: 01.08.2010 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Lauri Haapanen

Opintokohteen kielet: English

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 2. It is recommended to complete the course at the 1st autumn semester of the Master's program.

Learning outcomes:

Students will be able to compare and describe different multinational enterprise theories. They can judge the applicability of the theories in dynamic business contexts. The students are able to explain the major changes in enterprise's cross-border strategies using theoretical frameworks and conclude the viable strategies taking into account firm-specific and industry-specific boundaries. Students are also able to express their ideas analytically and effectively both in written and oral form.

Contents:

Students completing the course will have an understanding of the theories explaining the behavior of large and geographically dispersed multinational enterprises (MNEs) which are in mature stages of internationalization. Students will familiarize with the transaction cost theory, Dunning's OLI paradigm, resource-based view of the firm, and dynamic capability perspective of multinational enterprises. Course addresses specific issues related to the determinants of MNEs, the patterns of foreign direct investments (FDIs), the roles of joint ventures (JVs), and mergers & acquisitions (M&As) in expanding of businesses in foreign countries.

Mode of delivery:

Face-to-face teaching with materials and resources online.

Learning activities and teaching methods:

The course consist of 24 hours lectures with reflections, 12 hours workshop sessions (50 h), reading the course literature (60 h), writing the report (50 h). Students will apply their theoretical knowledge and approaches in an individual course assignment.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

Basic and intermediate studies in international business management

Recommended optional programme components:

No

Recommended or required reading:

[Dunning, J.H. & Lundan, S.M. \(2008\). Multinational enterprises and the global economy, second edition. Edward Elgar Publishing Limited.](#)

Additional collection of articles will be provided during the course.

Assessment methods and criteria:

Assessment is based on given assignments and an individual case report.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for fail.

Person responsible:

Lauri Haapanen

Working life cooperation:

This course covers topics that develop student's awareness of multidimensional aspects related to a multinational enterprise, awareness of complex decision-making situations including multiple units and stakeholders. Course discusses such issues that students will face when being employed in multinational enterprise. Student projects are based on real-life case exercises and enhance analysis and communication skills.

ay721070S Globally Responsible Business (OPEN UNI) 6.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 3 (year 2020)

Learning outcomes:

Upon completion of the course, students are able to demonstrate detailed knowledge of responsible behaviors in global and local business from the viewpoint of their major discipline. The students are able to work in multidisciplinary groups and create a collective approach for uniting economic with socially and environmentally responsible bottom lines within a global business context. Students are also able to express their ideas in written and oral form and communicate them online.

Contents:

The course deals with the diversity of contemporary business issues related to sustainability and responsibility when operating in the global marketplace. Based on the triple-bottom-line concept students are introduced to theoretical and practical perspectives from the disciplines of accounting, economics, finance, management/international business and marketing. Students learn to detect, analyze, and create different approaches of how to globally and locally achieve social and environmental goals in addition to economic objectives of a business.

Mode of delivery:

Online study methods.

Learning activities and teaching methods:

Independent study of the given material 70h, online discussions and groupwork 70h, and conducting individual assignments and learning reports 20h.

Target group:

Students from all OBS Master's programmes.

Prerequisites and co-requisites:

30 credits (5 Master level courses).

Recommended optional programme components:

No

Recommended or required reading:

Course Book (to be announced later), articles and materials provided by the course instructors.

Assessment methods and criteria:

Individual contributions (reports, video, online exam) count for 60% and group contributions (blogpost, case report) 40%.

Grading:

The course utilizes a numerical grading scale 1-5. The course consist of five different parts and students acquire a grade by passing the five different parts in numerical order.

Person responsible:

Anne Keränen, Jan Hermes and Minna Ahokas

Working life cooperation:

The course includes global and local real life case examples and analyses. Course learning methods advance modern communication and interaction methods relevant in work life. Students gain abilities to perceive and develop responsibility in business.

Other information:

The course is available and obligatory for OBS Master level students.

721530S: Master's Thesis in International Business Management, 30 op

Voimassaolo: 01.08.2014 -

Opiskelumuoto: Advanced Studies

Laji: Diploma thesis

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish, English

ECTS Credits:

30 credits

Language of instruction:

English. Master's thesis can be written in Finnish or in English.

Timing:

Periods 1-4 (2nd year of Master's Programme)

Learning outcomes:

Upon completion of the thesis students can choose and apply appropriate research methods to produce new knowledge and to apply that knowledge to typical business decision-making problems. Students are able to conduct scientific research and make reasonable recommendations for solving business and economic problems. Furthermore, students demonstrate deep and coherent understanding of an academic field of study within their own major. They are able to demonstrate knowledge of the theories, concepts, frameworks and empirical findings of their discipline and understand the connections between various theories in the chosen discipline.

Students will demonstrate deep understanding of their own profession, and are able to use, process and analyze economic and/or business information. Students understand various business processes and operations, and causal connections between them. Finally, students are able to express their ideas effectively and analytically, both in oral and written form.

Contents:

Most of the work is independent writing of the thesis report, but during the master's thesis work students participate in seminar sessions in which they present and report the status and advancement of their work.

In the seminars, they receive guidance and feedback from their supervisor on how to proceed in and complete their research report.

Mode of delivery:

Face-to-face teaching in seminar sessions.

Learning activities and teaching methods:

Independent work and face-to-face teaching in seminar sessions. Students prepare and present three reports during the course: 1) Research plan, 2) Intermediate report and 3) Manuscript. The works starts with a kick-off session and the progress and timing of the sessions is agreed on in the kick-off session. Discipline-based kick-off/info sessions are organized in September and May.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

724050A Bachelor's Thesis or another university degree.

Recommended optional programme components:

-

Recommended or required reading:

Scientific articles and other theoretical and empirical materials collected by the students for their individual study.

Assessment methods and criteria:

Examination through written research report based on the defined assessment criteria.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for fail.

Person responsible:

Professors

Working life cooperation:

Working life cooperation is dependent on the particular project. However, the students will learn problem solving and analytical skills as well as oral and written presentation skills needed for a business graduate in working life. Students deepen their understanding of their own profession.

Other information:

Open only to students of the Master's program in International Business Management

Leikkaavuudet:

721415A Industrial Sales Management 5.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 2 (year 1)

Learning outcomes:

Upon completion this course, students are able to raise the appreciation of topic of sales as a profession and academic field. Students are able to formulate a coherent view on central concepts of sales management/leadership and personal selling. Students are able to prepare to recruit, motivate, evaluate and supervise the sales force. In addition, students are able to plan sales, explain the dynamics of actual sales work and analytically evaluate and solve sales-related issues. Students are also able to design, execute and evaluate a small-scale research on selling and/or sales management/leadership. Students are also able to express their ideas analytically and effectively both in written and oral form.

