

ARM mbed

Oulu Hackathon 29th Feb 2016, 9:00-17:00

Want to learn how to build connected devices that run years on a battery? [Join us at ARM's IoT hackathon](#) to build wireless connected devices and services using the mbed IoT Platform.

The day is hosted by ARM mbed experts.
All you need to join is your laptop
– we will provide everything else you need.

[Teekkaritalo \(Kalervontie 7, 90570 Oulu\)](#)
Registration: pia.klemetti@arm.com
