

BOTANICAL GARDENS AT OULU UNIVERSITY
GREENHOUSES
Exercises I

GREENHOUSE ROMEO

1. Step in to the rainforest. Look around and close your eyes for a while. Talk with your friend:
 - What does the rainforest feel or smell like?
 - What kind of sounds could you hear in a rainforest?
2. There are many different kinds of plant species. It is nice to study them, but many plants have also other benefits.
 - Try to find these plants in the greenhouse Romeo.
 - Name the plants.
 - Connect the plants to the right product.

GREENHOUSE JULIA

3. Look all the different kinds of **leaves**. Draw three different kinds: one small, one giant and the most beautiful one.

4. Here are plants, which you can find in the greenhouse Julia. The pictures are missing something. Fill in!

PULLOJUKKA
Beaucarnea recurvata

TÄHTIPIISPANHATTU
Astrophytum ornatum

ORJANLAAKERI
Ilex aquifolium

Extra task at the lobby

Look with your friend through the glass to the little greenhouse: pteridophytes (sanikkaiset)

-Choose one plant, but don't tell your friends which one it is.

-Now your friend can ask questions about the plant, questions which you can answer either YES or NO to

-Based on your answers your friend tries to guess which one your plant is.

-When he/she guesses right you switch turns.

Answers:

2.

RICE

CACAO

BANANA

PINEAPPLE

PEPPER

4.

PULLOJUKKA

TÄHTIPIISPANHATTU

ORJANLAAKERI