Contents:

The influence of company and product/service strategies on sales management and vice versa; planning, managing, leading and organizing for sales; interaction at the customer interface; and central research methods in selling and sales management.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and guided exercises (36 h), group assignment (50 h), reading the course material and literature and conducting an individual assignment (74 h)

Target group:

Master's level students in marketing and management and international business

Recommended optional programme components:

The course is an independent entity and does not require additional studies carried out at the same time.

Recommended or required reading:

Article collection AND Hair et al. (2010) Sales Management. Building Customer Relationships and Partnerships AND Jobber & Lancaster (2012) Selling and Sales Management. Selected sections of the books to be announced at the beginning of the course.

Assessment methods and criteria:

Group assignment 30% and individual assignment 70 % of the final grade. The assessment of the course unit is based on the learning outcomes of the course unit.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Dr. Mari Juntunen

Working life cooperation:

Visiting industry experts with real-life case problems explaining theoretical aspects and models. Sales practices involving actual business cases. Observation of actual sales situations and/or interviews with managers. Group work skills.

Other information:

The number of students is limited.

721565S: Design Driven Innovation, 6 op

Voimassaolo: 01.08.2019 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Sakari Sipola

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 1, 2nd year of the Master's program

Learning outcomes:

Upon completion of the course, the student can integrate design thinking to future professional activities and is able to understand the value of design in dynamic business context. The student recognizes different steps of the design process, has the fundamental capabilities in design thinking tools and can participate in innovation teams in a collaborative and analytical manner.

Contents:

The purpose of this course is to introduce design thinking and other practically orientated frameworks of innovation. The course covers the principles of human-centered innovation process and discusses the managerial and cultural aspects related to enabling change and innovation both in new and established organizations.

Mode of delivery:

Face-to-face teaching, online activity.

Learning activities and teaching methods:

Blended teaching method of 24 hours of lectures, visiting industry experts, and online work (12h) with reflection (72 h), reading the course literature (50 h), writing the report (38 h). The responsible person will provide further details in the first session.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

721559S Venture Growth Strategies

Recommended optional programme components:

721566S Business Impact Project, 721434S Selling and Sales Management, 721541S Perspectives on Innovation Management

Recommended or required reading:

Article collection and online material.

Assessment methods and criteria:

Assessment will be based on individual written report, assignments and lecture activity.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Sakari Sipola

Working life cooperation:

Visiting industry experts provide real-life cases and examples.

Other information:

The number of students is limited.

721566S: Business Impact Project, 6 op

Voimassaolo: 01.08.2019 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Ahmad Arslan

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Periods 3 and 4, 2nd year of the Master's program.

Learning outcomes:

Students will learn creative problem-solving skills in teams and can apply them at different organization contexts. Students can analyze and choose the methods for building and managing relationships with different project stakeholders and know what it takes to manage innovative projects.

Contents:

The Business Impact Project course is a capstone course that provides the students with an opportunity to apply theoretical knowledge and practical tools learned at previous courses to real-life business projects. Students practice innovation and business development in teams. Teams are supported by industry advisors and mentoring at different stages of the innovation process from the beginning to the final project presentation.

Mode of delivery:

Face-to-face teaching, mentoring and group work.

Learning activities and teaching methods:

Given the nature of design thinking and the innovation process, curriculum may be adapted during the semester in response to student and project needs.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

Prerequisites for the course are 721559S Venture Growth Strategies and 721565S Design Driven Innovation.

Recommended optional programme components:

First year studies of International Business Management.

Recommended or required reading:

Material from previous International Business Management courses and additional material provided by the responsible person(s) at the beginning of the course.

Assessment methods and criteria:

Assessment will be based on group work, reflective essay and project presentation.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Sakari Sipola

Working life cooperation:

Visiting industry experts, working with the case organization

Other information:

The number of students is limited.

721195S: Advanced Management Control, 6 op

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 1 (2nd year of the Master's Programme)

Learning outcomes:

Upon the completion of the course students can identify various theoretical perspectives on studying management control systems. Students are able to analyse management accounting and control research with the help of those perspectives, which assists them in their Master's Thesis work. They are also able to combine the research findings to their own experiences and real business life. Students can thus compare the functionality of different accounting control tools and assess the multifaceted influences management accounting and control tools may have on the organization and on people's behaviour.

Contents:

The organizational and people side of accounting and control systems: how budgeting, transfer pricing, financial and non-financial performance measures may be used to influence, motivate and control what people do in organisations.

Mode of delivery:

Face-to-face teaching with materials and resources online, a possibility for a blended approach.

Learning activities and teaching methods:

Lectures with small group-based exercises 28 h and a possibility for blended learning online, term paper 63 h, self-study 63 h.

Target group:

Major students of Accounting (and International Business Management)

Prerequisites and co-requisites:

Basic course of management accounting or management control; OR Kaplan, R., Atkinson, A: Advanced Management Accounting: Pearson New International Edition (as applicable), 3rd Edition (2013), Sections 7-10.

Recommended optional programme components:

The first year studies of Accounting or International Business Management programme.

Recommended or required reading:

[Hopper, T.; Scapens, R. W.; Northcott, D.: Issues in Management Accounting \(Chapters 9, 11 and 12\), Prentice Hall, 3rd edition \(2007\);](#)

A Collection of Articles.

Assessment methods and criteria:

Students complete a lecture and literature examination in Examinarium and write a term paper independently or in a group. Both comprise 50% of the final grade. Assessment is based on the learning outcomes of the course unit and the more detailed assessment criteria will be available in the course material. The students may also choose to compensate a part of the exam by participating actively in the lectures and/or doing home assignments online.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Lecturer Sinikka Moilanen

Working life cooperation:

Students learn how to use research findings in order to understand the functionality of different accounting control tools. They are able to design accounting-based management control tools and assess their effects on the behavior of employees. Visiting lecturer from a management consultancy firm discusses international transfer pricing.

Other information:

The number of students is limited.

6 credits

Language of instruction:

English

Timing:

Period 2. It is recommended to complete the course at the 2nd autumn semester of the Master's program.

Learning outcomes:

Students gain understanding about the impact of technological development. Focus will be on the current disruptive technologies (eg. Artificial Intelligence, Internet-Of-Things or Blockchain) and possible influences technologies have on business and society. Students are also able to express their ideas analytically and effectively both in written and oral form.

Contents:

Course will use socio-technical theories to understand societal impact of current disruptive technologies. Business impact is approached through entrepreneurial / venture theories. Topics are discussed from non-technical perspective (eg. no AI programming or logic scripting) on technology.

Mode of delivery:

Face-to-Face teaching with materials and resources online. Industry visitors.

Learning activities and teaching methods:

The course consists of lectures with reflections, visitor lectures, workshop sessions, reading the course literature, writing the report. Students will apply their theoretical knowledge and approaches in an individual course assignment.

