**Abstract**

**INSTRUCTIONS TO FILL IN THIS DOCUMENT:**

1. **Department**
   The complete name of the Department

2. **Degree programme**
   Fill in the name of your Degree Programme: for a special Master’s Degree Programme (MDP), fill in the full name of the Master’s programme.

3. **Author**
   Your Family name, Given name(s), e.g. Doe, John Martin

4. **Supervisor (at the university)**
   Name of the person at the University (professor, etc.) who supervised the thesis (Family name, 1st letter of the first Given name,), and the position of the supervisor: e.g. Roe, J., professor.

5. **Title of the thesis**
   The title of the thesis

6. **Study option**
   The special discipline of your studies, your study option: Clean Production or Water and Environment.

7. **Type of the thesis**
   Master’s Thesis

8. **Submission date**
   Time when the finalized thesis was submitted to the Laturi-system for evaluation: month, year, e.g. January 2014.

9. **Number of pages**
   Number of pages and attachments in the thesis: e.g. 179 p., 5 app.

10. **Abstract**
    Abstract (text) is a compact presentation (200-400 words, fitting to one A4 page) where the aims, methods and results of the thesis are described. The abstract must be an independent text and it should not include any citings to the actual thesis or the references therein, or contain any information which has not been discussed in the actual thesis.
    The abstract text can be written in free form, but has to be clear, using short sentence structures.
    The abstract text should tell the next:
    - What were the aims and the hypotheses of the thesis work (the problems to be solved)
    - What were the used research methods
    - What were the most important results of the thesis research
    - How could the results be utilized and generalised

11. **Additional information**
    Usually this part can be left open, but e.g. if the thesis is partly published in a different forum, that can be marked in section “Additional information”.
