

Faculty of Education exchange places 2020-21

Some institutions below have mentions of different subjects/modules/themes that stood out browsing their course catalogues. This should help you when choosing a destination but please bear in mind that the list is not exhaustive, by any means, and some good examples might have been missed! So remember to check interesting institutions yourself as well. All institutions have courses in English, even if no mention has been made below. When an institution has 'international program' listed, it means a fixed program, generally, in teacher education ranging from 15 to 30 ECTS. This is also an guarantee that there will be thematically organised courses, taught in English.

NOTE that the places in red are not included in the Fall 2020 exchange application period. Furthermore, due to the COVID-19, changes to the list are possible.