Target group:

Students of the Master's program in International Business Management and Marketing

Prerequisites and co-requisites:

none

Recommended optional programme components:

none

Recommended or required reading:

none

Assessment methods and criteria:

Exercises and learning diary.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Tuure Haarjärvi

Working life cooperation:

Course will have multiple visitors from companies lecturing relevance of disruptive technologies for their business.

Other information:

The number of students is limited.

721065S: Internship, 6 op**Voimassaolo:** 01.08.2014 -**Opiskelumuoto:** Advanced Studies**Laji:** Practical training**Vastuuyksikkö:** Oulu Business School**Arvostelu:** 1 - 5, pass, fail**Opintokohteen kielet:** English**ECTS Credits:**

6 credits

Language of instruction:

Varies depending on the way of completion.

Timing:

Free

Learning outcomes:

The internship offers the students the opportunity to learn how to solve problems and to learn organizational tasks and responsibilities related to their major subject. Furthermore, the internship supports students to establish relationships to both working colleagues and business management and develops their communication skills within the organization and its network. The internship offers the students the possibility to develop their skills how to apply their knowledge in working environment and to increase their competence.

Contents:

The content is made up of the job description which is related to the student's major subject and which is provided by the organization where the internship will be accomplished. To be eligible for advanced level internship, the student should work either in a managerial position or as an independent specialist who has a responsible position with a possibility to use organizational resources.

Learning activities and teaching methods:

The student will work under the supervision of the internship instructor appointed by the company. First, student should contact Sakari Nikkilä to agree on the practicalities and documentation of the internship. Upon completion of the internship the student reflects and describes the internship period in the written report (8-10 pages) which will be returned with a weekly diary and a copy of the employment certificate to Jaakko Simonen and Sakari Nikkilä.

The written report should be 8-10 pages and contain:

1. Description of the organization/company where the internship was completed
 2. Description of the tasks, responsibilities and working methods during the internship
 3. Description of how the tasks and responsibilities relate to the other functions of the organization
 4. Description of how the internship relates to future career plans
 5. Business development ideas for the Internship organization
 6. Reflection on what was learned during the internship, how the learning relates to what has been learned earlier in the bachelor's and master's studies, and connecting the learning to theoretical concepts of the discipline.
- A description of the organization/company where the internship was completed.
 - A detailed description of the tasks, responsibilities and working methods during the internship.
 - Description of how the tasks and responsibilities relate to the other functions of the organization.
 - Reflection on what was learned during the internship, how the learning relates to what has been learned earlier in the bachelor's and master's studies, and connecting the learning to theoretical concepts of the discipline.
 - Description of how the internship relates to future career plans.

More detailed guidelines are available from the responsible persons

Target group:

Students of OBS's Master's Programmes

Prerequisites and co-requisites:

Completed bachelor's studies. Minimum of 30 credits of Master's studies

Recommended optional programme components:

No

Recommended or required reading:

-

Assessment methods and criteria:

Internship report and other documentation delivered according to the above instructions

Grading:

Pass/Fail

Person responsible:

Jaakko Simonen and Sakari Nikkilä

Working life cooperation:

The student will work in an organization improving professional skills related to the major subject and developing business knowledge (and personal network).

Other information:

The internship is an elective course. Internship may also be a business development case or other relevant project (e.g. Demola/Business Kitchen), which needs to be accepted in advance following the general process described above.

Varies depending on the way of completion.

Timing:

Free

Learning outcomes:

If taken as an individual research assignment, upon completion the students demonstrate knowledge of the theories, concepts, frameworks and empirical findings of chosen discipline and they are able to identify and solve relevant problems, and make critical judgments based on them.

Contents:

Varies depending on individually agreed on assignment.

Mode of delivery:

It may be, but is not limited to (1) An advanced level course passed in another university having different contents than those courses offered in the student's program, but otherwise fitting the structure of the studies. If necessary the course may be supplemented with additional tasks. (2) An essay/learning diary of about 20 pages, the requirements of which are agreed on in advance with the person responsible of the course within the major subject. (3) Ad hoc –course organized by OBS (4) A discipline-based business development case or other relevant project (e.g. Demola/Business Kitchen).

Learning activities and teaching methods:

Varies on the basis of individually agreed on assignment.

Target group:

Students of OBS's Master's Programs.

Prerequisites and co-requisites:

-

Recommended optional programme components:

-

Recommended or required reading:

To be agreed on with the person responsible of the course within the major subject

Assessment methods and criteria:

Assessment is based on the learning outcomes of the course and the Master's program. Method varies depending on the individually agreed on assignment.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Varies depending on the way of completion and the major discipline

Working life cooperation:

Depends on the individually agreed on assignment.

Other information:

The number of students is limited. Special Issue is not a course regularly offered to the students.

721472S: Digital Marketing, 6 op

Voimassaolo: 01.08.2011 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Timo Koivumäki

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 2 (Year 1)

Learning outcomes:

After completing the course, the student is able to (1) understand the core concepts related to digital marketing, (2) assess the characteristics of digital media in comparison to traditional media, (3) plan digital marketing at strategic and tactical levels, and (4) analyze digital marketing performance against the business objectives.

Contents:

This course provides a holistic understanding of how digital marketing strategies are managed and planned in the organizations. The course addresses the strategy formulation of digital marketing and its implementation via a variety of tactics. Emphasis is also placed on the use of digital analytics for measuring and optimizing digital marketing performance. During the course, students will craft a digital marketing plan for a company of their choice. The course contents include (1) transformation in customer behavior and marketing practices due to digitization, (2) identification of digital marketing objectives and strategy, (3) digital marketing tactics, (4) digital analytics, and (5) strategic planning and management of digital marketing

Mode of delivery:

Blended approach

Learning activities and teaching methods:

36 hours lectures. In addition, independent reading of the articles and other related material, 124 h.

Target group:

Master's level students in marketing.

Recommended optional programme components:

The course is an independent entity and does not require additional studies carried out at the same time.

Recommended or required reading:

Article collection AND other material appointed by the lecturer as well as possible compendium.

Assessment methods and criteria:

Assignments (30%), Group work (70%)

Grading:

The course unit utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Professor Timo Koivumäki and Dr. Teck Ming (Terence) Tan

Working life cooperation:

First-hand experience of social media and other digital marketing practices and analytics. Visiting lecturers from companies and/or other expert organizations.

Other information:

The number of students is limited.

721436S: Brand Management, 6 op

Voimassaolo: 01.08.2014 -

Opiskelumuoto: Advanced Studies

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Saila Saraniemi

Opintokohteen kielet: English

Leikkaavuudet:

721427A Brand Management 5.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 3 (year 1)

Learning outcomes:

Upon completion of this intensive course the student is able to systematically analyze and develop brands and brand communication and compare different brand strategies. The student is able to assess brand value from the perspectives of a firm, customers, and different stakeholders. The student is able to discuss with arguments the brand phenomenon and related concepts (image, identity, reputation). In addition, the student is able to analyze different phases and factors of the branding process and to formulate different research possibilities within the brand phenomenon. Accordingly, the student is able to make brand-related decisions and apply brand perspective as a strategic asset of businesses. Students are also able to communicate and popularize research results and scientific knowledge to public audiences.

