Oula-Finna Library's collections search

Also off-campus access to e-resources: e-books, journals and databases

The screenshot displays the Oulu University Library search interface. At the top, the logo and name 'Oulu University Library OULA-FINNA' are visible, along with navigation links for 'About us', 'Search functions', 'Help', 'Subject guides', and 'Oulu University Library'. A user profile dropdown menu is open on the right, showing options like 'Checked Out Items', 'Holds and Recalls', 'Fines', 'Library Cards', 'Profile', 'Saved searches', 'Favourites', and 'Log Out'. The search bar contains the query '"mass extinction*"' and is set to search 'All fields'. Below the search bar, there are tabs for different search categories: 'Books, journals, databases etc.', 'E-materials', 'Other libraries', 'National Repository Library', and 'Arto - Finnish articles'. The search results are displayed in a list view, showing 1-20 results of 26. The first result is 'Carboniferous Giants and Mass Extinction: The Late Paleozoic Ice Age World' by George R. McGhee Jr., published in 2018. It is an eBook available online through SFX and EBSCOhost. The interface also includes a 'NARROW SEARCH' section with filters for 'Available online' (21 items), 'CONTENT TYPE' (Book material: 26, eBook: 21, Book: 5), and 'TOPIC' (Extinction (Biology): 7).

What if it Switched on the Sun? Exploring Creativity in a Brainstorming Session with Children Through a Vygotskyan Perspective

E-article

Kinnula, Marianne ; Molin-Juustila, Tonja ; Sánchez Milara, Iván ; Cortes, Marta ; Riekki, Jukka
Published in *Computer Supported Cooperative Work (CSCW)* 2017, Vol.26(4), pp.423-452

We contribute in this study a first step in theory-based understanding on how creativity in collaborative design sessions relates to the elements that are present in a creative act. These elements include group composition, objects present, practices used, and previous knowledge of the participants. The context of this study was our

[\[HTML\] Four lectures on closed string field theory](#)
T Eler - *Physics Reports*, 2020 - Elsevier
These are notes for four lectures on the topic of closed **string field theory** (closed SFT). Videos of the lectures can be found by clicking here, though in four allotted slots I covered only the first two lectures. Even with all four lectures, the scope of what is covered is limited. The definitive ...

Visibility improves scientific impact

Boost your citation count - Ensure findability of your papers

- Formulate title, abstract and keywords with caution
- Choose quality publication channels
 - JuFo (Publication Forum) levels 2 and 3
 - publications indexed in Scopus and/or Web of Science
- Open your research results
- Maintain your researcher profiles
 - ORCID, Scopus, Google Scholar
- Advertise your research projects and publications
 - ResearchGate, Academia.edu, Mendeley, Twitter, Facebook
 - In social media, remember copyright issues!!

Responsible research: publications, data, metrics and merits (2 cr)

- Finding scientific information
- Reference management
- Evaluation of publications based on quantitative and qualitative methods
- Visibility of researchers and research
- Choosing publication channel
- Open access publishing
- Managing of research data
