Machine-type wireless communications on the verge of the wireless revolution!

Hirley Alves, Assist. Prof.

26.3.2021
Hirley Alves
Assistant Professor
Head of MTC Group
Leader MTC/URLLC: 6G Flagship
6G will emerge around 2030 to satisfy the expectations not met with 5G, as well as, the new ones fusing AI inspired applications in every field of society with ubiquitous wireless connectivity.

Vision for 2030
Our society is data-driven, enabled by **near-instant**, **unlimited wireless connectivity**.

6G will emerge around 2030 to satisfy the expectations not met with 5G, as well as, the new ones fusing AI inspired applications in every field of society with ubiquitous wireless connectivity.
We are brilliant researchers that seek elegant mathematical and algorithmic solutions for MTC within its diverse and heterogeneous requirements and applications.
IoT Connectivity
Kiitos!
Thanks!
Obrigado!