Contents:

The brand phenomenon from versatile and contemporary perspectives. The lectures include following themes: the origin of brand phenomenon and evolution of brand research, designing branding strategies

and brand communication, brand value, network perspective in branding, managing brands over time. In addition, different branding contexts are examined, e.g. SME branding, service branding, B2B branding, place branding, digital branding and non-profit branding.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Preparation for and passing a pre-exam based on three articles (will be announced in November at Noppa and online learning space) (26 h), lectures and visiting lectures, (34 h), reading the assigned articles (20 h), brand analysis (including real-life case) as group work (40 h), learning diary (40 h).

Target group:

Master's level students in marketing.

Prerequisites and co-requisites:

The course is an independent entity and does not require additional studies carried out at the same time.

Recommended or required reading:

Articles determined for the pre-exam (home-exam at online learning space, deadline week 2) AND an article collection announced during the course. Recommended additional material: Rajendra K. Srivastava and Gregory Metz Thomas (eds.). 2016. The Future of Branding.

Assessment methods and criteria:

Assessment will be at three stages: pre-examination (20 %), group work and its presentation (50 %) and an individual learning diary (30 %). The assessment is based on the learning outcomes of the course unit. Before the course, follow Noppa for announcements regarding pre-exam material, and sign in for the course preferably by the end of December.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Dr. Salla Saraniemi

Working life cooperation:

The course includes guest lectures from different fields of branding. The students will implement a brand analysis of a company as part of their group work.

Other information:

The number of students is limited.

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Jouni Juntunen

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 1

Learning outcomes:

Upon completion of the course, students can analyze marketing and business environments, and collect and utilize especially quantitative data to help management and develop decision making. In addition, they

are able to create reports to communicate with management, customers and other stakeholders regarding the analyzed data. They are also able to evaluate the usability, validity, reliability and generalizability of the data and reports. After completing this course, students can use the basic market analysis tools in data gathering and analysis.

Contents:

Lectures and related material include the following themes: 1) Background for market and business intelligence, measuring concepts and collecting quantitative data. 2) Tools of quantitative research in Master level are introduced (e.g. Excel, SPSS, PSPP, Webropol) and finally, 3) Issues related to reporting quantitative research and business intelligence.

Mode of delivery:

Blended approach.

Learning activities and teaching methods:

There will be 36 hours lectures and computer exercises. In addition, writing of learning diaries and course work 72 hours and, independent reading of the articles and other related material with the group work and writing group work of 52 hours.

Target group:

Master's level students in marketing.

Prerequisites and co-requisites:

Basic statistics, course 806116P Tilastotiedettä kauppatieteilijöille or similar.

Recommended optional programme components:

The course is an independent entity and does not require additional studies carried out at the same time.

Recommended or required reading:

Course book will be announced later in Noppa. Article collection, and other material as well as possible compendium can be downloaded from Optima.

Assessment methods and criteria:

Individual course work, learning diaries and group exercise with groups' internal evaluation concerning each members' contribution to coursework. The assessment is based on the learning outcomes of the course unit.

Grading:

The course unit utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Dr. Jouni Juntunen

Working life cooperation:

Basic understanding relating for cyber security, how to collect data for business intelligence and quantitative analysis, and in addition, importance of protecting company's own data. Capability to produce quantitative research, understanding concerning quality of the research and how research can be applied for example behind decision making

Status:

The course is intended for the international students in every faculty of Oulu University.

Required proficiency level:

No previous Finnish studies.

ECTS Credits:

2 ECTS credits

Language of instruction:

Finnish and English

Timing:

-

Learning outcomes:

By the end of the course the student can understand and use some very common everyday expressions and phrases, and s/he can locate informational content in simple texts and messages. The student also knows the basic characteristics of Finnish language and Finnish communication styles.

Contents:

This is an introductory course which aims to help students to cope with the most common everyday situations in Finnish. During the course, students learn some useful everyday phrases, some general features of the vocabulary and grammar, and the main principles of pronunciation.

The topics and communicative situations covered in the course are: general information about the Finnish language, some politeness phrases (how to greet people, thank and apologize), introducing oneself, giving and asking for basic personal information, numbers, some time expressions (how to tell and ask the time, days of the week, time of day), food, drink and asking about prices.

The structures studied are: personal pronouns and their possessive forms, forming affirmative, negative and interrogative sentences, the conjugation of some verbs, the basics of the partitive singular and some local cases for answering the 'where'-question.

Mode of delivery:

Contact teaching, on-line learning and independent work. There will be organized also one on-line group in each semester.

Learning activities and teaching methods:

Lessons 2 times a week (26 h, including the final exam) and guided self study (24 h)

Target group:

International degree and post-graduate degree students and exchange students of the University

Prerequisites and co-requisites:

-

Recommended optional programme components:

-

Recommended or required reading:

Will be provided during the course.

Assessment methods and criteria:

Regular and active participation in the weekly lessons (twice a week), homework assignments and written exam at the end of the course will be observed in assessment.

Proficiency level:

A1.2

Status:

The course is intended for the international students in every faculty of Oulu University.

Required proficiency level:

A1.1, Completion of the Survival Finnish course (900017Y) or the equivalent language skills.

ECTS Credits:

3 ECTS credits

Language of instruction:

As much Finnish as possible; English will be used as a help language.

Timing:

-

Learning outcomes:

By the end of the course the student can understand and use some familiar and common everyday expressions relating to her/himself and everyday situations. S/he can interact in a simple way provided the other person talks slowly and clearly and is willing to help. The student is able to read short simple texts and messages dealing with familiar topics. S/he also deepens her/his understanding of the Finnish language and communication styles.

Contents:

This is lower elementary course which aims to help students to learn communication skills in ordinary everyday situations. During the course, students broaden their vocabulary and knowledge of grammar and principles of pronunciation. They also practise to understand easy Finnish talk about everyday subjects, and reading and writing short and simple texts/messages.

The topics and communicative situations covered in the course are: talking about oneself, one's family, studies and daily routines, as well as asking about these things from other person, expressing opinions, describing people and things, talking about weather and seasons, the names of the months and colours.

The structures studied are: verb types, basics of the change of the consonants k, p and t in verbs and nouns, the genitive and partitive cases, possessive structure, some declension types for nouns (word types) and the basics of the local cases.

