

SCHOLARSHIPS FOR MASTER'S THESIS WORK

The Centre for Wireless Communications (CWC) operates in conjunction with the Department of Communications Engineering (DCE) at the University of Oulu, Finland. The mission of the research unit is to conduct world-class research, train world-class graduates, create new technologies and support the industry. Currently, CWC employs 130 research and teaching staff members from more than 20 countries.

CWC offers scholarships of 3 000€ for Master's Thesis Work. The scholarships are aimed at M.Sc.(Eng.) students enrolled in the study programme of electrical engineering with the focus on communications engineering or the Wireless Communications Engineering – International Master's Thesis programme.

To be eligible to apply, all applicants must satisfy the following condition:

1. The applicant has EITHER received minimum 55 credit points during the ongoing academic year 2013-2014 OR is missing, by the end of May 2014, at most two courses and seminar out of all the course work required for the Master's Degree.
2. The applicant has not previously received a master's thesis scholarship from CWC/DCE.

CWC is committed to offering an inspiring Master's Thesis topic related to Communications Engineering as well as high-quality supervision for the scholarship receivers. Access for necessary material and software is also provided.

Please send your printed application including your **CV**, your latest **transcript of records** as well as a short **motivation letter by 30 May 2014** to Dr. Juha-Pekka Mäkelä, Tietoliikennetekniikan osasto, PL 4500, 90014 OULUN YLIOPISTO, Finland.

The nominations will be made right after the deadline and the thesis work can begin at the earliest on 9 June 2014. The scholarship will be paid in two parts. The first payment (1 500€) will be made once the thesis topic has been defined, the master's thesis application form has been submitted to the study committee, and practical work has begun. The second payment (1 500€) will be made after successfully completion and submission of the manuscript.

Note that if you have currently difficulties in meeting the eligibility criteria, scholarships will also be available in September 2014! A new call for applications will be announced for the second batch.
