

Installation of Office 365 ProPlus applications to your own computer

1. Open the address <https://portal.office.com/OLS/MySoftware.aspx> in browser. Alternatively, click top-right corner icon  in Office 365, then click “Office 365 Settings” and select “Software”.
2. Sign in with your own Office 365 account (typically the same as your school email address). Enter your password to Office 365 login page or school login page.

- Office installation and language options are available in Office page. It is possible to install the latest Office package up to 5 own computers. Office for Mac is offered for users, who open this page using a Mac.

- In addition, you can activate Office for iPad, iPhone or Android phone with your Office 365 account.