Mode of delivery:

Contact teaching and guided self study

Learning activities and teaching methods:

Lessons 2 times a week (26 h, including the final exam) and guided self study (55 h)

Target group:

International degree and post-graduate degree students and exchange students of the University

Prerequisites and co-requisites:

Completion of the Survival Finnish Course

Recommended optional programme components:

-

Recommended or required reading:

Gehring, S. & Heinzmann, S. Suomen mestari 1 (chapters 3 - 5)

Assessment methods and criteria:

Regular and active participation in the weekly lessons (twice a week), homework assignments and written exam at the end of the course will be observed in assessment.

A2.1

Status:

The course is intended for the international students in every faculty of University of Oulu.

Required proficiency level:

A1.3, Completion of the Beginners' Finnish course 2 (900053Y) or the equivalent language skills.

ECTS Credits:

5 ECTS credits

Language of instruction:

Mainly Finnish

Timing:

-

Learning outcomes:

By the end of the course the student can communicate in ordinary everyday situations when the topics are familiar or connected with everyday matters. S/he can search for and locate key informational content in different kinds of texts. The student can also identify the topic and some details of the discussion around her/him. S/he can describe activities and personal experiences both orally and in writing and s/he also knows the difference between spoken/colloquial and written/standard language. The student knows how things can be expressed with different degrees of politeness and can apply that information in her/his own communication.

Contents:

The course is a lower intermediate course. During the course students strengthen their communication skills in ordinary everyday situations and acquire a wider vocabulary and more thorough knowledge of grammar. In addition, students practise understanding and producing Finnish talk and reading newspaper articles.

The topics and communicative situations covered in the course are: requesting different kinds of requests, expressing politeness, making appointments with friends, giving directions, doing the shopping, talking about the past and talking about his/her future plans, hobbies, transactions e.g. in the doctor's and post office.

The structures studied are: more about the imperative, the verb rections, the deverbal noun (-minen), passive present tense, part of the plural declension of nouns, the third infinitive (ma-infinitive), more about sentence types, perfect tense, more about object cases.

Mode of delivery:

Status:

The course is intended for the international students in every faculty of University of Oulu.

Required proficiency level:

A2.1, Completion of the Intermediate Finnish course 1 (900015Y) or the equivalent language skills.

ECTS Credits:

5 ECTS credits

Language of instruction:

Finnish

Timing:

-

Learning outcomes:

By the end of the course the student can communicate in various informal situations in Finnish. The student understands the main points of messages and talk around her/him. S/he can produce simple connected text on topics which are familiar or of personal interest and describe experiences and also report heard content to others.

Contents:

The course is an upper intermediate course. During the course students learn the necessary written and oral skills to be able to cope in informal situations arising during everyday life, work and study. In the course, students practise understanding more Finnish talk and written texts, and finding information and talking about it to other people. In the classes the main stress is on oral exercises and group work.

The topics and communicative situations covered in the course are: transactions e.g. in clothes shops and on the phone, Finnish small talk, reacting in different situations, information and facts about Finnish feast culture and features of colloquial/spoken language.

The structures studied are: the perfect and pluperfect, revision of all the verb tenses, comparison of adjectives, conditional, more about the plural declension of nouns (particularly the plural partitive case), more about object and predicative cases, the passive imperfect.

Mode of delivery:

Contact teaching and guided self study

Learning activities and teaching methods:

Lessons twice a week (52 h, including the tests) and guided self study (83 h)

Learning outcomes:

By the end of the course the student can interact with a degree of fluency (and spontaneity) that makes regular interaction with native speakers quite possible. S/he can describe and explain (clearly and in detail) on a wide range of objects, experiences and events, dreams, hopes and ambitions. The student can bring out opinions, give reasons and explanations for them and explain a viewpoint on a topical issue giving the advantages and disadvantages of various options. S/he is also able to give a (clear) prepared presentation and answer the questions posed by the audience.

Contents:

During the course students strengthen their communication skills in formal and informal situations. The goal is to activate the student's Finnish skills and encourage him/her to use them in different situations. There will be various types of situational dialogue, conversation and listening exercises in the course. In addition, students will conduct a short survey which will also be reported to other students in the class.

Mode of delivery:

Contact teaching and guided self study

Learning activities and teaching methods:

Lessons once a week (28-30 h), group work (15 h) and guided self study (36 h)

Target group:

International degree and post-graduate degree students, exchange students and the staff members of the University

Prerequisites and co-requisites:

Completion of Intermediate Finnish 2 (900016Y) or equivalent skills

Recommended optional programme components:

-

Recommended or required reading:

Will be provided during the course.

Assessment methods and criteria:

To pass the course, students must attend class on a regular basis and complete group work tasks and homework assignments.

Language of instruction:

English

Timing:

Period 2 (year 2019) It is recommended to complete the course at the 1st autumn semester of the Master's program

Learning outcomes:

Students know how to analyze strategy as organizational practice and develop and lead strategizing practices supporting the objectives of a business organization. Thus, after the course students are able to compare the process based against the planning based approach to strategy and to analyze what strategic actors do in practice and execute strategizing practices involving the internal micro-practices organizing the strategy. Students demonstrate the ability to express their ideas analytically and effectively in written form.

Contents:

The purpose of this course is to introduce the contemporary theory of strategic thinking and develop skills to lead the strategy creation process in dynamic business situations. The course will explore the dominant social scientific perspectives used in strategy research and the connections between strategy and organizational management as well as strategy, leadership and new business creation. This approach regards strategy as a social phenomenon – strategy as practice – rather than an analytical technique.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

36 hours workshops with reflection (72 h), reading the course literature and writing the report (52 h). The course will be taught in intensive sessions consisting of lecturing and group work. 70 % attendance of sessions is required. Further details will be provided by the responsible person during the first session.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

Assessment will be based on individual learning diary and group assignment (including presentation).

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Sari Laari-Salmela

Working life cooperation:

The student will practice with a real-life case study and work together with a team to define and solve a real-life organizational problem. The student also practices critical reflection, a core capability in strategic thinking. Practical exercises enable reflecting and developing both one's own behavior and organizations' operations.

Other information:

The number of students is limited.

723038S: Multinational Enterprise Theory, 6 op

Voimassaolo: 01.08.2010 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Lauri Haapanen

Opintokohteen kielet: English

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 2. It is recommended to complete the course at the 1st autumn semester of the Master's program.

Learning outcomes:

Students will be able to compare and describe different multinational enterprise theories. They can judge the applicability of the theories in dynamic business contexts. The students are able to explain the major changes in enterprise's cross-border strategies using theoretical frameworks and conclude the viable strategies taking into account firm-specific and industry-specific boundaries. Students are also able to express their ideas analytically and effectively both in written and oral form.

Contents:

Students completing the course will have an understanding of the theories explaining the behavior of large and geographically dispersed multinational enterprises (MNEs) which are in mature stages of internationalization. Students will familiarize with the transaction cost theory, Dunning's OLI paradigm, resource-based view of the firm, and dynamic capability perspective of multinational enterprises. Course addresses specific issues related to the determinants of MNEs, the patterns of foreign direct investments (FDIs), the roles of joint ventures (JVs), and mergers & acquisitions (M&As) in expanding of businesses in foreign countries.

Mode of delivery:

Face-to-face teaching with materials and resources online.

Learning activities and teaching methods:

The course consist of 24 hours lectures with reflections, 12 hours workshop sessions (50 h), reading the course literature (60 h), writing the report (50 h). Students will apply their theoretical knowledge and approaches in an individual course assignment.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

Basic and intermediate studies in international business management

Recommended optional programme components:

No

Recommended or required reading:

[Dunning, J.H. & Lundan, S.M. \(2008\). Multinational enterprises and the global economy, second edition. Edward Elgar Publishing Limited.](#)

Additional collection of articles will be provided during the course.

Assessment methods and criteria:

Assessment is based on given assignments and an individual case report.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for fail.

Person responsible:

Lauri Haapanen

Working life cooperation:

This course covers topics that develop student's awareness of multidimensional aspects related to a multinational enterprise, awareness of complex decision-making situations including multiple units and stakeholders. Course discusses such issues that students will face when being employed in multinational enterprise. Student projects are based on real-life case exercises and enhance analysis and communication skills.

Article collection and online material.

Assessment methods and criteria:

Assessment will be based on individual written report, assignments and lecture activity.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Sakari Sipola

Working life cooperation:

Visiting industry experts provide real-life cases and examples.

Other information:

The number of students is limited.

Second year courses

721070S: Globally Responsible Business, 6 op

Voimassaolo: 01.08.2014 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Anne Keränen

Opintokohteen kielet: English

Leikkaavuudet:

ay721070S Globally Responsible Business (OPEN UNI) 6.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 3 (year 2020)

Learning outcomes:

Upon completion of the course, students are able to demonstrate detailed knowledge of responsible behaviors in global and local business from the viewpoint of their major discipline. The students are able to work in multidisciplinary groups and create a collective approach for uniting economic with socially and environmentally responsible bottom lines within a global business context. Students are also able to express their ideas in written and oral form and communicate them online.

Contents:

The course deals with the diversity of contemporary business issues related to sustainability and responsibility when operating in the global marketplace. Based on the triple-bottom-line concept students are introduced to theoretical and practical perspectives from the disciplines of accounting, economics, finance, management/international business and marketing. Students learn to detect, analyze, and create different approaches of how to globally and locally achieve social and environmental goals in addition to economic objectives of a business.

Mode of delivery:

Online study methods.

Learning activities and teaching methods:

Independent study of the given material 70h, online discussions and groupwork 70h, and conducting individual assignments and learning reports 20h.

Target group:

Students from all OBS Master's programmes.

Prerequisites and co-requisites:

30 credits (5 Master level courses).

Recommended optional programme components:

No

Recommended or required reading:

Course Book (to be announced later), articles and materials provided by the course instructors.

Assessment methods and criteria:

Individual contributions (reports, video, online exam) count for 60% and group contributions (blogpost, case report) 40%.

Grading:

The course utilizes a numerical grading scale 1-5. The course consist of five different parts and students acquire a grade by passing the five different parts in numerical order.

Person responsible:

Anne Keränen, Jan Hermes and Minna Ahokas

Working life cooperation:

The course includes global and local real life case examples and analyses. Course learning methods advance modern communication and interaction methods relevant in work life. Students gain abilities to perceive and develop responsibility in business.

Other information:

The course is available and obligatory for OBS Master level students.

721530S: Master's Thesis in International Business Management, 30 op

Voimassaolo: 01.08.2014 -

Opiskelumuoto: Advanced Studies

Laji: Diploma thesis

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: Finnish, English

ECTS Credits:

30 credits

Language of instruction:

English. Master's thesis can be written in Finnish or in English.

Timing:

Periods 1-4 (2nd year of Master's Programme)

Learning outcomes:

Upon completion of the thesis students can choose and apply appropriate research methods to produce new knowledge and to apply that knowledge to typical business decision-making problems. Students are able to conduct scientific research and make reasonable recommendations for solving business and economic problems. Furthermore, students demonstrate deep and coherent understanding of an academic field of study within their own major. They are able to demonstrate knowledge of the theories, concepts, frameworks and empirical findings of their discipline and understand the connections between various theories in the chosen discipline.

Students will demonstrate deep understanding of their own profession, and are able to use, process and analyze economic and/or business information. Students understand various business processes and operations, and causal connections between them. Finally, students are able to express their ideas effectively and analytically, both in oral and written form.

Contents:

Most of the work is independent writing of the thesis report, but during the master's thesis work students participate in seminar sessions in which they present and report the status and advancement of their work. In the seminars, they receive guidance and feedback from their supervisor on how to proceed in and complete their research report.

Mode of delivery:

Face-to-face teaching in seminar sessions.

Learning activities and teaching methods:

Independent work and face-to-face teaching in seminar sessions. Students prepare and present three reports during the course: 1) Research plan, 2) Intermediate report and 3) Manuscript. The works starts with a kick-off session and the progress and timing of the sessions is agreed on in the kick-off session. Discipline-based kick-off/info sessions are organized in September and May.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

724050A Bachelor's Thesis or another university degree.

Recommended optional programme components:

-

Recommended or required reading:

Scientific articles and other theoretical and empirical materials collected by the students for their individual study.

Assessment methods and criteria:

Examination through written research report based on the defined assessment criteria.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for fail.

Person responsible:

Professors

Working life cooperation:

Working life cooperation is dependent on the particular project. However, the students will learn problem solving and analytical skills as well as oral and written presentation skills needed for a business graduate in working life. Students deepen their understanding of their own profession.

Other information:

Open only to students of the Master's program in International Business Management

Second year courses; select 4 courses

721434S: Selling and Sales Management, 6 op

721415A Industrial Sales Management 5.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 2 (year 1)

Learning outcomes:

Upon completion this course, students are able to raise the appreciation of topic of sales as a profession and academic field. Students are able to formulate a coherent view on central concepts of sales management/leadership and personal selling. Students are able to prepare to recruit, motivate, evaluate

and supervise the sales force. In addition, students are able to plan sales, explain the dynamics of actual sales work and analytically evaluate and solve sales-related issues. Students are also able to design, execute and evaluate a small-scale research on selling and/or sales management/leadership. Students are also able to express their ideas analytically and effectively both in written and oral form.

Contents:

The influence of company and product/service strategies on sales management and vice versa; planning, managing, leading and organizing for sales; interaction at the customer interface; and central research methods in selling and sales management.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Lectures and guided exercises (36 h), group assignment (50 h), reading the course material and literature and conducting an individual assignment (74 h)

Target group:

Master's level students in marketing and management and international business

Recommended optional programme components:

The course is an independent entity and does not require additional studies carried out at the same time.

Recommended or required reading:

Article collection AND Hair et al. (2010) Sales Management. Building Customer Relationships and Partnerships AND Jobber & Lancaster (2012) Selling and Sales Management. Selected sections of the books to be announced at the beginning of the course.

Assessment methods and criteria:

Group assignment 30% and individual assignment 70 % of the final grade. The assessment of the course unit is based on the learning outcomes of the course unit.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Dr. Mari Juntunen

Working life cooperation:

Visiting industry experts with real-life case problems explaining theoretical aspects and models. Sales practices involving actual business cases. Observation of actual sales situations and/or interviews with managers. Group work skills.

Other information:

The number of students is limited.

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 1, 2nd year of the Master's program

Learning outcomes:

Upon completion of the course, the student can integrate design thinking to future professional activities and is able to understand the value of design in dynamic business context. The student recognizes different steps of the design process, has the fundamental capabilities in design thinking tools and can participate in innovation teams in a collaborative and analytical manner.

Contents:

The purpose of this course is to introduce design thinking and other practically orientated frameworks of innovation. The course covers the principles of human-centered innovation process and discusses the managerial and cultural aspects related to enabling change and innovation both in new and established organizations.

Mode of delivery:

Face-to-face teaching, online activity.

Learning activities and teaching methods:

Blended teaching method of 24 hours of lectures, visiting industry experts, and online work (12h) with reflection (72 h), reading the course literature (50 h), writing the report (38 h). The responsible person will provide further details in the first session.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

721559S Venture Growth Strategies

Recommended optional programme components:

721566S Business Impact Project, 721434S Selling and Sales Management, 721541S Perspectives on Innovation Management

Recommended or required reading:

Article collection and online material.

Assessment methods and criteria:

Assessment will be based on individual written report, assignments and lecture activity.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Sakari Sipola

Working life cooperation:

Visiting industry experts provide real-life cases and examples.

The number of students is limited.

721566S: Business Impact Project, 6 op

Voimassaolo: 01.08.2019 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Ahmad Arslan

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Periods 3 and 4, 2nd year of the Master's program.

Learning outcomes:

Students will learn creative problem-solving skills in teams and can apply them at different organization contexts. Students can analyze and choose the methods for building and managing relationships with different project stakeholders and know what it takes to manage innovative projects.

Contents:

The Business Impact Project course is a capstone course that provides the students with an opportunity to apply theoretical knowledge and practical tools learned at previous courses to real-life business projects. Students practice innovation and business development in teams. Teams are supported by industry advisors and mentoring at different stages of the innovation process from the beginning to the final project presentation.

Mode of delivery:

Face-to-face teaching, mentoring and group work.

Learning activities and teaching methods:

Given the nature of design thinking and the innovation process, curriculum may be adapted during the semester in response to student and project needs.

Target group:

Students of the Master's program in International Business Management

Prerequisites and co-requisites:

Prerequisites for the course are 721559S Venture Growth Strategies and 721565S Design Driven Innovation.

Recommended optional programme components:

First year studies of International Business Management.

Recommended or required reading:

Material from previous International Business Management courses and additional material provided by the responsible person(s) at the beginning of the course.

Assessment methods and criteria:

Assessment will be based on group work, reflective essay and project presentation.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Sakari Sipola

Working life cooperation:

Visiting industry experts, working with the case organization

Other information:

The number of students is limited.

721195S: Advanced Management Control, 6 op

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 1 (2nd year of the Master's Programme)

Learning outcomes:

Upon the completion of the course students can identify various theoretical perspectives on studying management control systems. Students are able to analyse management accounting and control research with the help of those perspectives, which assists them in their Master's Thesis work. They are also able to combine the research findings to their own experiences and real business life. Students can thus compare the functionality of different accounting control tools and assess the multifaceted influences management accounting and control tools may have on the organization and on people's behaviour.

Contents:

The organizational and people side of accounting and control systems: how budgeting, transfer pricing, financial and non-financial performance measures may be used to influence, motivate and control what people do in organisations.

Mode of delivery:

Face-to-face teaching with materials and resources online, a possibility for a blended approach.

Learning activities and teaching methods:

Lectures with small group-based exercises 28 h and a possibility for blended learning online, term paper 63 h, self-study 63 h.

Target group:

Major students of Accounting (and International Business Management)

Prerequisites and co-requisites:

Basic course of management accounting or management control; OR Kaplan, R., Atkinson, A: Advanced Management Accounting: Pearson New International Edition (as applicable), 3rd Edition (2013), Sections 7-10.

Recommended optional programme components:

The first year studies of Accounting or International Business Management programme.

Recommended or required reading:

[Hopper, T.; Scapens, R. W.; Northcott, D.: Issues in Management Accounting \(Chapters 9, 11 and 12\), Prentice Hall, 3rd edition \(2007\);](#)

A Collection of Articles.

Assessment methods and criteria:

Students complete a lecture and literature examination in Examinarium and write a term paper independently or in a group. Both comprise 50% of the final grade. Assessment is based on the learning outcomes of the course unit and the more detailed assessment criteria will be available in the course material. The students may also choose to compensate a part of the exam by participating actively in the lectures and/or doing home assignments online.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Lecturer Sinikka Moilanen

Working life cooperation:

Students learn how to use research findings in order to understand the functionality of different accounting control tools. They are able to design accounting-based management control tools and assess their effects on the behavior of employees. Visiting lecturer from a management consultancy firm discusses international transfer pricing.

Other information:

The number of students is limited.

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Tuure Haarjärvi

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 2. It is recommended to complete the course at the 2nd autumn semester of the Master's program.

Learning outcomes:

Students gain understanding about the impact of technological development. Focus will be on the current disruptive technologies (eg. Artificial Intelligence, Internet-Of-Things or Blockchain) and possible influences technologies have on business and society. Students are also able to express their ideas analytically and effectively both in written and oral form.

Contents:

Course will use socio-technical theories to understand societal impact of current disruptive technologies. Business impact is approached through entrepreneurial / venture theories. Topics are discussed from non-technical perspective (eg. no AI programming or logic scripting) on technology.

Mode of delivery:

Face-to-Face teaching with materials and resources online. Industry visitors.

Learning activities and teaching methods:

The course consists of lectures with reflections, visitor lectures, workshop sessions, reading the course literature, writing the report. Students will apply their theoretical knowledge and approaches in an individual course assignment.

Target group:

Students of the Master's program in International Business Management and Marketing

Prerequisites and co-requisites:

none

Recommended optional programme components:

none

Recommended or required reading:

none

Assessment methods and criteria:

Exercises and learning diary.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Tuure Haarjärvi

Working life cooperation:

Course will have multiple visitors from companies lecturing relevance of disruptive technologies for their business.

Other information:

The number of students is limited.

721065S: Internship, 6 op

Voimassaolo: 01.08.2014 -

Opiskelumoto: Advanced Studies

Laji: Practical training

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opintokohteen kielet: English

ECTS Credits:

6 credits

Language of instruction:

Varies depending on the way of completion.

Timing:

Free

Learning outcomes:

The internship offers the students the opportunity to learn how to solve problems and to learn organizational tasks and responsibilities related to their major subject. Furthermore, the internship supports students to establish relationships to both working colleagues and business management and develops their communication skills within the organization and its network. The internship offers the students the possibility to develop their skills how to apply their knowledge in working environment and to increase their competence.

Contents:

The content is made up of the job description which is related to the student's major subject and which is provided by the organization where the internship will be accomplished. To be eligible for advanced level internship, the student should work either in a managerial position or as an independent specialist who has a responsible position with a possibility to use organizational resources.

Learning activities and teaching methods:

The student will work under the supervision of the internship instructor appointed by the company. First, student should contact Sakari Nikkilä to agree on the practicalities and documentation of the internship. Upon completion of the internship the student reflects and describes the internship period in the written report (8-10 pages) which will be returned with a weekly diary and a copy of the employment certificate to Jaakko Simonen and Sakari Nikkilä.

The written report should be 8-10 pages and contain:

1. Description of the organization/company where the internship was completed
 2. Description of the tasks, responsibilities and working methods during the internship
 3. Description of how the tasks and responsibilities relate to the other functions of the organization
 4. Description of how the internship relates to future career plans
 5. Business development ideas for the Internship organization
 6. Reflection on what was learned during the internship, how the learning relates to what has been learned earlier in the bachelor's and master's studies, and connecting the learning to theoretical concepts of the discipline.
- A description of the organization/company where the internship was completed.
 - A detailed description of the tasks, responsibilities and working methods during the internship.
 - Description of how the tasks and responsibilities relate to the other functions of the organization.
 - Reflection on what was learned during the internship, how the learning relates to what has been learned earlier in the bachelor's and master's studies, and connecting the learning to theoretical concepts of the discipline.
 - Description of how the internship relates to future career plans.

More detailed guidelines are available from the responsible persons

Target group:

Students of OBS's Master's Programmes

Prerequisites and co-requisites:

Completed bachelor's studies. Minimum of 30 credits of Master's studies

Recommended optional programme components:

No

Recommended or required reading:

-

Assessment methods and criteria:

Internship report and other documentation delivered according to the above instructions

Grading:

Pass/Fail

Person responsible:

Jaakko Simonen and Sakari Nikkilä

Working life cooperation:

The student will work in an organization improving professional skills related to the major subject and developing business knowledge (and personal network).

Grading:

The course unit utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Professor Timo Koivumäki and Dr. Teck Ming (Terence) Tan

Working life cooperation:

First-hand experience of social media and other digital marketing practices and analytics. Visiting lecturers from companies and/or other expert organizations.

Other information:

The number of students is limited.

721436S: Brand Management, 6 op

Voimassaolo: 01.08.2014 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Salla Saraniemi

Opintokohteen kielet: English

Leikkaavuudet:

721427A Brand Management 5.0 op

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 3 (year 1)

Learning outcomes:

Upon completion of this intensive course the student is able to systematically analyze and develop brands and brand communication and compare different brand strategies. The student is able to assess brand value from the perspectives of a firm, customers, and different stakeholders. The student is able to discuss with arguments the brand phenomenon and related concepts (image, identity, reputation). In addition, the student is able to analyze different phases and factors of the branding process and to formulate different research possibilities within the brand phenomenon. Accordingly, the student is able to make brand-related decisions and apply brand perspective as a strategic asset of businesses. Students are also able to communicate and popularize research results and scientific knowledge to public audiences.

Contents:

The brand phenomenon from versatile and contemporary perspectives. The lectures include following themes: the origin of brand phenomenon and evolution of brand research, designing branding strategies and brand communication, brand value, network perspective in branding, managing brands over time. In addition, different branding contexts are examined, e.g. SME branding, service branding, B2B branding, place branding, digital branding and non-profit branding.

Mode of delivery:

Face-to-face teaching

Learning activities and teaching methods:

Preparation for and passing a pre-exam based on three articles (will be announced in November at Noppa and online learning space) (26 h), lectures and visiting lectures, (34 h), reading the assigned articles (20 h), brand analysis (including real-life case) as group work (40 h), learning diary (40 h).

Target group:

Master's level students in marketing.

Prerequisites and co-requisites:

The course is an independent entity and does not require additional studies carried out at the same time.

Recommended or required reading:

Articles determined for the pre-exam (home-exam at online learning space, deadline week 2) AND an article collection announced during the course. Recommended additional material: Rajendra K. Srivastava and Gregory Metz Thomas (eds.). 2016. The Future of Branding.

Assessment methods and criteria:

Assessment will be at three stages: pre-examination (20 %), group work and its presentation (50 %) and an individual learning diary (30 %). The assessment is based on the learning outcomes of the course unit. Before the course, follow Noppa for announcements regarding pre-exam material, and sign in for the course preferably by the end of December.

Grading:

The course utilizes a numerical grading scale 1-5. In the numerical scale zero stands for a fail.

Person responsible:

Dr. Saila Saraniemi

Working life cooperation:

The course includes guest lectures from different fields of branding. The students will implement a brand analysis of a company as part of their group work.

Other information:

The number of students is limited.

721473S: Quantitative Methods in Marketing Research, 6 op

Voimassaolo: 01.08.2019 -

Opiskelumuoto: Advanced Studies

Laji: Course

Vastuuyksikkö: Oulu Business School

Arvostelu: 1 - 5, pass, fail

Opettajat: Jouni Juntunen

Opintokohteen kielet: English

Voidaan suorittaa useasti: Kyllä

ECTS Credits:

6 credits

Language of instruction:

English

Timing:

Period 1

Learning outcomes:

Upon completion of the course, students can analyze marketing and business environments, and collect and utilize especially quantitative data to help management and develop decision making. In addition, they are able to create reports to communicate with management, customers and other stakeholders regarding the analyzed data. They are also able to evaluate the usability, validity, reliability and generalizability of the data and reports. After completing this course, students can use the basic market analysis tools in data gathering and analysis.

Contents:

Lectures and related material include the following themes: 1) Background for market and business intelligence, measuring concepts and collecting quantitative data. 2) Tools of quantitative research in Master level are introduced (e.g. Excel, SPSS, PSCP, Webropol) and finally, 3) Issues related to reporting quantitative research and business intelligence.

Mode of delivery:

Blended approach.

Learning activities and teaching methods:

There will be 36 hours lectures and computer exercises. In addition, writing of learning diaries and course work 72 hours and, independent reading of the articles and other related material with the group work and writing group work of 52 hours.

Target group:

Master's level students in marketing.
